CNC Programmer (Computerized Numerical Control Pro Job Interview Preparation Guide.

Question # 1

What have you done to improve yourself in the last year As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Discuss how you've improved yourself through work experiences, books you've read, classes, club(s) / extracurricular activities and describe the process on how it's happened. For example: I've improved my presentation skills tremendously because I've had to do 2 presentations this year for my communications class.

[Read More Answers.](#)

Question # 2

What are your strengths As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

This is one of the most common questions you will be asked. Give an answer relevant to the skills and qualities relevant to the position you are applying to. The interviewer is trying to find if your strengths match the job. For example, if you are applying for a job As CNC Programmer (Computerized Numerical Control Pro where accuracy is an important issue, one of your strengths could be that you have an eye for detail. It may useful to find different words to describe similar attributes and qualities in order to avoid repetition.

[Read More Answers.](#)

Question # 3

What are the goals you've set for yourself?

Answer:-

You could discuss your goals with regards to these categories: Career goals, impact you want to leave on society, financial goals, academic goals, charitable goals.

[Read More Answers.](#)

Question # 4

What are your thoughts about working from home?

Answer:-

This is a new policy some companies are adopting. If the company you are interviewing for allows for it, then you should be thankful for the flexibility and convenience yet state that working from home is a privilege that you would honor. The key point you want to make is that you would still be able to focus and be just as productive working at home.

[Read More Answers.](#)

Question # 5

Tell me about a time you failed?

Answer:-

Everyone has failed, so don't play dumb or claim you've never messed up As CNC Programmer (Computerized Numerical Control Pro. Think of a time when a work-related situation didn't turn out quite as you had hoped. An interviewer is interested in seeing how you took responsibility for your failure, what you learned from it, and how you would prevent similar failures from happening again.

[Read More Answers.](#)

Question # 6

Can you explain why you changed career paths As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Don't be thrown off by this question-just take a deep breath and explain to the hiring manager why you've made the career decisions As CNC Programmer (Computerized Numerical Control Pro you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

[Read More Answers.](#)

Question # 7

Why do you want to leave your current company As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Bad Answer: Complaining about or blaming their former job, boss or colleagues. Also, having no good reason.

Good answer: One that focuses on the positives about why the job they're applying for offers them better learning or career opportunities, chances for advancement, aligns more closely to their long term goals, or is a better fit for them.

[Read More Answers.](#)

Question # 8

How do you measure success?

Answer:-

There may be several good answers. Some include: you're able to set realistic, yet aggressive goals that push you and you're able to achieve them, you go the extra mile on all projects, client satisfaction is high, your boss is elated at your performance on all projects, etc.

[Read More Answers.](#)

Question # 9

How do you stay organized?

Answer:-

By maintaining proper routine every day. Putting my strongest points with my weakness. High priority always comes first As CNC Programmer (Computerized Numerical Control Pro).

[Read More Answers.](#)

Question # 10

Tell me about a time when you had to think strategically?

Answer:-

There was a time when I was told I had to get rid of 20% of my people. I had to determine which persons I needed the most by determining who could do what. I had to put aside personal feelings so that I could keep a working crew to handle the same workload with less people.

[Read More Answers.](#)

Question # 11

What do you do in your spare time?

Answer:-

If you want to show your fun side, discuss your extracurricular activities. If you want to show your ambition, discuss the work / school projects you do in your spare time.

[Read More Answers.](#)

Question # 12

Tell me about a time when you had to use your presentation skills to influence someone's opinion As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Example stories could be a class project, an internal meeting presentation, or a customer facing presentation.

[Read More Answers.](#)

Question # 13

Think about the changes you have seen and tell me how you handle change?

Answer:-

You can cite personal life changes, work place changes, career changes, technology change, industry change. The key is to discuss how seeing or experiencing that change has helped your development. For example, the recent changes in social media has broadened my horizons and helped me learn new forms of efficient marketing.

[Read More Answers.](#)

Question # 14

What kind of car do you drive?

Answer:-

The only time this might matter is if the job requires a certain type of car because of the responsibilities. For example, if you need to load a lot of construction materials into your car, you'll probably need a truck.

