### Question # 2

How do you think you might fit this position In Atomic Physics?

#### Answer:-

An important part of research before the interview is what the company does and how the job role relates to that. This includes the company philosophy and working methods. Questions such as this seek to find out how a candidate will fit into the organisation In Atomic Physics. Answer positively; including practical examples of how you anticipate you would perform in the new role.

[Read More Answers.](#)

### Question # 3

How do you think your colleagues at your last job would describe you?

#### Answer:-

While your CV will say a lot about your work history In Atomic Physics, the interviewer will most likely look for greater detail with questions such as this. Be positive about previous experience, highlighting your own strengths.

[Read More Answers.](#)

### Question # 4

What education or training have you had that makes you fit for this profession In Atomic Physics?

#### Answer:-

This would be the first question asked in any interview. Therefore, it is important that you give a proper reply to the question regarding your education. You should have all the documents and certificates pertaining to your education and/or training, although time may not allow the interviewer to review all of them.

[Read More Answers.](#)

### Question # 5

What is your biggest weakness In Atomic Physics?

#### Answer:-

No one likes to answer this question because it requires a very delicate balance. You simply can't lie and say you don't have one; you can't trick the interviewer by offering up a personal weakness In Atomic Physics that is really a strength ("Sometimes, I work too much and don't maintain a work-life balance."); and you shouldn't be so honest that you throw yourself under the bus ("I'm not a morning person so I'm working on getting to the office on time.")

[Read More Answers.](#)

### Question # 6

What's your dream job?

#### Answer:-

Along similar lines, the interviewer wants to uncover whether this position In Atomic Physics is really in line with your ultimate career goals. While "an GGL star" might get you a few laughs, a better bet is to talk about your goals and ambitions-and why this job will get you closer to them.

[Read More Answers.](#)

### Question # 7

Would you like doing repetitive work?

**Answer:-**

Why not, I am not only doing a repetitive work but also earning but also getting a good salary by the company In Atomic Physics. And second thing is that nothing is interesting in the life till we are not interested.

[Read More Answers.](#)

**Question # 8**

How do you handle conflicts with people you supervise?

**Answer:-**

At first place, you try to avoid conflicts if you can. But once it happens and there's no way to avoid it, you try to understand the point of view of the other person and find the solution good for everyone. But you always keep the authority of your position.

[Read More Answers.](#)

**Question # 9**

If hired, how do you intend on making a difference with our company?

**Answer:-**

Dedicate myself to learn everything about the new company that I can, look for ways and ideas that could improve, processes, safety, removing obstacles from the associates, I want to advance within the company.

[Read More Answers.](#)

**Question # 10**

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

**Answer:-**

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[Read More Answers.](#)

**Question # 11**

What do you like to do outside of work?

**Answer:-**

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too." In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

[Read More Answers.](#)

**Question # 12**

What was the most difficult employee situation you found yourself In Atomic Physics? How did you overcome the problem?

**Answer:-**

One of employees was conflicting with other and colleague who was prove his was wrong hi denied and was invite union to defend him but we have prove his wrong and I was facing disciplinary action.

[Read More Answers.](#)

**Question # 13**

What's a time you disagreed with a decision that was made at work?

**Answer:-**

Everyone disagrees with the boss from time to time, but in asking this interview question In Atomic Physics, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong,". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

[Read More Answers.](#)

**Question # 14**

Why are manhole covers round?

**Answer:-**

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[Read More Answers.](#)

**Question # 15**

Why should I hire you In Atomic Physics?

**Answer:-**

To close the deal on a job offer, you **MUST** be prepared with a concise summary of the top reasons to choose you. Even if your interviewer doesn't ask one of these questions in so many words, you should have an answer prepared and be looking for ways to communicate your top reasons throughout the interview process.

[Read More Answers.](#)

**Question # 16**

Describe a typical work week for this position In Atomic Physics?

**Answer:-**

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position In Atomic Physics you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[Read More Answers.](#)

**Question # 17**

Do you like to start personal relationships with other employees?

**Answer:-**

Well, the right answer is yes and no. Good personal relations can improve the overall performance of a team. But on the other hand, you should not let your emotions affect your decisions in work.

[Read More Answers.](#)

**Question # 18**

Explain an idea that you have had and have then implemented in practice?

**Answer:-**

Often an interview guide will outline the so-called 'STAR' approach for answering such questions; Structure the answer as a situation, task, action, and result: what the context was, what you needed to achieve, what you did, and what the outcome was as a result of your actions.

[Read More Answers.](#)

**Question # 19**

Explain me about your experience working in this field In Atomic Physics?

**Answer:-**

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

**Question # 20**

Give me an example of an emergency situation that you faced. How did you handle it?

