### **Question # 7**

Do you ever take work home with you?

**Answer:-**

Here are two great sample answers that might help get you started:

- \* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.
- \* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.
- \* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

### **Question # 21**

What is your dream job?

**Answer:-**

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may lose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

### **Question # 30**

Why are manhole covers round?

#### **Answer:-**

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to "solve" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.