[Read More Answers.](#)

Question # 15

Why do you think you'll do well at this job?

Answer:-

[CNC Programmer \(Computerized Numerical Control Pro Interview Questions And Answers\)](#)

Provide several reasons including skills, experience and interest. If you can show how you've been successful in a similar career field or job position that will go along way to helping the interviewer believe you'll also be successful at this new job.

[Read More Answers.](#)

Question # 16

Top 11 Questions to Verify Experience and Credentials As CNC Programmer (Computerized Numerical Control Pro:

Answer:-

Sometimes people want a job a little too bad - and they may fudge their credentials and experience a bit.

If you've run into this problem, are worried about it, or have credentials and experience that are absolutely essential, you may need to ask a few verification questions. If you are a candidate, you should review your resume and make sure you know all the key points, and that nothing has been misconstrued.

1. What grades did you get in college?
2. What were your responsibilities when you worked in job x?
3. How many people were on your team at your last job?
4. What will your previous manager/supervisor say when I ask where you needed to improve?
5. What was your beginning and ending salary at job x?
6. What were your beginning and ending titles at job x?
7. Are you eligible for rehire at job x?
8. What tools are necessary for performing job x?
9. Describe to me how you would perform [x typical job task].
10. What was the focus of your thesis?
11. When did you leave company x?

[Read More Answers.](#)

Question # 17

What would you like to avoid completely in your next job As CNC Programmer (Computerized Numerical Control Pro?

Answer:-

Bad business ethics, teammates / managers that are disrespectful / inconsiderate. But of course, this job wouldn't have things like this right?

[Read More Answers.](#)

Question # 18

What have you learned from mistakes on the job?

Answer:-

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

[Read More Answers.](#)

Question # 19

If you had enough money to retire would you?

Answer:-

Just be honest. If you would retire then say so. But since you can't retire, and the interviewer already knows this, simply answer that since you can't this is type of work you prefer doing. However, if you wouldn't retire if you had the money then explain why. Work is an important element of happiness for most people and many won't retire even when they can.

[Read More Answers.](#)

Question # 20

What do you know about our company?

Answer:-

You always want to make sure that you're pretty familiar with the company that you're interviewing with. Nothing looks worse than a candidate who knows nothing about the company they say they're interested in working for. Find out everything you can about the company, its culture and its goals. You will also want to know how the company is positioned in its market as well as who its major competitors are.

[Read More Answers.](#)

Question # 21

Tell me a difficult situation you have overcome in the workplace?

Answer:-

Conflict resolution, problem solving, communication and coping under pressure are transferable skills desired by many employers As CNC Programmer (Computerized Numerical Control Pro.

Answering this question right can help you demonstrate all of these traits.

* Use real-life examples from your previous roles that you are comfortable explaining

* Choose an example that demonstrates the role you played in resolving the situation clearly

* Remain professional at all times - you need to demonstrate that you can keep a cool head and know how to communicate with people

[Read More Answers.](#)

Question # 22

How do you keep others informed on work issues?

Answer:-

Possible methods:

Talking to them, emailing them, sharing best practices in meetings

[Read More Answers.](#)

Question # 23

What critical component of this position As CNC Programmer (Computerized Numerical Control Pro makes the work challenging?

Answer:-

Heading information: This should include job title, pay grade or range, reporting relationship (by position, not individual), hours or shifts, and the likelihood of overtime or weekend work.

Summary objective of the job: List the general responsibilities and descriptions of key tasks and their purpose, relationships with customers, coworkers, and others, and the results expected of incumbent employees.

Qualifications: State the education, experience, training, and technical skills necessary for entry into this job.

Special demands: This should include any extraordinary conditions applicable to the job As CNC Programmer (Computerized Numerical Control Pro (for example, heavy lifting, exposure to temperature extremes, prolonged standing, or travel).

Job duties and responsibilities: Only two features of job responsibility are important: identifying tasks that comprise about 90 to 95 percent of the work done and listing tasks in order of the time consumed (or, sometimes, in order of importance).

[Read More Answers.](#)

Question # 24

What would your previous employer say is your greatest strength?