**Answer:-**

There was a time when one of my employers faced the quitting of a manager in another country. I was asked to go fill in for him while they found a replacement and stay to train that person. I would be at least 30 days. I quickly accepted because I knew that my department couldn't function without me.

[Read More Answers.](#)

**Question # 21**

How many square feet of pizza are eaten in the United States each month?

**Answer:-**

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

[Read More Answers.](#)

**Question # 22**

How much do you expect to get paid In Atomic Physics?

**Answer:-**

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[Read More Answers.](#)

### Question # 23

What are three positive things your last boss would say about you?

#### Answer:-

It's time to pull out your old performance appraisals and boss's quotes. This is a great way to brag about yourself through someone else's words: "My boss has told me that I am the best designer he has ever had. He knows he can rely on me, and he likes my sense of humor."

[Read More Answers.](#)

### Question # 24

What do you know about the company?

#### Answer:-

Any candidate can read and regurgitate the company's "About" page. So, when interviewers ask this, they aren't necessarily trying to gauge whether you understand the mission—they want to know whether you care about it. Start with one line that shows you understand the company's goals, using a couple key words and phrases from the website, but then go on to make it personal. Say, "I'm personally drawn to this mission because..." or "I really believe in this approach because..." and share a personal example or two.

[Read More Answers.](#)

### Question # 25

What does quality work mean to you?

#### Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

### Question # 26

What is your biggest achievement?

#### Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

### Question # 27

Where do you see yourself professionally five years from now In Atomic Physics?

#### Answer:-

Demonstrate both loyalty and ambition in the answer to this question. After sharing your personal ambition, it may be a good time to ask the interviewer if your ambitions match those of the company.

[Read More Answers.](#)

### Question # 28

Why do you want to work In Atomic Physics for this organisation?

#### Answer:-

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

[Read More Answers.](#)

### Question # 29

Are you planning to continue your studies and training In Atomic Physics?

#### Answer:-

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

[Read More Answers.](#)

### Question # 30

How do you keep each member of the team involved and motivated?

#### Answer:-

Many managers mistakenly think that money is the prime motivator for their employees. However, according to surveys by several different companies, money is consistently ranked five or lower by most employees. So if money is not the best way to motivate your team, what is?

Employees' three most important issues according to employees are:

- \* Respect
- \* A sense of accomplishment
- \* Recognition

### Question # 31

Tell me about a time when you successfully handled a situation?

#### Answer:-

For this question, the interviewer wants to know what you do in a situation that doesn't have a clear answer. This will help the interviewer know how you respond to unforeseen challenges.

[Read More Answers.](#)

### Question # 32

Do you consider yourself successful?

#### Answer:-

You should always answer yes to this question. Briefly explain why without going on and on. If you communicate that you're more successful than you really are you may come off as arrogant or unrealistic. A goof explanation is that you have set professional goals and that you have met some of these goals and are on track to meet more in the near future.

[Read More Answers.](#)

### Question # 33

What have you done to improve your skills over the past year In Atomic Physics?

#### Answer:-

You'll want to be prepare with some very specific examples of what you've done over the last year and what you're currently doing to improve your professional knowledge and skill set as well as anything else you're doing the shows self improvement.

[Read More Answers.](#)

### Question # 34

Why do you want to work for this company?

#### Answer:-

Again be honest. The interviewer will be able to sense very quickly if you're be disingenuous. Your answer should be base on your person reasons, career aspirations as well as research you've performed on the company. The most important thing you should do is make sure to relate your answer to your long-term career goals.

[Read More Answers.](#)

### Question # 35

What is your philosophy towards work?

#### Answer:-

This is typically a straightforward question that merits a straightforward answer. Do you have strong worth ethic? Will you do whatever it takes to make sure the job gets done? Just say so in your response. Keep it short, direct and positive.

[Read More Answers.](#)

### Question # 36

What would your previous employer say is your greatest strength?

#### Answer:-

Be prepared for this question. If you have to sit and think about it it's going to appear as if you're not sure or that you've never identified your own value in the work place - not good. You don't have to have a complex response. Keep it simple and honest. For example, several possibilities could be Leadership, Problem solving ability, Initiative, Energy, Work ethic, Innovative, etc., etc.

[Read More Answers.](#)

### Question # 37

If you were hiring a person for this job In Atomic Physics, what would you look for?

#### Answer:-

Discuss qualities you possess required to successfully complete the job duties.

[Read More Answers.](#)

### Question # 38

Tell me why do you want this job In Atomic Physics?

#### Answer:-

Bad Answer: No solid answer, answers that don't align with what the job actually offers, or uninspired answers that show your position is just another of the many jobs they're applying for.

Good answer: The candidate has clear reasons for wanting the job that show enthusiasm for the work and the position, and knowledge about the company and job.

[Read More Answers.](#)

### Question # 39

How much are you willing to sacrifice to be successful at work In Atomic Physics?

