Electrical and Instrumentation Technician (E I Tec Job Interview Preparation Guide.

Question # 1

Are you good at working in a team As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

Before you answer, consider how you best contribute to a team:

- * Do you get along easily with people?
- * Are you an effective collaborator?
- * Can you communicate with people from various backgrounds and with different personalities?
- * Can you motivate people?
- * Do you know how to push back tactfully?
- * Can you mediate conflicts?
- * Can you deal with difficult personalities?

[Read More Answers.](#)

Question # 2

Do you consider yourself successful?

Answer:-

You should always answer yes to this question. Briefly explain why without going on and on. If you communicate that you're more successful than you really are you may come off as arrogant or unrealistic. A goof explanation is that you have set professional goals and that you have met some of these goals and are on track to meet more in the near future.

[Read More Answers.](#)

Question # 3

Tell me about a time when you helped resolve a dispute between others?

Answer:-

Be sure to discuss a very specific example. Tell the interviewer what methods you used to solve the problem without focusing on the details of the problem.

[Read More Answers.](#)

Question # 4

Do you know anyone that works with our company?

Answer:-

Sometimes companies have policies relating to the hiring of individuals related to current company employees. If you are related to anyone working for the company make sure you're aware of company policies before you enter the interview. If you have a friend or acquaintance working for the company make sure have good relationship with this individual before mentioning them.

[Read More Answers.](#)

Question # 5

Do you think you are overqualified for this position As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

No matter your previous job experience or educational background, be sure to tell the interviewer you have the knowledge and skills to successfully execute the job responsibilities.

[Read More Answers.](#)

Question # 6

Tell me about a time when you had to give someone difficult feedback As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

By asking this question, your interviewer hopes to learn whether you can communicate effectively, address issues in the workplace and motivate others during difficult times. Giving negative feedback requires honesty, thoughtfulness and tact. Answering this question well can help show an interviewer that you would be a good fit for a managerial position or a position that involves working closely with others.

[Read More Answers.](#)

Question # 7

Are you willing to work overtime or odd hours?

Answer:-

Be completely honest. You don't want to lie to get the job if you're not going to work the hours required.

[Read More Answers.](#)

Question # 8

Tell me about the most fun you have had on the job?

Answer:-

When answering this question, discuss situations where you completed tasks benefitting your previous employers.

[Read More Answers.](#)

Question # 9

How do you think your colleagues at your last job would describe you?

Answer:-

While your CV will say a lot about your work history As Electrical and Instrumentation Technician (E I Tec, the interviewer will most likely look for greater detail with questions such as this. Be positive about previous experience, highlighting your own strengths.

[Read More Answers.](#)

Question # 10

What's your dream job?

Answer:-

Along similar lines, the interviewer wants to uncover whether this position As Electrical and Instrumentation Technician (E I Tec is really in line with your ultimate career goals. While "an GGL star" might get you a few laughs, a better bet is to talk about your goals and ambitions-and why this job will get you closer to them.

[Read More Answers.](#)

Question # 11

Why did you leave your last job As Electrical and Instrumentation Technician (E I Tec?

Answer:-

Regardless of why you left your last job make sure to stay positive. Always smile and focus on the positive reason such you were seeking the opportunity to expand your career opportunities, your interest in working with a new firm that provided greater opportunity, you desired to work in a new location, etc. Don't reference previous job problems or differences with management that caused you to leave. If you stay positive, your answer may help you. If you're negative, you will likely decrease your chances of getting the job for which you're interviewing.

[Read More Answers.](#)

Question # 12

Tell me about a time you failed?

Answer:-

Everyone has failed, so don't play dumb or claim you've never messed up As Electrical and Instrumentation Technician (E I Tec. Think of a time when a work-related situation didn't turn out quite as you had hoped. An interviewer is interested in seeing how you took responsibility for your failure, what you learned from it, and how you would prevent similar failures from happening again.

[Read More Answers.](#)

Question # 13

What did you like least about your last (or current) job As Electrical and Instrumentation Technician (E I Tec?

Answer:-

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

[Read More Answers.](#)

Question # 14

What is your philosophy towards work?

