# Engineer Reliability Job Interview Preparation Guide.

## Question # 1

What position do you prefer on a team working on a project?

### Answer:-

Do not claim to be comfortable with a specific role if you are in fact not comfortable with it. However, if you have no problem working in certain roles or situations, be sure to discuss this with the interviewer.

[Read More Answers.](#)

## Question # 2

Tell us about a typical day at work. How does it start? What do you do?

### Answer:-

At the beginning of each day, I inspect the work site to make sure that it is hazard-free. Once the work site is secured, I verify that all tools and equipment are adequate in supply. As soon as the work orders are delivered, I provide workers with security guidelines and carry out drills. During the workday, it is my duty to monitor workers to ensure that they are working according to the enforced safety policies and that any problems or accidents are quickly addressed.

[Read More Answers.](#)

## Question # 3

Tell me about a time when you successfully handled a situation?

### Answer:-

For this question, the interviewer wants to know what you do in a situation that doesn't have a clear answer. This will help the interviewer know how you respond to unforeseen challenges.

[Read More Answers.](#)

## Question # 4

What motivates you?

### Answer:-

I've always been motivated by the challenge - in my last role, I was responsible for training our new recruits and having a 100% success rate in passing scores. I know that this job is very fast-paced and I'm more than up for the challenge. In fact, I thrive on it.

[Read More Answers.](#)

## Question # 5

Do you have any blind spots?

### Answer:-

This question is often meant to trick candidates since acknowledgment of blind spots would indicate they were aware of them. Also, do not disclose bad habits or other personal concerns. Let the interviewer find out about your personal flaws through the course of the interview without directly stating these flaws.

[Read More Answers.](#)

## Question # 6

Tell us about a suggestion you have made that has benefited an organization you've worked for?

### Answer:-

This is another opportunity to show the interviewer what you're capable of so make sure to be prepared for this type of question. Have an example ready and make sure it's an example of a suggestion you've made that was accepted and that has positive influence. If you can come up with an example that relates to the position you're applying for that would be even better.

[Read More Answers.](#)

## Question # 7

Do you ever take work home with you?

### Answer:-

Here are two great sample answers that might help get you started:

\* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.

\* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.

\* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

### Question # 8

What do you think about Teamwork?

### Answer:-

I enjoy teamwork and am used to shift work. I think I would adapt well to the role. I am looking for new challenges As Engineer Reliability and I know I would learn a lot as cabin crew, not just about people and places, but skills like first aid too, how can I help others within my limits.

[Read More Answers.](#)

### Question # 9

Why do you want to work for this company?

### Answer:-

Again be honest. The interviewer will be able to sense very quickly if you're being disingenuous. Your answer should be based on your personal reasons, career aspirations as well as research you've performed on the company. The most important thing you should do is make sure to relate your answer to your long-term career goals.

[Read More Answers.](#)

### Question # 10

Are you willing to work overtime or odd hours?

### Answer:-

Be completely honest. You don't want to lie to get the job if you're not going to work the hours required.

[Read More Answers.](#)

### Question # 11

Can you explain why you changed career paths As Engineer Reliability?

### Answer:-

Don't be thrown off by this question—just take a deep breath and explain to the hiring manager why you've made the career decisions As Engineer Reliability you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

[Read More Answers.](#)

### Question # 12

What education or training have you had that makes you fit for this profession As Engineer Reliability?

### Answer:-

This would be the first question asked in any interview. Therefore, it is important that you give a proper reply to the question regarding your education. You should have all the documents and certificates pertaining to your education and/or training, although time may not allow the interviewer to review all of them.

[Read More Answers.](#)

### Question # 13

Tell me about a time when you had to give someone difficult feedback As Engineer Reliability?

### Answer:-

By asking this question, your interviewer hopes to learn whether you can communicate effectively, address issues in the workplace and motivate others during difficult times. Giving negative feedback requires honesty, thoughtfulness and tact. Answering this question well can help show an interviewer that you would be a good fit for a managerial position or a position that involves working closely with others.

[Read More Answers.](#)

### Question # 14

Tell me about the most fun you have had on the job?

### Answer:-

When answering this question, discuss situations where you completed tasks benefitting your previous employers.

[Read More Answers.](#)

### Question # 15

How do you stay organized?

