### Question # 2

Due to backlogs I have completed my graduation in 4 years with 55%, now I am pursuing the MBA(hr) but I am interested in doing software sector jobs. Is there any software course which I need to do?

#### Answer:-

You can become a business analyst, but you need to learn few concepts and possess some skills. You can learn SAP or People-soft HR module. that will help you get jobs and slowly you can transition to Business analysis.

### Question # 3

What about other side of the coin?

#### Answer:-

Depends on the job you are seeking. Which field or job are you interested in? Your question is as vague as asking someone what they would like to eat? Obviously, your next questions may be "how hungry are you or for lunch/dinner/snack?"

Similarly, which job or industry are you interested in? If your answer is in whichever I can earn more money, then no one can answer that question for you. Not all SAP consultants earn the big bucks. Not all managers make big bugs.

### **Question # 9**

I am a mechanical engineer I wanna shift to software field by doing a training course in sap. Please advise me regarding this?

### **Answer:-**

I think Both Mech. Field and IT are totally different. You cant achieve in IT Field only by undergo training course. Without hard-work and deep concentration its not possible to achieve something in IT. Before you go ahead into IT Be confident and understand the things in IT. Then you can win.
