### Question # 2

Tell me how to get the Beta or Dev version?

#### Answer:-

Switching to the Beta or Dev version is easy. Just install from one of the following links:  
For Beta, click <http://www.google.com/chrome/eula.html?extra=betachannel>  
For Dev, click <http://www.google.com/chrome/eula.html?extra=devchannel>  
You can install the above version fresh or you can install over your existing Google Chrome Frame installation.

### Question # 7

Explain which document MIME types will Google Chrome Frame look in for the meta tag?

#### Answer:-

## [Chrome Frame Interview Questions And Answers](#)

---

Google Chrome Frame looks only in documents with a text/html MIME type for the meta tag that causes it to activate. If you wish to activate Google Chrome Frame for other MIME types, use the X-UA-Compatible HTTP response header.

### **Question # 9**

What is Google Chrome Frame?

**Answer:-**

Google Chrome Frame is a plug-in designed for Internet Explorer based on the open-source Chromium project. It went stable in September 2010, on the first birthday of the project. In June 2013 Google announced they would retire Chrome Frame, and will cease support and updates for the product in January 2014.

### **Question # 13**

Explain Google Chrome Frame is installed but now Internet Explorer crashes. Can this be caused by other plug-ins I have installed?

**Answer:-**

Yes, it can. There are a few third-party plug-ins that are known to interact incorrectly with Google Chrome Frame and may cause crashes.

Plug-ins known to crash in this way include Askbar, mgToolbarIE, SweetIM Toolbar, gbieh.dll, and G-Buster Browser Defense and EMBASSY Trust Suite (wxvault.dll).

The workaround is to disable the plug-in using the Manage AddOn menu in Internet Explorer or to uninstall the crashing product .

### **Question # 14**

Can you please explain does Google Chrome Frame work on 64-bit IE?

**Answer:-**

Currently, 64-bit versions of IE are not supported. Estimates put the percentage of 64-bit IE users at less than one percent of all IE sessions. It's worth pointing out that 32-bit IE is the default on 64-bit Windows 7