### Answer:-

By maintaining proper routine every day. Putting my strongest points with my weakness. High priority always comes first As Engineer Reliability.

[Read More Answers.](#)

### Question # 16

What is the most irritating thing you've experienced about your co-workers?

#### Answer:-

This question is designed to find out if you get along well on team, with other and whether or not you'll be a fit with the interviewer's organization. It's a trap. Think real hard but fail to come up anything that irritated you about your co-workers. A short positive response is best.

[Read More Answers.](#)

### Question # 17

How do you think you might fit this position As Engineer Reliability?

#### Answer:-

An important part of research before the interview is what the company does and how the job role relates to that. This includes the company philosophy and working methods. Questions such as this seek to find out how a candidate will fit into the organisation As Engineer Reliability. Answer positively; including practical examples of how you anticipate you would perform in the new role.

[Read More Answers.](#)

### Question # 18

What type of people do you not work well with?

#### Answer:-

Be very careful answering this question as most organization employ professionals with an array of personalities and characteristics. You don't want to give the impression that you're going to have problems working with anyone currently employed at the organization. If you through out anything trivial you're going to look like a whiner. Only disloyalty to the organization or lawbreaking should be on your list of personal characteristics of people you can't work with.

[Read More Answers.](#)

### Question # 19

How well do you perform under pressure?

#### Answer:-

This is a fair question, as potential employers want to know if you're going to be able to get the job done even when things get a little bit stressful. You may say that you thrive under pressure or that you're able to get the job done even when things get a little bit stressful, just make sure to provide some real world examples of your ability to work under pressure in a prior job.

[Read More Answers.](#)

### Question # 20

Why are you leaving last job?

#### Answer:-

Although this would seem like a simple question, it can easily become tricky. You shouldn't mention salary being a factor at this point As Engineer Reliability. If you're currently employed, your response can focus on developing and expanding your career and even yourself. If you're current employer is downsizing, remain positive and brief. If your employer fired you, prepare a solid reason. Under no circumstance should you discuss any drama or negativity, always remain positive.

[Read More Answers.](#)

### Question # 21

How long do you want to work for us if we hire you?

#### Answer:-

Here being specific is probably not the best approach. You may consider responding, "I hope a very long time." Or "As long as we're both happy with my performance."

[Read More Answers.](#)

### Question # 22

How do you handle confidentiality in your work?

#### Answer:-

Often, interviewers will ask questions to find out the level of technical knowledge As Engineer Reliability that a candidate has concerning the duties of a care assistant. In a question such as this, there is an opportunity to demonstrate professional knowledge and awareness. The confidentiality of a person's medical records is an important factor for a care assistant to bear in mind.

[Read More Answers.](#)

### Question # 23

Would you like doing repetitive work?

#### Answer:-

Why not, I am not only doing a repetitive work but also earning but also getting a good salary by the company As Engineer Reliability. And second thing is that nothing is interesting in the life till we are not interested.

[Read More Answers.](#)

### Question # 24

What is your biggest weakness As Engineer Reliability?

## Engineer Reliability Interview Questions And Answers

---

### Answer:-

No one likes to answer this question because it requires a very delicate balance. You simply can't lie and say you don't have one; you can't trick the interviewer by offering up a personal weakness As Engineer Reliability that is really a strength ("Sometimes, I work too much and don't maintain a work-life balance."); and you shouldn't be so honest that you throw yourself under the bus ("I'm not a morning person so I'm working on getting to the office on time.")

[Read More Answers.](#)

### Question # 25

Do you work well within a team?

### Answer:-

Some people are thrown when they are asked this Engineer Reliability question when they are applying for a position to work alone. Every company works as a team, so you are a good team player, give an example of when you have worked well within a team.

### Question # 27

What was the most difficult employee situation you found yourself As Engineer Reliability? How did you overcome the problem?

### Answer:-

One of employees was conflicting with other and colleague who was prove his was wrong hi denied and was invite union to defend him but we have prove his wrong and I was facing disciplinary action.

[Read More Answers.](#)

### Question # 28

Why should we select you not others?

### Answer:-

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. You may say like I think I am really qualified for the position. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

[Read More Answers.](#)

### Question # 29

Why should I hire you As Engineer Reliability?