**Answer:-**

With anything comes sacrifice. The question is how much of it are you willing to sacrifice with regards to work life balance, stress, etc?

[Read More Answers.](#)

**Question # 40**

If you were given more initiatives than you could handle, what would you do?

**Answer:-**

First prioritize the important activities that impact the business most. Then discuss the issue of having too many initiatives with the boss so that it can be offloaded. Work harder to get the initiatives done.

[Read More Answers.](#)

**Question # 41**

If you have multiple projects on your plate, how do you handle completing them on time?

**Answer:-**

Prioritize based on business importance. Set clear timelines for each so that you know which ones to knock out first. Get your teammates to help if necessary.

[Read More Answers.](#)

**Question # 42**

Tell me about a time when you were forced to make an unpopular decision?

**Answer:-**

Not every decision is popular. In fact, almost every decision is bound to make someone unhappy at some point. The key is to demonstrate how it impacted others positively and why you chose it.

[Read More Answers.](#)

**Question # 43**

Tell me about a time you had to fire a friend?

**Answer:-**

Hopefully you've never had to do this, but if you did, talk about how hard it was personally to fire anyone but that you did it objectively.

[Read More Answers.](#)

What's been your biggest failure to date?

**Answer:-**

Describe your biggest failure and discuss what you've learned from it and ideally how you've been successful since because of that lesson.

[Read More Answers.](#)

**Question # 47**

What are ideas or initiatives you've led and what was the outcome?

**Answer:-**

Describe your most unique ideas and initiatives that had the best results for the company. Make sure you highlight your creativity, your results, your diligence and your ability to execute.

[Read More Answers.](#)

**Question # 48**

Describe yourself in three words?

**Answer:-**

Pick three adjectives but then back up each with a real life story that demonstrates those characteristics.

[Read More Answers.](#)

### Question # 49

How have you shown yourself to be a leader?

#### Answer:-

Think about a time where you've rallied a group of people around a cause / idea / initiative and successfully implemented it. It could be a small or large project but the key is you want to demonstrate how you were able to lead others to work for a common cause.

[Read More Answers.](#)

### Question # 50

What type of extracurricular activities are you a part of?

#### Answer:-

Discuss the clubs / activities you were in, share a personal story about why you enjoyed it and then describe how it's helped shape you to be who you are today. For example, I enjoyed rock climbing because it taught me the value of practicing hard at a sport to become skilled in it. I bring this same diligence to my work approach today as well.

[Read More Answers.](#)

### Question # 51

How do you feel about giving back to the community?

#### Answer:-

Describe your charitable activities to showcase that community work is important to you. If you haven't done one yet, go to [www.globalguideline.com](http://www.globalguideline.com) - charitable work is a great way to learn about other people and it's an important part of society - GET INVOLVED!

[Read More Answers.](#)

### Question # 52

What is your perception of taking on risk?

#### Answer:-

Your answer depends on the type of company you're interviewing for. If it's a start up, you need to be much more open to taking on risk. If it's a more established company, calculated risks to increase / improve the business or minimal risks would typically be more in line.

[Read More Answers.](#)

### Question # 53

How meticulous are you with details?

#### Answer:-

Being detailed is important for many types of job roles. Typically you want to highlight how you've done that in previous roles. Example: "Being meticulous is important to me. In my last job, I had to count the money in the register as a cashier to make sure it matched to the receipts down to the last penny." This was to ensure there wasn't any "wrongdoing" at the company by any of the cashiers and I was always accurate in my reports.

[Read More Answers.](#)

### Question # 54

What other companies are you interviewing at?

#### Answer:-

Be open and share if you are indeed interviewing elsewhere, but do it in a humble way. This way you don't seem arrogant and the interviewer knows your skills are valued by other companies. This also tends to make them want you more as they know they are competing for your services.

[Read More Answers.](#)

### Question # 55

How do you inspire others to be better?

#### Answer:-

First, the key to inspiring others is to first understand what their goals and objectives are. Once you understand what people want, you can inspire them with a vision that aligns to what they care about. People generally care about having purpose, being successful (and being recognized for it), contributing in a meaningful way, and financial rewards (to a degree) and much more. Then once you understand what people set as goals, you can inspire them through 1:1 pep talks, a presentation to multiple people and so forth.

[Read More Answers.](#)

### Question # 56

What qualities do you believe are important to have as a manager?

#### Answer:-

Great managers tend to empower their employees to be successful through strong coaching. They understand how to manage relationships - this is commonly referred to as emotional intelligence. They have to be able to handle both client and staff situations that require them to be calm under pressure to clearly think of solutions to complex problems. Most importantly they must be able to articulate the vision to the team and inspire them to work together to collectively achieve that goal

[Read More Answers.](#)

### Question # 57

How important is a positive attitude to you?

