# EDP Systems Engineer Job Interview Preparation Guide.

## Question # 1

What has disappointed you about a previous job?

### Answer:-

Again, this question could get you in trouble so tread carefully. Some good answers might be that your previous job didn't provide any room for growth, that you were laid off due to a mandatory reduction in staff, that they closed their office in your state and required you to relocate, etc. Make sure not to mention anything negative about the people you worked with, the company in general or the job itself.

## Question # 2

Why was there a gap in your employment As EDP Systems Engineer?

### Question # 38

Why are manhole covers round?

**Answer:-**

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen.
