Question # 2

What are the purposes and advantages stored procedure?

Answer:-

Purposes and advantages of stored procedures:
    Manage, control and validate data
    It can also be used for access mechanisms
    Large queries can be avoided
    Reduces network traffic since they need not be recompiled
    Even though the stored procedure itself may be a complex piece of code, we need not write it over and over again. Hence stored procedures increases reusability of code
    Permissions can be granted for stored procedures. Hence, increases security.