Answer:-

This is typically a straightforward question that merits a straightforward answer. Do you have strong work ethic? Will you do whatever it takes to make sure the job gets done? Just say so in your response. Keep it short, direct and positive.

[Read More Answers.](#)

Question # 15

What are your strengths As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

This is one of the most common questions you will be asked. Give an answer relevant to the skills and qualities relevant to the position you are applying to. The interviewer is trying to find if your strengths match the job. For example, if you are applying for a job As Electrical and Instrumentation Technician (E I Tec where accuracy is an important issue, one of your strengths could be that you have an eye for detail. It may be useful to find different words to describe similar attributes and qualities in order to avoid repetition.

[Read More Answers.](#)

Question # 16

Do you ever take work home with you?

Answer:-

Here are two great sample answers that might help get you started:

* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.

* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.

* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

[Read More Answers.](#)

Question # 17

What education or training have you had that makes you fit for this profession As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

This would be the first question asked in any interview. Therefore, it is important that you give a proper reply to the question regarding your education. You should have all the documents and certificates pertaining to your education and/or training, although time may not allow the interviewer to review all of them.

[Read More Answers.](#)

Question # 18

Where do you see your career in five years As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

I would like to retire from this company. I would like to make a difference in the company whether in the company or any other position or area of the company As Electrical and Instrumentation Technician (E I Tec).

[Read More Answers.](#)

Question # 19

What position do you prefer on a team working on a project?

Answer:-

Do not claim to be comfortable with a specific role if you are in fact not comfortable with it. However, if you have no problem working in certain roles or situations, be sure to discuss this with the interviewer.

[Read More Answers.](#)

Question # 20

What is your dream job?

Answer:-

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may lose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

[Read More Answers.](#)

Question # 21

Tell me about a time when you successfully handled a situation?

Answer:-

For this question, the interviewer wants to know what you do in a situation that doesn't have a clear answer. This will help the interviewer know how you respond to unforeseen challenges.

[Read More Answers.](#)

Question # 22

How do you handle your anger?

Answer:-

I don't get angry very easily but in the rare occasion that I do, I hold it in and act as though nothing is wrong.

[Read More Answers.](#)

Question # 23

What is it about this position As Electrical and Instrumentation Technician (E I Tec that attracts you the most?)

Answer:-

Use your knowledge of the job description to demonstrate how you are a suitable match for the role.

[Read More Answers.](#)

Question # 24

Explain a time when you did not get along with your coworker?

Answer:-

I used to lock heads with a fellows. We disagreed over a lot of things - from the care of civilians to who got what shifts to how to speak with a victim's family. Our personalities just didn't mesh. After three months of arguing, I pulled her aside and asked her to lunch. At lunch, we talked about our differences and why we weren't getting along. It turns out, it was all about communication. We communicated differently and once we knew that, we began to work well together. I really believe that talking a problem through with someone can help solve any issue.

[Read More Answers.](#)

Question # 25

Why are manhole covers round?

Answer:-

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[Read More Answers.](#)

Question # 26

If you have seven white socks and nine black socks in a drawer, how many socks do you have to pull out blindly in order to ensure that you have a matching pair?

Answer:-

if the first one is one color (say, white), and the second one is the other color (black), then the third one, no matter what the color, will make a matching pair. (Sometimes you're not supposed to think that hard.)

[Read More Answers.](#)

Question # 27

How well do you know this industry?

Answer:-

Two things businesses need to pay attention to in their industries are what their competition is doing and the customers. You may not always agree with your competitors but it is important to be aware of what changes they are making. Very well. I have been in the industry for over 6 years.

[Read More Answers.](#)

Question # 28

How many basketballs would fit in this room?

Answer:-

One. You did not ask what is the maximum number of basketballs you can fit in the room.

[Read More Answers.](#)

Question # 29

How would you describe your approach to Electrical and Instrumentation Technician (E I Tec)?

Answer:-

In more general terms, a question such as this gives a candidate the opportunity to talk about their professional philosophy and skills. While the question is general in nature, the best answers are usually quite specific, picking one or two points and exemplifying them with instances from personal history.

[Read More Answers.](#)

Question # 30

Did you get on well with your last manager?