### Answer:-

To close the deal on a job offer, you MUST be prepared with a concise summary of the top reasons to choose you. Even if your interviewer doesn't ask one of these question in so many words, you should have an answer prepared and be looking for ways to communicate your top reasons throughout the interview process.

[Read More Answers.](#)

### Question # 30

Why are manhole covers round?

### Answer:-

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[Read More Answers.](#)

### Question # 31

What are your personal skills which make you a candidate for the position As Engineer Reliability?

### Answer:-

The list of crucial character traits includes patience, tact, and poise, with personal and cultural sensitivity. One needs the ability to work long hours, with much walking and some physical tasks. But the most important trait of all is to love people and to have the desire to care for them.

[Read More Answers.](#)

### Question # 32

Tell me an occasion when you needed to persuade someone to do something?

### Answer:-

Interpersonal relationships are a very important part of being a successful care assistant. This question is seeking a solid example of how you have used powers of

persuasion to achieve a positive outcome in a professional task or situation. The answer should include specific details.

[Read More Answers.](#)

### Question # 33

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

#### Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[Read More Answers.](#)

### Question # 34

How would you estimate the weight of the Chrysler building?

#### Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

[Read More Answers.](#)

### Question # 35

What makes a product successful?

#### Answer:-

Basing on the monetization, these questions give you the chance to prove your personal try. Do not show extremely your optimism and pursue the unreality. Give your answers the reality.

It is useful to predict a five to ten- year- scenario of expectations in order to gain your targets that you set up and it is the period of time to see how your plans and targets are performed.

Therefore, the quality of the product and marketability of the mentioned industry need to be highlighted. This will help you to achieve the interviewer's attention and insurance to you personality and you can get the honest and long- term goals.

[Read More Answers.](#)

### Question # 36

What do you like to do outside of work?

#### Answer:-

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too." In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

[Read More Answers.](#)

### Question # 37

How do you deal with pressure or stressful situations?

#### Answer:-

Choose an answer that shows that you can meet a stressful situation head-on in a productive, positive manner and let nothing stop you from accomplishing your goals. A great approach is to talk through your go-to stress-reduction tactics (making the world's greatest to-do list, stopping to take 10 deep breaths), and then share an example of a stressful situation you navigated with ease.

[Read More Answers.](#)

### Question # 38

What does success mean to you?

#### Answer:-

I am punctual, I always have excellent attendance on any job As Engineer Reliability, I have a keen eye for both large and small details, and I am always finding ways to improve a process and shorten the length of time it takes to complete a project.

[Read More Answers.](#)

### Question # 39

What do you consider to be your weaknesses?

#### Answer:-

What your interviewer is really trying to do with this question-beyond identifying any major red flags-is to gauge your self-awareness and honesty. So, "I can't meet a deadline to save my life As Engineer Reliability" is not an option-but neither is "Nothing! I'm perfect!" Strike a balance by thinking of something that you struggle with but that you're working to improve. For example, maybe you've never been strong at public speaking, but you've recently volunteered to run meetings to help you be more comfortable when addressing a crowd.

[Read More Answers.](#)

### Question # 40

Do you like being around people?

#### Answer:-

People skills are a necessity for medical assistants. When answering this question, be sure to show that you enjoy interacting and working with others and that you also derive great enjoyment from helping others. This will show that you are a team player and that you would be a valuable team member As Engineer Reliability.

[Read More Answers.](#)

### Question # 41

What can you tell me about team work as part of the job As Engineer Reliability?

#### Answer:-

There is usually a team of staff nurses working in cooperation with each other. A team of nurses has to get along well and coordinate their actions, usually by dividing their responsibilities into sectors or specific activities. They help each other perform tasks requiring more than one person.

[Read More Answers.](#)

### Question # 42

How many basketballs would fit in this room?

#### Answer:-

One. You did not ask what is the maximum number of basketballs you can fit in the room.

[Read More Answers.](#)

### Question # 43

What are your salary requirements As Engineer Reliability?

#### Answer:-

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

[Read More Answers.](#)

### Question # 44

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

#### Answer:-

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

[Read More Answers.](#)

### Question # 45

How would you describe your approach to Engineer Reliability?

#### Answer:-

In more general terms, a question such as this gives a candidate the opportunity to talk about their professional philosophy and skills. While the question is general in nature, the best answers are usually quite specific, picking one or two points and exemplifying them with instances from personal history.

