Question # 10

Do you ever take work home with you?

Answer:-

Here are two great sample answers that might help get you started:

* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.

* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.

* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

Question # 27

What do you like to do outside of work?

Answer:-

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too." In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

Question # 28

Where do you see yourself in five years At American Eagle Federal Credit Union?

Answer:-

If asked this question, be honest and specific about your future goals, but consider this:

A hiring manager wants to know

* a) if you've set realistic expectations for your career,

* b) if you have ambition (a.k.a., this interview isn't the first time you're considering the question), and

* c) if the position aligns with your goals and growth. Your best bet is to think realistically about where this position could take you and answer along those lines.

And if the position isn't necessarily a one-way ticket to your aspirations?

It's OK to say that you're not quite sure what the future holds, but that you see this experience playing an important role in helping you make that decision.

What is your greatest failure At American Eagle Federal Credit Union, and what did you learn from it?

Answer:-

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

Question # 41

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.