Answer:-

Be prepared for this question. If you have to sit and think about it it's going to appear as if you're not sure or that you've never identified your own value in the work place - not good. You don't have to have a complex response. Keep it simple and honest. For example, several possibilities could be Leadership, Problem solving ability, Initiative, Energy, Work ethic, Innovative, etc., etc.

[Read More Answers.](#)

Question # 25

Where do you see yourself in 5 years with your career?

Answer:-

Be sure to paint a clear picture of your career vision that demonstrates your aspirations and goals that are realistic. This could emphasize increased responsibility, the ability to manage people and so forth

[Read More Answers.](#)

Question # 26

Describe what a bad work environment would look like to you As CNC Programmer (Computerized Numerical Control Pro?

Answer:-

There could be a multitude of things to discuss here: Business ethics (wrongdoing), inconsiderate teammates, non-supportive management, a product that does not do what you're promising customers and so forth.

[Read More Answers.](#)

Question # 27

What are your presentation skills like As CNC Programmer (Computerized Numerical Control Pro?

Answer:-

Make sure you share a story that demonstrates your presentation skills in front of many people. If you are really brave, offer to give a snippet of that presentation to the interviewer. This will definitely be different from what most people do.

[Read More Answers.](#)

Question # 28

What is your greatest failure As CNC Programmer (Computerized Numerical Control Pro, and what did you learn from it?

Answer:-

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

[Read More Answers.](#)

Question # 29

Why did you choose your major in college or tech school?

Answer:-

People usually choose their major based on their passions or the career path they want to head towards.

[Read More Answers.](#)

Question # 30

What are your lifelong dreams?

Answer:-

If your dreams don't relate to the job closely, make sure you highlight aspects of the job that will help develop the skills that will help you with your dreams. Ideally, you want your dreams to relate strongly to the career path you're interviewing for though.

[Read More Answers.](#)

Question # 31

What's been your biggest failure to date?

Answer:-

Describe your biggest failure and discuss what you've learned from it and ideally how you've been successful since because of that lesson.

[Read More Answers.](#)

Question # 32

What are your thoughts on social media for this role?

Answer:-

Without a doubt, social media is becoming more and more pervasive in our jobs. You should stress that social media is not appropriate for personal use at work. However, if the company embraces social media in certain departments (for example marketing), then you may want to discuss how you could use it for work (as long as it applies to your role).

[Read More Answers.](#)

Question # 33

What was the most difficult employee situation you found yourself As CNC Programmer (Computerized Numerical Control Pro)? How did you overcome the problem?

Answer:-

One of employees was conflicting with other and colleague who was prove his was wrong hi denied and was invite union to defend him but we have prove his wrong and I was facing disciplinary action.

[Read More Answers.](#)

Question # 34

How well do you multi-task?

Answer:-

Multi-tasking is an important part of most jobs. You want to show that you're good at it but not overwhelmed with it. So discuss just a few things you can multi-task well on - for example: "I'm good at multi tasking between work email and working on projects As CNC Programmer (Computerized Numerical Control Pro and the reason it because I'm good at prioritizing my work emails.

[Read More Answers.](#)

Question # 35

If you were an animal, which one would you want to be?

Answer:-

Seemingly random personality-test type questions like these come up in interviews generally because hiring managers want to see how you can think on your feet. There's no wrong answer here, but you'll immediately gain bonus points if your answer helps you share your strengths or personality or connect with the hiring manager. Pro tip: Come up with a stalling tactic to buy yourself some thinking time, such as saying, "Now, that is a great question. I think I would have to say..." "

[Read More Answers.](#)

Question # 36

What are three positive character traits you don't have?

Answer:-

List three attributes that you aspire to attain / build in the next few years - and then explain how you would develop those.

[Read More Answers.](#)

Question # 37

What's been your biggest success to date?

Answer:-

Talk about a story / experience about how you achieved success and be sure to share details on the results and outcome. Have it highlight a strong characteristic such as leadership, work ethic and so forth.

[Read More Answers.](#)

Question # 38

Why do you want to work in this industry As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

[Read More Answers.](#)

Question # 39

How do you handle conflicts with people you supervise?

