Question # 3

Explain me about a problem or disagreement you had with previous supervisor?

Answer:-

This question is trap. It is meant to see whether or not you'll speak poorly of an employer. No one wants to hire someone who's going to speak poorly of them down the road. Stay upbeat and positive - and most of all don't say anything negative about a previous employer.

Question # 4

How well do you perform under pressure?

Answer:-

This is a fair question, as potential employers want to know if you're going to be able to get the job done even when things get a little bit stressful. You may say that you thrive under pressure or that you're able to get the job done even when things get a little bit stressful, just make sure to provide some real world examples of your ability to work under pressure in a prior job.

Question # 5

Can you explain why you changed career paths As Information Architect?

Answer:-

Don't be thrown off by this question-just take a deep breath and explain to the hiring manager why you've made the career decisions As Information Architect you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

Question # 6

Top 12 Stress Based Interview Questions As Information Architect:

Answer:-

Some jobs require employees to work under stress, and some interviewers just like to see how applicants handle stressful questions. There are many questions designed for putting the interviewee into an awkward situation, or throwing them off, to see how they do under stress. Here are some samples.

1. How do you feel this interview is going As Information Architect?
2. How would you handle undesired criticism from a superior?
3. How many other jobs are you applying for?
4. What would you do if you saw a colleague stealing supplies or equipment?

5. What did you do when you had a boss you didn't get along with?
6. What would you do if a colleague took credit for your idea, and got a promotion?
7. Was the stress of your previous job too much for you?
8. What would you do if a colleague admitted to lying on their resume to get the job?
9. What would you do if a customer verbally insulted you in front of co-workers?
10. What would you change about the design of a baseball hat?
11. Why were you fired from your previous job As Information Architect?
12. How successful do you think you've been so far?

Question # 7

Tell me why do you want this job As Information Architect?

Answer:-

Bad Answer: No solid answer, answers that don't align with what the job actually offers, or uninspired answers that show your position is just another of the many jobs they're applying for.

Good answer: The candidate has clear reasons for wanting the job that show enthusiasm for the work and the position, and knowledge about the company and job.

Question # 10

What experience do you have As Information Architect?

Answer:-

The employer would want to know that not only you can do the job but you can make the difference and bring significant contribution - Simple as that.

No doubt that this is your time to perform and present yourself - You have to introduce/sell yourself to the interviewer. Prepare your answer based on your qualification, professional experience and what you've already achieved in your previous jobs. This is your time to express why you think that your professional abilities fit into the job and its requirements.

Top 10 employment experience you'd want to review:

- * Companies you worked for with dates
- * The positions you've held
- * Key projects and responsibilities
- * Achievements
- * Coursework & continues education
- * Expertise
- * Tools you used (software, hardware)
- * Knowledge of languages
- * Engagement with customers and key industry leaders
- * Team work you were involved (and your contribution)

Question # 11

What is your dream job?

Answer:-

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may lose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

Question # 26

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Answer:-

Do the following steps:

* 1. Turn ON two switches, and leave one OFF.

* 2. Wait a few minutes.

* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

Question # 50

What problems have you encountered at work?

Answer:-

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

Question # 57

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question # 65

What's a time you exercised leadership?

Answer:-

Depending on what's more important for the the role, you'll want to choose an example that showcases your project management skills (spearheading a project from end to end, juggling multiple moving parts) or one that shows your ability to confidently and effectively rally a team. And remember: "The best stories include enough detail to be believable and memorable,". Show how you were a leader in this situation and how it represents your overall leadership experience and potential.