Answer:-

A dreaded question for many! When answering this question never give a negative answer. "I did not get on with my manager" or "The management did not run the business well" will show you in a negative light and reduce your chance of a job offer. Answer the question positively, emphasizing that you have been looking for a career progression. Start by telling the interviewer what you gained from your last job As Electrical and Instrumentation Technician (E I Tec

[Read More Answers.](#)

Question # 31

How would you estimate the weight of the Chrysler building?

Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

[Read More Answers.](#)

Question # 32

What is your greatest strength? How does it help you As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

One of my greatest strengths, and that I am a diligent worker... I care about the work getting done.. I am always willing to help others in the team.. Being patient helps me not jump to conclusions... Patience helps me stay calm when I have to work under pressure.. Being a diligent worker.. It ensures that the team has the same goals in accomplishing certain things.

[Read More Answers.](#)

Question # 33

Do you like being around people?

Answer:-

People skills are a necessity for medical assistants. When answering this question, be sure to show that you enjoy interacting and working with others and that you also derive great enjoyment from helping others. This will show that you are a team player and that you would be a valuable team member As Electrical and Instrumentation Technician (E I Tec).

[Read More Answers.](#)

Question # 34

What challenges are you looking for in this position?

Answer:-

A typical interview question to determine what you are looking for your in next job, and whether you would be a good fit for the position being hired for, is "What challenges are you looking for in a position As Electrical and Instrumentation Technician (E I Tec)?" The best way to answer questions about the challenges you are seeking is to discuss how you would like to be able to effectively utilize your skills and experience if you were hired for the job. You can also mention that you are motivated by challenges, have the ability to effectively meet challenges, and have the flexibility and skills necessary to handle a challenging job. You can continue by describing specific examples of challenges you have met and goals you have achieved in the past.

[Read More Answers.](#)

Question # 35

What makes a product successful?

Answer:-

Basing on the monetization, these questions give you the chance to prove your personal try. Do not show extremely your optimism and pursue the unreality. Give your answers the reality.

It is useful to predict a five to ten- year- scenario of expectations in order to gain your targets that you set up and it is the period of time to see how your plans and targets are performed.

Therefore, the quality of the product and marketability of the mentioned industry need to be highlighted. This will help you to achieve the interviewer's attention and insurance to you personality and you can get the honest and long- term goals.

[Read More Answers.](#)

Question # 36

What is your greatest failure As Electrical and Instrumentation Technician (E I Tec, and what did you learn from it?

Answer:-

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

[Read More Answers.](#)

Question # 37

Why should I hire you As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

To close the deal on a job offer, you MUST be prepared with a concise summary of the top reasons to choose you. Even if your interviewer doesn't ask one of these question in so many words, you should have an answer prepared and be looking for ways to communicate your top reasons throughout the interview process.

[Read More Answers.](#)

Question # 38

Why do you feel you will excel at this job?

Answer:-

This question presents an excellent opportunity for you to discuss your education, qualifications and personal traits. You might say something like "I studied property management as well as behavior during my college years and I have two years' experience in real estate.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." This shows your interviewer that you have all of the skills necessary to become

successful not only for yourself, but also for your employer.

[Read More Answers.](#)

Question # 39

Did the salary we offer attract you to this job?

Answer:-

The interviewer could be asking you this question for a number of reasons. Obviously, the salary is an important factor to your interest in this job, but it should not be the overriding reason for your interest. A good answer to this question is, "The salary was very attractive, but the job itself is what was most attractive to me."

[Read More Answers.](#)

Question # 40

What do you consider to be your weaknesses?

Answer:-

What your interviewer is really trying to do with this question-beyond identifying any major red flags-is to gauge your self-awareness and honesty. So, "I can't meet a deadline to save my life As Electrical and Instrumentation Technician (E I Tec" is not an option-but neither is "Nothing! I'm perfect!" Strike a balance by thinking of something that you struggle with but that you're working to improve. For example, maybe you've never been strong at public speaking, but you've recently volunteered to run meetings to help you be more comfortable when addressing a crowd.

[Read More Answers.](#)

Question # 41

What's a time you disagreed with a decision that was made at work?