Answer:-

At first place, you try to avoid conflicts if you can. But once it happens and there's no way to avoid it, you try to understand the point of view of the other person and find the solution good for everyone. But you always keep the authority of your position.

[Read More Answers.](#)

Question # 40

Why do you feel you will excel at this job?

Answer:-

This question presents an excellent opportunity for you to discuss your education, qualifications and personal traits. You might say something like "I studied property management as well as behavior during my college years and I have two years' experience in real estate.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." This shows your interviewer that you have all of the skills necessary to become successful not only for yourself, but also for your employer.

[Read More Answers.](#)

Question # 41

What are you most proud of?

Answer:-

You should be proud of all your achievements As CNC Programmer (Computerized Numerical Control Pro! We just don't have time to hear them all as interviewers most likely. Focus on 1 really good achievement that showcases characteristics like the following: Integrity, competitiveness, resourcefulness, intelligence, persistence, and so forth.

[Read More Answers.](#)

Question # 42

How do you deal with pressure or stressful situations?

Answer:-

Choose an answer that shows that you can meet a stressful situation head-on in a productive, positive manner and let nothing stop you from accomplishing your goals. A great approach is to talk through your go-to stress-reduction tactics (making the world's greatest to-do list, stopping to take 10 deep breaths), and then share an example of a stressful situation you navigated with ease.

[Read More Answers.](#)

Question # 43

What do you think of your previous boss?

Answer:-

Do not belittle or talk badly of your last boss - it will come off as being petty. Instead, talk about the positive lessons you were able to learn from your last boss.

[Read More Answers.](#)

Question # 44

How long do you envision yourself staying with this company?

Answer:-

Understand that companies invest a lot of money into hiring the right staff. You want to emphasize that you are in it for the long run and you want to develop a career there and that it's not just a "5 month stepping stone" type of a job. You should be thinking how you're going to grow with that company. After all, don't you want to invest your energy and time with a company that is going to continue to be successful and one that will help you grow?

[Read More Answers.](#)

Question # 45

Describe a time when you've been overwhelmed with work?

Answer:-

Show how you were able to over the "overwhelmed" feeling - by delegating tasks, getting people on your team to help you out, or by prioritizing your work and focusing on the most important issues first As CNC Programmer (Computerized Numerical Control Pro.

[Read More Answers.](#)

Question # 46

How have you shown yourself to be a leader?

Answer:-

Think about a time where you've rallied a group of people around a cause / idea / initiative and successfully implemented it. It could be a small or large project but the key is you want to demonstrate how you were able to lead others to work for a common cause.

[Read More Answers.](#)

Question # 47

Describe a time where you've failed and bounced back?

**Answer:-**

Share a story to describe this. For example: "I accidentally made the mistake of telling a customer I could deliver on a solution set on a certain date and then later found out our business partner couldn't do it on that time. I learned that I shouldn't rush into important decisions and promises like this and that I should always check with my counterparts first before committing to a statement of work."

[Read More Answers.](#)

Question # 48

What does your professional network look like?

Answer:-

If you have a professional network, discuss it detail (# of contacts, people you know, their positions and what you've learned from them or how you've worked with them). If you don't have one, discuss how you would develop one (career fairs, networking events for that industry, through your existing friends, etc)

[Read More Answers.](#)

Question # 49

What does "thinking outside the box" mean to you?

Answer:-

It means not doing things exactly the same way as everyone else. You've got to challenge the status quo and bring something new to the business.

[Read More Answers.](#)

Question # 50

How long will it take for you to make a significant contribution?

Answer:-

First define significant contribution - once you do that - lay out a timeline plan in which you think you can achieve that.

[Read More Answers.](#)

Question # 51

What kind of salary do you need As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

Question # 52

What do you know about the company?

Answer:-

Any candidate can read and regurgitate the company's "About" page. So, when interviewers ask this, they aren't necessarily trying to gauge whether you understand the mission-they want to know whether you care about it. Start with one line that shows you understand the company's goals, using a couple key words and phrases from the website, but then go on to make it personal. Say, "I'm personally drawn to this mission because..." or "I really believe in this approach because..." and share a personal example or two.

