Management Job Interview Preparation Guide.

Question # 1

Final technical authority of a project lies with:

- A. Assistant Engineer
- B. Executive Engineer
- C. Superintending Engineer
- D. Chief Engineer

Answer:-

- D. Chief Engineer

[Read More Answers.](#)

Question # 2

The performance of a specific task in CPM, is known:

- A. Dummy
- B. Event
- C. Activity
- D. Contract

Answer:-

- C. Activity

[Read More Answers.](#)

Question # 3

Critical path lies along the activities having total float:

- A. positive
- B. negative
- C. zero
- D. same

Answer:-

- C. zero

[Read More Answers.](#)

Question # 4

Construction team means:

- A. an engineer
- B. an architect
- C. an owner
- D. a contractor
- E. all the above

Answer:-

- E. all the above

[Read More Answers.](#)

Question # 5

CPM is:

- A. synthesizing in concepts
- B. is built of activities oriented program
- C. is based on time estimate
- D. is used for repetitive works
- E. all the above

Answer:-

E. all the above

[Read More Answers.](#)

Question # 6

A construction schedule is prepared after collecting:

- A. number of operations
- B. output of labor
- C. output of machinery
- D. quantity of various items
- E. all the above

Answer:-

E. all the above

[Read More Answers.](#)

Question # 7

A dummy activity:

- A. is artificially introduced
- B. is represented by a dotted line
- C. does not consume time
- D. all the above

Answer:-

D. all the above

[Read More Answers.](#)

Question # 8

Military organisation is known as:

- A. line organisation
- B. line and staff organisation
- C. functional organisation
- D. none of these

Answer:-

A. line organisation

[Read More Answers.](#)

Question # 9

Completion of an activity on CPM network diagram, is generally known:

- A. Event
- B. Node
- C. Connector
- D. All the above.

Answer:-

D. All the above

[Read More Answers.](#)

Question # 10

A Milestone chart:

- A. shows the inter-dependencies of various jobs
- B. depicts the delay of jobs, if any
- C. points outgoing ahead of schedule of jobs, if any
- D. none of these.

Answer:-

D. none of these

[Read More Answers.](#)

Question # 11

Pick up the correct statement from the following:

- A. The float may be positive, zero or negative
- B. If the float is positive and the activity is delayed by a period equal to its total float, the completion of project is not delayed
- C. If the float of an activity is negative, delay in its performance is bound to delay the completion of project
- D. If the float of an activity is zero, the activity is critical and any delay in its performance will delay the whole project
- E. All the above.

Answer:-

E. All the above

[Read More Answers.](#)

Question # 12

Pick up the correct network for the activities of pouring concrete, erection of form work, removal of form work and curing of concrete from the following:

A:

1. Pouring of Concrete
2. Erection of form work
3. Curing of concrete
4. Removal of form work

B:

1. Erection of form work
2. Pouring of concrete
3. Curing of concrete
4. Removal of form work

C:

1. Removal of form work
2. Erection of form work
3. Pouring of concrete
4. Curing of concrete

D:

1. Pouring of concrete
2. Curing of concrete
3. Erection of form work
4. Removal of form work

Answer:-

D:

1. Pouring of concrete
2. Curing of concrete
3. Erection of form work
4. Removal of form work

[Read More Answers.](#)

Question # 13

Time and progress chart of a construction, is also known as:

- A. Bar chart
- B. Gantt chart
- C. Modified Mile stone chart
- D. Critical path method chart
- E. All the above

Answer:-

E. All the above

[Read More Answers.](#)

Question # 14

Pick up the incorrect statement from the following:

- A. The activity is the time consuming part of a project
- B. The beginning and end of a job, are called events
- C. The activity which consumes maximum time, is called a node
- D. Logically and sequentially connected activities and events form a network
- E. None of these

Answer:-

C. The activity which consumes maximum time, is called a node

[Read More Answers.](#)

Question # 15

The most popular type of organisation used for Civil Engineering Constructions, is:

- A. line organisation
- B. line and staff organisation
- C. functional organisation
- D. effective organisation

Answer:-

A. line organisation

[Read More Answers.](#)

Question # 16

Various activities of a project, are shown on bar charts by:

- A. vertical lines
- B. horizontal lines
- C. dots
- D. crosses.

