Medical Assistant Job Interview Preparation Guide.

Question # 1

Who is Medical Assistant?

Answer:-

Medical assistant is an allied health occupation. Medical assistants perform administrative and/or clinical tasks to support the work of physicians and other health professionals. They perform routine tasks and procedures such as measuring patients' vital signs, administering medications and injections, recording information in medical record keeping systems, preparing and handling medical instruments and supplies, and collecting and preparing specimens of bodily fluids and tissues for laboratory testing.

Question # 10

Tell me your favourite physician's personality?

Answer:-

If you're interviewing for a clinical position, it's a good idea to know a little more about the physician or physicians you'll be working for. In some cases, the physician may be present during the interview. If not, ask about the physician's personality and what their expectations are in a medical assistant. Or, you may simply state that you'd love to know more about the physician with whom you'd be working and see how the employer responds. This can give you an inside peek at how well you may potentially work with the physician.

Question # 13

How would your former employer describe you?

Answer:-

In all likelihood, the interviewer will actually speak with your former employer so honesty is key. Answer as confidently and positively as possible and list all of the positive things your past employer would recognize about you. Do not make the mistake of simply saying you are responsible, organized, and dependable. Instead, include traits that are directly related to your work as a medical assistant, such as the ability to handle stressful situations and difficult patients, the way you kept meticulous records, and more.
