Question # 17

Top 11 Interview Questions to Ask when Emotional Intelligence Matters In Biology Faculty:

Answer:-

Emotional intelligence, or EQ, has come into vogue as a good trait to hire for.

EQ is the ability to use emotional information to guide thinking and behavior, to recognize other people's emotions and your own, and to discriminate between different feelings and label them appropriately.

EQ is considered essential to help teams function well. Here are some of the top questions for help you get an idea of how candidates perceive their emotions and those of others.

1. If you started a company today, what would its top values be?
2. Who inspires you? Why?
3. How could you create more balance in your life?
4. What makes you angry?
5. How do you have fun?
6. How good are you at asking for help?
7. How did you deal with a bad day?
8. What's something you're really proud of? Why?
9. Tell me about a time when your mood altered your performance (positively or negatively).

Question # 18

Did you consider yourself a team player?

Answer:-

Of course you're a team player - who isn't. But a simple yes probably isn't the response the interviewer is looking for. Be ready to provide specific example of how you've worked as part of a cohesive team to get things accomplished and how you've focus on team performance rather than individual performance. Make sure not to brag as this will make it appear as that you're more concerned about your own performance and accomplishments than those of the team.

Question # 26

How would you estimate the weight of the Chrysler building?

Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

Question # 27

Do you value recognition or pay more? Why?

Answer:-

Either preference is fine, but just remember you have to be able to explain why. If you say recognition, then back that up by describing how achievement really carries weight with you and how you like to feel valued in the work that you do because it validates that you're helping your teammates / customers and so forth. If you choose money, you can also explain that is important to you as validation and you can highlight how money is important to you because of your goals (financial security, providing for your family, and so forth). The key is to be authentic with your answer. However, if you say you value pay more because you're greedy - know that doesn't align usually to most company's values/vision.

Question # 36

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Answer:-

Do the following steps:

- * 1. Turn ON two switches, and leave one OFF.
- * 2. Wait a few minutes.
- * 3. Turn one switch from ON to OFF. One is now ON and two are OFF
- * 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

Question # 63

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question # 66

Are you planning to continue your studies and training In Biology Faculty?

Answer:-

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

Question # 67

Have you got any questions?

Answer:-

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

Question # 68

What do you think is your greatest weakness?

Answer:-

Don't say anything that could eliminate you from consideration for the job. For instance, "I'm slow in adapting to change" is not a wise answer, since change is par for the course in most work environments. Avoid calling attention to any weakness that's one of the critical qualities the hiring manager is looking for. And don't try the old "I'm a workaholic," or "I'm a perfectionist."

Question # 69

What's the least rewarding work you've ever done and why?

Answer:-

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

Question # 70

Do you have any question regarding this job In Biology Faculty?

Answer:-

Never ask Salary, perks, leave, place of posting, etc. regarded questions. Try to ask more about the company to show how early you can make a contribution to your organization like, "Sir, with your kind permission I would like to know more about induction and developmental programs?" OR Sir, I would like to have my feedback, so that I can analyze and improve my strengths and rectify my shortcomings.

Question # 71

What do you know about the company?

Answer:-

Any candidate can read and regurgitate the company's "About" page. So, when interviewers ask this, they aren't necessarily trying to gauge whether you understand the mission-they want to know whether you care about it. Start with one line that shows you understand the company's goals, using a couple key words and phrases from the website, but then go on to make it personal. Say, "I'm personally drawn to this mission because..." or "I really believe in this approach because..." and share a personal example or two.

Question # 73

How would you rate your communication and interpersonal skills for this job In Biology Faculty?

Answer:-

These are important for support workers. But they differ from the communication skills of a CEO or a desktop support technician. Communication must be adapted to the special ways and needs of the clients. Workers must be able to not only understand and help their clients, but must project empathy and be a warm, humane presence in their lives.

Question # 75

Give an example of a time you successfully worked In Biology Faculty on a team?

Answer:-

On the whole I prefer to stick to doing what I'm told rather than setting myself up to fail by doing things off my own bat. But there was this one time when I suggested to my boss at the pizza parlor that she try offering an 'all you can eat' deal to students to boost trade on Mondays. She thought it was an interesting idea but nothing ever came of it.
