Question # 9

What is Budgetary Control?

Answer:-

Budgetary Control is a methodical control technique whereby budgets are prepared relating the responsibilities of budget holders. It is a continuous comparison of actual results with budgeted results, to ensure that the objectives of the company's policy are achieved; or to provide a basis for the change of those objectives. In simple terms, it is the analysis of the plans which the organisation has made; what was the result when those plans were implemented practically. After practical implementation of the budget if any variation is seen in the actual result to the budget result then the reasons for the variations are found out and corrective actions are taken to correct variations.
