# Artificial Insemination Technician (AI Technician) Job Interview Preparation Guide.

### Question # 1

Can you tell me a little about yourself?

#### Answer:-

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Artificial Insemination Technician (AI Technician). Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

### Question # 9

Top 13 Situational Interview Questions As Artificial Insemination Technician (AI Technician):

#### Answer:-

Situational interviews As Artificial Insemination Technician (AI Technician) are similar to behavioral interview questions - but they are focused on the future, and ask hypothetical questions, whereas behavioral interview questions look at the past.

The advantage is that employers can put all candidates in the same hypothetical situations, and compare their answers.

1. What would you do if you made a strong recommendation in a meeting, but your colleagues decided against it?
2. How would you handle it if your team resisted a new idea or policy you introduced?
3. How would you handle it if the priorities for a project you were working on were suddenly changed?
4. What would you do if the work of an employee you managed didn't meet expectations?
5. What would you do if an important task was not up to standard, but the deadline to complete it had passed?
6. What steps would you take to make an important decision on the job As Artificial Insemination Technician (AI Technician)?
7. How would you handle a colleague you were unable to form a positive relationship with?
8. What would you do if you disagreed with the way a manager wanted you to handle a problem?
9. What would you do if you were assigned to work with a difficult client As Artificial Insemination Technician (AI Technician)?
10. What would you do if you worked hard on a solution to a problem, and your solution was criticized by your team?
11. How would you handle working closely with a colleague who was very different from you?
12. You're working on a key project that you can't complete, because you're waiting on work from a colleague. What do you do?
13. You realize that an early mistake in a project is going to put you behind deadline. What do you do?

### Question # 10

Explain what are your weaknesses As Artificial Insemination Technician (AI Technician)?

#### Answer:-

Red flags: This is the peanut butter to the previous question's jelly. Again, everyone should expect it, so it's a bad sign if someone seems totally unprepared, or gives a stock answer like, "I'm a perfectionist." Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.

Good answer: Candidates should talk about a real weakness they've been working on improving. For instance, they're not good at public speaking, but they've been taking a course to help them improve. Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task. Answers like these show a desire for improvement, self awareness and discipline.

### Question # 36

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

**Answer:-**

Do the following steps:

\* 1. Turn ON two switches, and leave one OFF.

\* 2. Wait a few minutes.

\* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

\* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

### Question # 41

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

**Answer:-**

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day. I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.

### Question # 60

How would your friends describe you?

**Answer:-**

My friends would probably say that I'm extremely persistent - I've never been afraid to keep going back until I get what I want. When I worked as a program developer, recruiting keynote speakers for a major tech conference, I got one rejection after another - this was just the nature of the job. But I really wanted the big players - so I wouldn't take no for an answer. I kept going back to them every time there was a new company on board, or some new value proposition. Eventually, many of them actually said "yes" - the program turned out to be so great that we doubled our attendees from the year before. A lot of people might have given up after the first rejection, but it's just not in my nature. If I know something is possible, I have to keep trying until I get it.

### Question # 61

Why are you leaving your current job?

**Answer:-**

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

### Question # 63

What are your salary expectations As Artificial Insemination Technician (AI Technician)?

**Answer:-**

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

### Question # 66

How much do you expect to get paid As Artificial Insemination Technician (AI Technician)?

**Answer:-**

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

### Question # 67

What features of your previous jobs have you disliked?

**Answer:-**

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

### **Question # 70**

What schedule do you hope to work? Are you willing to work extra hours?

#### **Answer:-**

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

### **Question # 71**

Give an example of a time you successfully worked As Artificial Insemination Technician (AI Technician) on a team?

#### **Answer:-**

On the whole I prefer to stick to doing what I'm told rather than setting myself up to fail by doing things off my own bat. But there was this one time when I suggested to my boss at the pizza parlor that she try offering an 'all you can eat' deal to students to boost trade on Mondays. She thought it was an interesting idea but nothing ever came of it.