[Read More Answers.](#)

### Question # 46

If hired, how do you intend on making a difference with our company?

#### Answer:-

Dedicate myself to learn everything about the new company that I can, look for ways and ideas that could improve, processes, safety, removing obstacles from the associates, I want to advance within the company.

[Read More Answers.](#)

### Question # 47

What is it about this position As Engineer Reliability that attracts you the most?

#### Answer:-

Use your knowledge of the job description to demonstrate how you are a suitable match for the role.

[Read More Answers.](#)

### Question # 48

Why are you leaving the present company?

#### Answer:-

According to me we can not grow in the field without taking more responsibilities and risks and also we can't enhance our team leading capabilities, managerial skills without expose to wide range of people.

[Read More Answers.](#)

### Question # 49

What do you already know about our company?

#### Answer:-

Good reputation of a large home grown company that has various departments and product.

[Read More Answers.](#)

### Question # 50

Explain a time when you did not get along with your coworker?

#### Answer:-

I used to lock heads with a fellows. We disagreed over a lot of things - from the care of civilians to who got what shifts to how to speak with a victim's family. Our personalities just didn't mesh. After three months of arguing, I pulled her aside and asked her to lunch. At lunch, we talked about our differences and why we weren't getting along. It turns out, it was all about communication. We communicated differently and once we knew that, we began to work well together. I really believe that talking a problem through with someone can help solve any issue.

[Read More Answers.](#)

### Question # 51

What are your salary expectations As Engineer Reliability?

#### Answer:-

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

[Read More Answers.](#)

### Question # 52

What do you think we could do better or differently?

#### Answer:-

This is a common one at startups. Hiring managers want to know that you not only have some background on the company, but that you're able to think critically about it and come to the table with new ideas. So, come with new ideas! What new features would you love to see? How could the company increase conversions? How could customer service be improved? You don't need to have the company's four-year strategy figured out, but do share your thoughts, and more importantly, show how your interests and expertise would lend themselves to the job.

[Read More Answers.](#)

### Question # 53

What features of your previous jobs have you disliked?

#### Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

### **Question # 58**

Do you work well under pressure?

**Answer:-**

Yes.. When it comes down to the wire, the best thing I can to remain focused, have some flexibility, and understand priorities.. Giving them attention in the order they are needed.

[Read More Answers.](#)

### **Question # 59**

What are three positive things your last boss would say about you?

**Answer:-**

It's time to pull out your old performance appraisals and boss's quotes. This is a great way to brag about yourself through someone else's words: "My boss has told me that I am the best designer he has ever had. He knows he can rely on me, and he likes my sense of humor."

[Read More Answers.](#)

### **Question # 60**

Do you have good computer skills?

**Answer:-**

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[Read More Answers.](#)

### **Question # 61**

Are you planning to continue your studies and training As Engineer Reliability?

**Answer:-**

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

[Read More Answers.](#)

### **Question # 62**

How much do you expect to get paid As Engineer Reliability?

**Answer:-**

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[Read More Answers.](#)

### **Question # 63**

What kind of salary do you need As Engineer Reliability?

**Answer:-**

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

### **Question # 64**

How many square feet of pizza are eaten in the United States each month?

**Answer:-**

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

### Question # 69

Why do you want to work As Engineer Reliability for this organisation?

#### Answer:-

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

[Read More Answers.](#)

### Question # 70

Describe to me the position As Engineer Reliability you're applying for?

#### Answer:-

This is a "homework" question, too, but it also gives some clues as to the perspective the person brings to the table. The best preparation you can do is to read the job description and repeat it to yourself in your own words so that you can do this smoothly at the interview.

[Read More Answers.](#)

### Question # 71

Have you got any questions?

#### Answer:-

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

### Question # 76

What's your salary history?

#### Answer:-

When you are interviewing for a new job, it is common practice for the company to ask you about your salary history. I typically want to know what the candidate's base salary is, if they receive any bonus, the average bonus amount, and any additional compensation or perks, such as 500k matching, stock grants or stock options, paid time off and how much they are required to pay towards their medical premiums.

### Question # 77

Explain an occasion when you had to adapt in the face of a difficult situation?

#### Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.
