MSCE 2003 Certification Job Interview Preparation Guide.

Question # 1

Suppose You are upgrading your company with 50 new PCs and adding these new computers to your network. How do you create a Network Installation Startup disk to help you accomplish this task?

- A. Use the Control Panel, Network icon and select the "Create Network Installation Startup Disk" option to create the floppy disk.
- B. Use the Disk Manager program from the Administrative Tools group to select the Computer pull down menu and the "Create Network Installation Startup Disk" option to create the floppy disk.
- C. From the Windows NT 4.x Workstation or Server CD-ROM copy the NetSetup.exe to your hard drive and execute the program to create the floppy disk.
- D. Use the Network Client Administrator and select the "Create Network Installation Startup Disk" option to create the floppy disk.

Answer:-

D .Use the Network Client Administrator and select the "Create Network Installation Startup Disk" option to create the floppy disk.