Answer:-

Everyone disagrees with the boss from time to time, but in asking this interview question As Electrical and Instrumentation Technician (E I Tec, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong,". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

[Read More Answers.](#)

Question # 42

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[Read More Answers.](#)

Question # 43

How have you changed in the last five years?

Answer:-

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[Read More Answers.](#)

Question # 44

Why do you want to work As Electrical and Instrumentation Technician (E I Tec for this organisation?

Answer:-

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

[Read More Answers.](#)

Question # 45

Have you got any questions?

Answer:-

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

[Read More Answers.](#)

Question # 46

What are your salary expectations As Electrical and Instrumentation Technician (E I Tec?

Answer:-

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and your goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

[Read More Answers.](#)

Question # 47

What problems have you encountered at work?

Answer:-

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

[Read More Answers.](#)

Question # 48

How would you rate your communication and interpersonal skills for this job As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

These are important for support workers. But they differ from the communication skills of a CEO or a desktop support technician. Communication must be adapted to the special ways and needs of the clients. Workers must be able to not only understand and help their clients, but must project empathy and be a warm, humane presence in their lives.

[Read More Answers.](#)

Question # 49

Do you think you have enough experience As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[Read More Answers.](#)

Question # 50

How would you motivate your team members to produce the best possible results?

Answer:-

Trying to create competitive atmosphere, trying to motivate the team as a whole, organizing team building activities, building good relationships amongst people.

[Read More Answers.](#)

Question # 51

Explain me about your experience working in this field As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

Question # 52

What is your greatest weakness As Electrical and Instrumentation Technician (E I Tec)? What are you doing to improve it?

Answer:-

I believe my biggest weakness As Electrical and Instrumentation Technician (E I Tec) is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

[Read More Answers.](#)

Question # 53

Explain an occasion when you had to adapt in the face of a difficult situation?

Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[Read More Answers.](#)

Question # 54

Where do you see yourself professionally five years from now As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

Demonstrate both loyalty and ambition in the answer to this question. After sharing your personal ambition, it may be a good time to ask the interviewer if your

ambitions match those of the company.

[Read More Answers.](#)

Question # 55

How do you plan to go by an example for your subordinates?

Answer:-

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.

[Read More Answers.](#)

Question # 56

Explain an idea that you have had and have then implemented in practice?

Answer:-

Often an interview guide will outline the so-called 'STAR' approach for answering such questions; Structure the answer as a situation, task, action, and result: what the context was, what you needed to achieve, what you did, and what the outcome was as a result of your actions.

[Read More Answers.](#)

Question # 57

What types of personalities do you work with best?

Answer:-

In the past, I have found it difficult to work with others who see themselves as better than others, who can take criticism, and who refuse to work with others. I have found it challenging to work with them b/c I am a team oriented person who feels the importance of working together over the needs of the individual especially in a learning environment.

[Read More Answers.](#)

Question # 58

What schedule do you hope to work? Are you willing to work extra hours?

Answer:-

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

[Read More Answers.](#)

Question # 59

What does quality work mean to you?

Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

Question # 60

How would you observe the level of motivation of your subordinates?

Answer:-

Choosing the right metrics and comparing productivity of everyone on daily basis is a good answer, doesn't matter in which company you apply for a supervisory role.

[Read More Answers.](#)

Question # 61

Do you work well under pressure?

Answer:-

Yes.. When it comes down to the wire, the best thing I can to remain focused, have some flexibility, and understand priorities.. Giving them attention in the order they are needed.

[Read More Answers.](#)

Question # 62

Explain me about a time when you reached a goal within a tight deadline?

Answer:-

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

[Read More Answers.](#)

Question # 63

Why should the we hire you as this position As Electrical and Instrumentation Technician (E I Tec)?

Answer:-

This is the part where you link your skills, experience, education and your personality to the job itself. This is why you need to be utterly familiar with the job description as well as the company culture. Remember though, it's best to back them up with actual examples of say, how you are a good team player.

[Read More Answers.](#)

Question # 64

What was the most important task you ever had?

Answer:-

There are two common answers to this question that do little to impress recruiters:

* 'I got a 2.1'

* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

[Read More Answers.](#)

Question # 65

What features of your previous jobs have you disliked?

Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.
