Question # 8

What is Texturing?

Answer:-

Texturing refers to the process by which professional animators are able to produce astonishing details. This detailing may refer to detailing of a character or even the environment in which the character is placed. Detailing includes clothing, hair, eye colour, skin etc. in case of a character. In case of environmental texturing, it includes textures prepared for surrounding environment, from the surface of a table or chair, to clouds or forest in the background. Animators usually use photo shop in case of environmental texturing. For character detailing photo shop may be used although some animators may prefer soft wares like 'Z brush' which offer a much higher degree of detail.