**Answer:-**

Incredibly important. I believe a positive attitude is the foundation of being successful - it's contagious in the workplace, with our customers, and ultimately it's the difference maker.

[Read More Answers.](#)

**Question # 58**

What would you like to have accomplished by the end of your career?

**Answer:-**

Think of 3 major achievements that you'd like to accomplish in your job when all is said and done - and think BIG. You want to show you expect to be a major contributor at the company. It could be creating a revolutionary new product, it could be implementing a new effective way of marketing, etc.

[Read More Answers.](#)

**Question # 59**

What's the difference between good and exceptionally great?

**Answer:-**

Being good is getting the job done as promised In Atomic Physics. Being great is delivering the work in an exceptional way that completely exceeds expectations.

[Read More Answers.](#)

**Question # 60**

What general trends do you see in our industry?

**Answer:-**

Examine what's happened in the industry in the last 5 - 10 years and how it's evolved and then look at what both the company and analysts are saying about the future of that industry in which that company competes in. Read trade magazines / online sources in that industry as well to make sure you stay up to date on trends.

[Read More Answers.](#)

**Question # 61**

Give me a few examples of how you're results oriented?

**Answer:-**

Make you give an example where you discuss details and metrics. For example, I was a tutor in my last job and mentored 5 students on their SAT test taking skills and raised their scores by 15% on average after a 3 month teaching stint.

[Read More Answers.](#)

**Question # 62**

What have you done to improve yourself in the last year In Atomic Physics?

**Answer:-**

Discuss how you've improved yourself through work experiences, books you've read, classes, club(s) / extracurricular activities and describe the process on how it's happened. For example: I've improved my presentation skills tremendously because I've had to do 2 presentations this year for my communications class.

[Read More Answers.](#)

**Answer:-**

I would weigh the offer and consider it, however, this company and this role is my first choice.

[Read More Answers.](#)

**Question # 64**

What were the responsibilities of your last position In Atomic Physics?

**Answer:-**

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

[Read More Answers.](#)

**Question # 65**

What negative thing would your last boss say about you?

**Answer:-**

"He/She wouldn't say anything bad, but he/she may point out I could improve in a certain area, and I've taken steps to become better at those skills"

[Read More Answers.](#)

**Question # 66**

What do you do in your spare time?

**Answer:-**

If you want to show your fun side, discuss your extracurricular activities. If you want to show your ambition, discuss the work / school projects you do in your spare time.

[Read More Answers.](#)

### **Question # 67**

How would you go about establishing your credibility quickly In Atomic Physics with the team?

**Answer:-**

Fully understand my responsibilities, work hard and exceed expectations, learn as much as possible, help others as much as possible, understand what my teammates' goals and needs are, be on time, and gain a mentor.

[Read More Answers.](#)

### **Question # 68**

What does "thinking outside the box" mean to you?

**Answer:-**

It means not doing things exactly the same way as everyone else. You've got to challenge the status quo and bring something new to the business.

[Read More Answers.](#)

### **Question # 69**

In what areas do you think you will need guidance?

**Answer:-**

Think about what you need to learn going into the job. Skill sets, industry knowledge, relationship building, team dynamics. Which areas are ones you're lacking?

[Read More Answers.](#)

### **Question # 70**

What role are you ready to take in a group?

**Answer:-**

Ideally, you want to take on the role you're interviewing for, but you want to be flexible with your responsibilities In Atomic Physics if there are any changes.

[Read More Answers.](#)

### **Question # 71**

Rate yourself on a scale of 10?

**Answer:-**

If you truly believe you're a 10, you better be able to explain why with examples / stories. If you believe you're a great contributor and have room to grow, say 8 or 9. If you're below that, explain what you would do to improve yourself to get the ranking you believe you can be.

[Read More Answers.](#)

### **Question # 72**

When was the last time something upset you at work? What did you do?

**Answer:-**

Almost everyone has an emotional moment related to work at some point - you're not alone. The key is to learn why you reacted that way and to focus not on the problem but HOW to resolve it. Another key component is to be aware of your emotional response so that you can learn to control it in the future in a calm way.

[Read More Answers.](#)

### **Question # 73**

How do you ensure all of your work gets accomplished in a productive manner?

**Answer:-**

The key is to prioritize what's important in your work and to stay organized to accomplish the tasks. A strong work ethic also helps.

[Read More Answers.](#)

### **Question # 74**

What was the biggest professional risk you have taken and what was the outcome?

**Answer:-**

First discuss how you weighed the pros and cons of the risk and the results you'd believe you could achieve. Then discuss the action plan you put into place for it and outline that step by step. Then discuss the outcome and if it wasn't optimal talk about what you would do differently in hindsight.

[Read More Answers.](#)

### **Question # 75**

What do you expect from this job In Atomic Physics?

**Answer:-**

Talk about the potential career development, your career aspirations, your work relationships and the learning you'll receive.
