Question # 31

Why are manhole covers round?

Answer:-

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

How do you inspire others to be better?

Answer:-

First, the key to inspiring others is to first understand what their goals and objectives are. Once you understand what people want, you can inspire them with a vision that aligns to what they care about. People generally care about having purpose, being successful (and being recognized for it), contributing in a meaningful way, and financial rewards (to a degree) and much more. Then once you understand what people set as goals, you can inspire them through 1:1 pep talks, a presentation to multiple people and so forth.

Question # 40

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Answer:-

Do the following steps:

* 1. Turn ON two switches, and leave one OFF.

* 2. Wait a few minutes.

* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

Question # 47

How would your friends describe you?

Answer:-

My friends would probably say that I'm extremely persistent - I've never been afraid to keep going back until I get what I want. When I worked as a program developer, recruiting keynote speakers for a major tech conference, I got one rejection after another - this was just the nature of the job. But I really wanted the big players - so I wouldn't take no for an answer. I kept going back to them every time there was a new company on board, or some new value proposition. Eventually, many of them actually said "yes" - the program turned out to be so great that we doubled our attendees from the year before. A lot of people might have given up after the first rejection, but it's just not in my nature. If I know something is possible, I have to keep trying until I get it.

Question # 71

What is your greatest weakness As Line Supervisor Telephone? What are you doing to improve it?

Answer:-

I believe my biggest weakness As Line Supervisor Telephone is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.