Answer:-

B. horizontal lines

[Read More Answers.](#)

Question # 17

The object of technical planning, is:

- A. preparation of specifications
- B. preparation of estimates
- C. initiating the procurement action of resources
- D. taking remedial action for likely bottleneck in the execution
- E. all the above

Answer:-

- E. all the above

[Read More Answers.](#)

Question # 18

The difference between the time available to do a job and the time required to do the job, is known as:

- A. event
- B. float
- C. duration
- D. constraint

Answer:-

- B. float

[Read More Answers.](#)

Question # 19

The salient feature of functional organisation is:

- A. strict adherence to specifications
- B. separation of planning and design part
- C. each individual maintains functional efficiency
- D. work is properly planned and distributed
- E. all the above

Answer:-

- E. all the above

[Read More Answers.](#)

Question # 20

Site order book is used for recording:

- A. instructions by the executive engineers
- B. construction measurements
- C. issue of store equipment's
- D. names of the casual labour

Answer:-

- A. instructions by the executive engineers

[Read More Answers.](#)

Question # 21

The main principle of an organisation, is:

- A. unity of command
- B. coagency
- C. effective control at all levels
- D. delegation of authority
- E. all the above

Answer:-

- E. all the above

[Read More Answers.](#)

Question # 22

Critical Path Net Work helps an engineer:

- A. to concentrate his attention on critical activities
- B. to divert the resources from non-critical advanced activities to critical activities
- C. to be cautious for avoiding any delay in the critical activities to avoid delay of the whole project
- D. all the above

Answer:-

- D. all the above

[Read More Answers.](#)

Question # 23

Critical path method:

- A. is an improvement upon bar chart method
- B. provides a realistic approach to daily problems
- C. avoids delays which are very common in bar charts
- D. was invented by Morgan R. Walker of Dupont and James E. Kalley or Remington U.S.A. in 1957
- E. All the above

Answer:-

E. All the above

[Read More Answers.](#)

Question # 24

The estimated time required to perform an activity, is known as:

- A. event
- B. dummy
- C. duration
- D. float

Answer:-

C. duration

[Read More Answers.](#)

Question # 25

An Executive Engineer may have powers upto:

- A. Rs. 25,000
- B. Rs. 50,000
- C. Rs. 100,000
- D. Rs. 200,000
- E. Rs. 500,000

Answer:-

A. Rs. 25,000

[Read More Answers.](#)

Question # 26

The time by which activity completion time can be delayed without affecting the start of succeeding activities, is known as:

- A. duration
- B. total flat
- C. free float
- D. interfering float

Answer:-

C. free float

[Read More Answers.](#)

Question # 27

The first method invented for planning projects, was:

- A. Bar chart method
- B. Milestone chart
- C. Critical path method (CPM)
- D. Program Evaluation and Review Technique (PERT)

Answer:-

A. Bar chart method

[Read More Answers.](#)

Question # 28

The overall in-charge of an organisation at the site responsible for the execution of the works, is:

- A. Executive Engineer
- B. Engineer
- C. Junior Engineer
- D. Sub overseer
- E. Assistant Engineer

Answer:-

B. Engineer

[Read More Answers.](#)

Question # 29

The artificial activity which indicates that an activity following it, cannot be started unless the preceding activity is complete, is known as:

- A. event
- B. free float
- C. dummy
- D. constant

Answer:-

C. dummy

[Read More Answers.](#)

Question # 30

The time which results in the least, possible construction cost of an activity, is known:

- A. normal time
- B. slow time
- C. crash time
- D. standard time

Answer:-

- B. slow time

[Read More Answers.](#)

Question # 31

A CPM family includes:

- A. CPA (Critical Path Analysis)
- B. CPP (Critical Path Plotted)
- C. MCE (Minimum Cost Expenditure)
- D. CPS (Critical Path Scheduling)
- E. All the above

Answer:-

- E. All the above

[Read More Answers.](#)

Question # 32

Modular co-ordination of construction means proper:

- A. planning
- B. designing
- C. execution
- D. all the above

Answer:-

- D. all the above

[Read More Answers.](#)

Question # 33

Pick up the correct statement from the following:

- A. CPM analysis is activity oriented
- B. PERT analysis is event oriented
- C. CPM does not make any allowance for the uncertainties in the duration of time
- D. In CPM, the time is related to cost
- E. All the above

Answer:-

- E. All the above

[Read More Answers.](#)

Question # 34

If the total float and duration of an activity are 5 and 10 days respectively, the particular activity can be:

- A. started 5 days later
- B. completed 5 days later
- C. performed at slower rate in 15 days
- D. all the above

Answer:-

- D. all the above

[Read More Answers.](#)

Question # 35

Works costing less than Rs. 20,000 are treated as:

- A. projects
- B. major projects
- C. minor projects
- D. all the above

Answer:-

- C. minor projects

[Read More Answers.](#)

Question # 36

Bar charts are suitable for:

- A. minor works
- B. major works
- C. large projects
- D. all the Above

Answer:-

A. minor works

[Read More Answers.](#)

Question # 37

Which one of the following represents an activity:

- A. excavation for foundation
- B. curing of concrete
- C. setting of question paper
- D. preparation of breakfast
- E. all the above

Answer:-

E. all the above

[Read More Answers.](#)

Question # 38

The technique for establishing and maintaining priorities among the various jobs of a project, is known:

- A. Event flow scheduling technique
- B. Critical ratio scheduling
- C. Slotting technique for scheduling
- D. Short interval scheduling

Answer:-

B. Critical ratio scheduling

[Read More Answers.](#)

Question # 39

A critical ratio scheduling:

- A. establishes the relative priorities among various activities on a common basis
- B. determines the status of each activity
- C. adjusts automatically changes in activity progress
- D. is a dynamic system
- E. none of these

Answer:-

E. none of these

[Read More Answers.](#)

Question # 40

Mile Stone charts were invented in the year of:

- A. 1910
- B. 1920
- C. 1930
- D. 1940
- E. 1950

Answer:-

D. 1940

[Read More Answers.](#)

Question # 41

Pick up the incorrect statement from the following:

- A. An activity of a project is denoted by an arrow on the net work
- B. The tail of the arrow indicates the start of the activity
- C. The head of the arrow indicates the end of the activity
- D. The arrows are drawn to scale from left to right
- E. Each activity consumes a given time

Answer:-

D. The arrows are drawn to scale from left to right

[Read More Answers.](#)

Question # 42

Frederick W. Taylor introduced a system of working known as:

- A. line organisation
- B. line and staff organisation
- C. functional organisation
- D. effective organisation

Answer:-

C. functional organisation

[Read More Answers.](#)

Question # 43

_____ means that the manager spends his or her time dealing with exceptions or those situations which are out of control.

- A. relevant
- B. management by exception
- C. predictive reports
- D. control
- E. None of the above

Answer:-

- B. management by exception

[Read More Answers.](#)

Question # 44

_____ decisions are those decisions for which policy standards or guidelines are already established.

- A. programmable
- B. control
- C. predictive reports
- D. relevant
- E. None of the above

Answer:-

- A. programmable

[Read More Answers.](#)

Question # 45

A financial modeling package for a PC is similar to a spreadsheet package, but it can handle larger data files than a spreadsheet, and it has a built-in _____ seeking function.

- A. aim
- B. target
- C. goal
- D. plan
- E. None of the above

Answer:-

- C. goal

[Read More Answers.](#)

Question # 46

One of the three most common types of payment systems is the:

- A. pinion fund transaction system
- B. travel expense reimbursement system
- C. accounts payable system
- D. All of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 47

_____ is the use of a model in an attempt to identify and/or reflect the behavior of a real person, process, or system.

- A. master
- B. decision
- C. plan
- D. simulation
- E. None of the above

Answer:-

- D. simulation

[Read More Answers.](#)

Question # 48

Production machines were first controlled by the computer by means of:

- A. punched cards
- B. punched paper tape
- C. magnetic tape
- D. magnetic cards
- E. None of the above

Answer:-

- B. punched paper tape

[Read More Answers.](#)

Question # 49

The use of computers in data processing has had several impacts on business. Which of the following is not one of them?

- A. easier business growth
- B. fewer clerical workers

- C. increased data-processing costs
- D. more and better information
- E. None of the above

Answer:-

- C. increased data-processing costs

[Read More Answers.](#)

Question # 50

Which of the following is not an important principle for evaluating the raw data for decision-making:

- A. selection
- B. pattern
- C. average
- D. overview
- E. None of the above

Answer:-

- C. average

[Read More Answers.](#)

Question # 51

From a data systems design viewpoint, the number of different types of general ledger entries is:

- A. six
- B. three
- C. four
- D. one
- E. None of the above

Answer:-

- C. four

[Read More Answers.](#)

Question # 52

Encryption is being used primarily with:

- A. file retention
- B. transaction entry
- C. computer processing
- D. data communication

Answer:-

- D. data communication

[Read More Answers.](#)

Question # 53

Which of the following is(are) true of system analysts?