[Read More Answers.](#)

Question # 53

Describe a typical work week for this position As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position As CNC Programmer (Computerized Numerical Control Pro you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[Read More Answers.](#)

Question # 54

How do you plan to go by an example for your subordinates?

Answer:-

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.

[Read More Answers.](#)

Question # 55

What's the least rewarding work you've ever done and why?

Answer:-

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

[Read More Answers.](#)

Question # 56

What were the responsibilities of your last position As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

[Read More Answers.](#)

Question # 57

Explain an occasion when you had to adapt in the face of a difficult situation?

Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[Read More Answers.](#)

Question # 58

What is your biggest achievement?

Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

Question # 59

What would your first 30, 60, or 90 days look like in this role As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[Read More Answers.](#)

Question # 60

Do you have good computer skills?

Answer:-

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[Read More Answers.](#)

Question # 61

Do you think you have enough experience As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[Read More Answers.](#)

Question # 62

If you had to choose one, would you consider yourself a big-picture person or a detail-oriented person?

Answer:-

Both are important. You need to stress that. However, if you could only choose one, ask yourself As CNC Programmer (Computerized Numerical Control Pro - do you like to be "in the weeds" with your work, or do you want to be the one painting the vision?

[Read More Answers.](#)

Question # 63

What schedule do you hope to work? Are you willing to work extra hours?

Answer:-

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

[Read More Answers.](#)

Question # 64

What was the most important task you ever had?

Answer:-

There are two common answers to this question that do little to impress recruiters:

* 'I got a 2.1'

* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

[Read More Answers.](#)

Question # 65

If I talked to your three biggest fans, who would they be and why?

Answer:-

If you can reference three professionals with executive titles (CXO, VP, Director, Manager), that carries a lot of weight. Make sure you highlight how you've helped them achieve their biggest objectives and how that's made them your fan.

[Read More Answers.](#)

Question # 66

What do you know about this department?

Answer:-

One good way to find out about the department is to try to "informally" interview the existing employees over coffee (outside of the office) if possible. It's hard if you don't have any connections there, but if you do a great way to learn about it. Other than that, it's often hard to learn about the department so you can turn the table back on them by asking questions to learn about it.

[Read More Answers.](#)

Question # 67

What do you expect to be earning in 5 years As CNC Programmer (Computerized Numerical Control Pro)?

Answer:-

Discuss how you expect yourself to be excellent at your job. Thus, it would be reasonable to expect pay that is based on the merit of your work.

[Read More Answers.](#)

Question # 68

Have you got any questions?

Answer:-

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

[Read More Answers.](#)

Question # 69

Why do you want to work As CNC Programmer (Computerized Numerical Control Pro for this organisation)?

Answer:-

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

[Read More Answers.](#)

Question # 70

How have you changed in the last five years?

Answer:-

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[Read More Answers.](#)

Question # 71

Do you have any questions for me?

Answer:-

Good interview questions to ask interviewers at the end of the job interview include questions on the company growth or expansion, questions on personal development and training and questions on company values, staff retention and company achievements.

[Read More Answers.](#)

Question # 72

When was the last time something upset you at work? What did you do?

Answer:-

Almost everyone has an emotional moment related to work at some point - you're not alone. The key is to learn why you reacted that way and to focus not on the

problem but HOW to resolve it. Another key component is to be aware of your emotional response so that you can learn to control it in the future in a calm way.

[Read More Answers.](#)

Question # 73

What would you like to have accomplished by the end of your career?

Answer:-

Think of 3 major achievements that you'd like to accomplish in your job when all is said and done - and think BIG. You want to show you expect to be a major contributor at the company. It could be creating a revolutionary new product, it could be implementing a new effective way of marketing, etc.

[Read More Answers.](#)

Question # 74

Explain an idea that you have had and have then implemented in practice?

Answer:-

Often an interview guide will outline the so-called 'STAR' approach for answering such questions; Structure the answer as a situation, task, action, and result: what the context was, what you needed to achieve, what you did, and what the outcome was as a result of your actions.