- A. their responsibility is to analyze and design system software
- B. they may be looked upon as an intermediary between users and programmers
- C. they are heavily involved with the system-development life cycle
- D. both (a) and (c)
- E. None of the above

Answer:-

- D. both (a) and (c)

[Read More Answers.](#)

Question # 54

The model curriculum for information-system education suggested by the _____ has a more theoretical and conceptual basis, whereas the model by the _____ is more practical and applied in nature.

- A. AI, ES
- B. KBS, AI
- C. ACM, DPMA
- D. SISD, MMD
- E. None of the above

Answer:-

- C. ACM, DPMA

[Read More Answers.](#)

Question # 55

Data has to be _____ before it can be converted into information.

- A. transformed
- B. processed
- C. changed
- D. engineered
- E. None of the above

Answer:-

B. processed

[Read More Answers.](#)

Question # 56

Which of the following is not true of the EDP Auditors Foundation?

- A. It publishes a journal, The EDP Auditor
- B. It sponsors the CIS A examination.
- C. It is a professional association of those auditors who specialize in EDP
- D. It is a member of the AFIPS.
- E. None of the above

Answer:-

D. It is a member of the AFIPS.

[Read More Answers.](#)

Question # 57

The DBA is:

- A. a person
- B. a computer device
- C. a communication technique
- D. All of the above
- E. None of the above

Answer:-

D. All of the above

[Read More Answers.](#)

Question # 58

_____ decisions concern the execution of specific tasks to assure that they are carried out efficiently and effectively.

- A. tactical
- B. strategic
- C. operational
- D. management
- E. None of the above

Answer:-

C. operational

[Read More Answers.](#)

Question # 59

The analysis and design of application systems are the responsibility of a _____.

- A. Computer Operator
- B. Programmer
- C. System Analyst
- D. Data entry operator
- E. None of the above

Answer:-

C. System Analyst

[Read More Answers.](#)

Question # 60

To _____ is to decide in advance on a course of action.

- A. master
- B. decision
- C. plan
- D. control
- E. None of the above

Answer:-

C. plan

[Read More Answers.](#)

Question # 61

The most straightforward resource flow is:

- A. manpower
- B. machines
- C. material
- D. money
- E. None of the above

Answer:-

B. machines

[Read More Answers.](#)

Question # 62

A constraint that does not affect the feasible solution region is known as:

- A. redundant constraint
- B. unbounded solution
- C. slack variable
- D. surplus variable
- E. None of the above

Answer:-

- A. redundant constraint

[Read More Answers.](#)

Question # 63

The product structure file is also called the:

- A. item master file
- B. bill of materials file
- C. operations file
- D. All of the above
- E. None of the above

Answer:-

- B. bill of materials file

[Read More Answers.](#)

Question # 64

Average inventory level is reduced by:

- A. decreasing the vendor lead time
- B. increasing the usage rate
- C. decreasing the order quantity
- D. lowering the reorder point
- E. None of the above

Answer:-

- C. decreasing the order quantity

[Read More Answers.](#)

Question # 65

Econometric models include techniques from:

- A. economics
- B. statistics
- C. mathematics
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 66

Critical path of the PERT chart is:

- A. path which takes the longest time to complete the project
- B. the shortest path
- C. both of the above
- D. path which takes the shortest time to complete the project
- E. None of the above

Answer:-

- A. path which takes the longest time to complete the project

[Read More Answers.](#)

Question # 67

Inventory is also referred to as:

- A. stock
- B. warehouse capacity
- C. materials
- D. materials in hand
- E. None of the above

Answer:-

- A. stock

[Read More Answers.](#)

Question # 68

Controls of data communication deal with:

- A. the communication channel
- B. the computer
- C. terminals
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 69

The operations file is updated by the:

- A. production control system
- B. MRP system
- C. shipping system
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 70

A lock-box service is used for:

- A. depositing cash when bank is closed
- B. paying bank customer bills automatically
- C. storing papers in a bank vault
- D. depositing payments to bank customers
- E. None of the above

Answer:-

- D. depositing payments to bank customers

[Read More Answers.](#)

Question # 71

Order-filling activity in the physical system is triggered by the:

- A. manufacturing information system
- B. order entry subsystem
- C. billing subsystem
- D. accounts receivable subsystem
- E. None of the above

Answer:-

- C. billing subsystem

[Read More Answers.](#)

Question # 72

Operations Research came into being due to:

- A. medical reasons
- B. military reasons
- C. educational reasons
- D. to improve transportation
- E. None of the above

Answer:-

- B. military reasons

[Read More Answers.](#)

Question # 73

_____ is the ratio of correct information to the total amount of information produced over a period.

- A. accuracy
- B. concise
- C. simulation
- D. decision
- E. None of the above

Answer:-

- A. accuracy

[Read More Answers.](#)

Question # 74

Standards are provided by:

- A. standards organizations
- B. user groups
- C. computer vendors
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 75

An EOQ formula is an example of a(n):

- A. optimizing model
- B. static model
- C. deterministic model
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 76

The _____ is a business-oriented data-processing association which publishes a monthly journal, Data Management.

- A. DPMA
- B. CDP
- C. CISA
- D. ACM
- E. None of the above

Answer:-

- A. DPMA

[Read More Answers.](#)

Question # 77

The computer can potentially be used to monitor most of our actions, thus robbing us of _____.

- A. tapping
- B. privacy
- C. back log
- D. security
- E. None of the above

Answer:-

- B. privacy

[Read More Answers.](#)

Question # 78

If you are an information-system manager, which organization is most appropriate for your interest?

- A. ACM
- B. SIM
- C. ASA
- D. IEEE
- E. None of the above

Answer:-

- B. SIM

[Read More Answers.](#)

Question # 79

A systems theory of organization sees the firm as a:

- A. network of resource flows
- B. system transforming inputs into outputs
- C. physical system managed by a manager using a conceptual system
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 80

_____ are knowledge based system to which present rules are applied to solve a particular problem.

- A. ES
- B. AI
- C. KBS

- D. Base rule 0
- E. None of the above

Answer:-

- A. ES

[Read More Answers.](#)

Question # 81

The four major corporate resources are money, materials, information, and:

- A. people
- B. icons
- C. information system
- D. on-line
- E. None of the above

Answer:-

- A. people

[Read More Answers.](#)

Question # 82

A standards manual specifies standards that are to be followed in:

- A. system design
- B. system operation
- C. both (a) and (b)
- D. neither (a) nor (b)

Answer:-

- C. both (a) and (b)

[Read More Answers.](#)

Question # 83

Computer support to the manager has been least in:

- A. alternative identification
- B. alternative selection
- C. problem identification
- D. alternative evaluation
- E. None of the above

Answer:-

- A. alternative identification

[Read More Answers.](#)

Question # 84

Slack is the calculated time span within which the event must occur:

- A. true
- B. false
- C. cannot be said
- D. All of the above
- E. None of the above

Answer:-

- A. true

[Read More Answers.](#)

Question # 85

An optional facilitates location program can be used to study:

- A. factory location alternative
- B. warehouse location alternatives
- C. plant location alternatives
- D. All of the above
- E. None of the above

Answer:-

- D. All of the above

[Read More Answers.](#)

Question # 86

A _____ is a brief message to an operator that describes what data are to be entered.

- A. prompt
- B. passwords
- C. MIS
- D. Tactical
- E. None of the above

Answer:-

B. passwords

[Read More Answers.](#)

Question # 87

A _____ decision is routine one that's made following the completion of a pre-planned series of steps.

- A. strategic
- B. structured
- C. simulation
- D. tactical
- E. None of the above

Answer:-

B. structured

[Read More Answers.](#)

Question # 88

The online, softcopy display of a customer's charge account to respond to an inquiry is an example of a(n):

- A. regularly scheduled report
- B. on-demand report
- C. exception report
- D. forecasting report
- E. None of the above

Answer:-

B. on-demand report

[Read More Answers.](#)

Question # 89

Error reports are an example of:

- A. scheduled reports
- B. demand reports
- C. exception reports
- D. predictive reports
- E. management reports

Answer:-

C. exception reports

[Read More Answers.](#)

Question # 90

Educational programs for the labour union officials are conducted by:

- A. the firm's industrial relations department
- B. the vice-president of information systems
- C. both (a) and (b)
- D. neither (a) nor (b)
- E. None of the above

Answer:-

C. both (a) and (b)
