# Microsystems Engineer Job Interview Preparation Guide.

## Question # 1

Tell me a difficult situation you have overcome in the workplace?

### Answer:-

Conflict resolution, problem solving, communication and coping under pressure are transferable skills desired by many employers As Microsystems Engineer. Answering this question right can help you demonstrate all of these traits.

- \* Use real-life examples from your previous roles that you are comfortable explaining
- \* Choose an example that demonstrates the role you played in resolving the situation clearly
- \* Remain professional at all times - you need to demonstrate that you can keep a cool head and know how to communicate with people

[Read More Answers.](#)

## Question # 2

What motivates you?

### Answer:-

I've always been motivated by the challenge - in my last role, I was responsible for training our new recruits and having a 100% success rate in passing scores. I know that this job is very fast-paced and I'm more than up for the challenge. In fact, I thrive on it.

## Question # 5

Do you work well within a team?

### Answer:-

Some people are thrown when they are asked this Microsystems Engineer question when they are applying for a position to work alone. Every company works as a team, so you are a good team player, give an example of when you have worked well within a team.

[Read More Answers.](#)

## Question # 6

What are your weaknesses for Microsystems Engineer position?

**Answer:-**

Try not to be too critical when answering this question. Instead, pick one of your weaknesses and try to turn it into a positive.

For example, you could be a perfectionist, which means that you sometimes take longer on tasks, but you make sure that they are completed to a high quality. It is important to make a negative into a positive as it doesn't make you appear overly critical and shows you can reflect on your own performance.

[Read More Answers.](#)

**Question # 7**

Tell me about a time when you had to think strategically?

**Answer:-**

There was a time when I had to get rid of 20% of my people. I had to determine which persons I needed the most by determining who could do what. I had to put aside personal feelings so that I could keep a working crew to handle the same workload with less people.

[Read More Answers.](#)

**Question # 8**

What do you think about Teamwork?

**Answer:-**

I enjoy teamwork and am used to shift work. I think I would adapt well to the role. I am looking for new challenges As Microsystems Engineer and I know I would learn a lot as cabin crew, not just about people and places, but skills like first aid too, how can I help others within my limits.

[Read More Answers.](#)

**Question # 9**

Why are you leaving last job?

**Answer:-**

Although this would seem like a simple question, it can easily become tricky. You shouldn't mention salary being a factor at this point As Microsystems Engineer. If you're currently employed, your response can focus on developing and expanding your career and even yourself. If you're current employer is downsizing, remain positive and brief. If your employer fired you, prepare a solid reason. Under no circumstance should you discuss any drama or negativity, always remain positive.

[Read More Answers.](#)

**Question # 10**

Where do you see your career in five years As Microsystems Engineer?

**Answer:-**

I would like to retire from this company. I would like to make a difference in the company whether in the company or any other position or area of the company As Microsystems Engineer.

[Read More Answers.](#)

**Question # 11**

Can you tell me a little about yourself?

**Answer:-**

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Microsystems Engineer. Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

[Read More Answers.](#)

**Question # 12**

When were you most satisfied in your job As Microsystems Engineer?

**Answer:-**

I'm a people person. I was always happiest and most satisfied when I was interacting with community residents, making sure I was able to meet their needs and giving them the best possible comfort in a tough situation. It was my favorite part of the job, and it showed. Part of the reason I'm interested in this job is that I know I'd have even more interaction with the public, on an even more critical level.

[Read More Answers.](#)

**Question # 13**

What did you dislike about your old job?

**Answer:-**

Try to avoid any pin point, like never say "I did not like my manager or I did not like environment or I did not like team" Never use negative terminology. Try to keep focus on every thing was good As Microsystems Engineer, I just wanted to make change for proper growth.

[Read More Answers.](#)

**Question # 14**

Why do you want this job As Microsystems Engineer?

**Answer:-**

This question typically follows on from the previous one. Here is where your research will come in handy. You may want to say that you want to work for a company that is Global Guideline, (market leader, innovator, provides a vital service, whatever it may be). Put some thought into this beforehand, be specific, and link the

company's values and mission statement to your own goals and career plans.

[Read More Answers.](#)

### Question # 15

Can you explain why you changed career paths As Microsystems Engineer?

#### Answer:-

Don't be thrown off by this question-just take a deep breath and explain to the hiring manager why you've made the career decisions As Microsystems Engineer you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

[Read More Answers.](#)

### Question # 16

What's your management style?

#### Answer:-

The best managers are strong but flexible, and that's exactly what you want to show off in your answer. (Think something like, "While every situation and every team member requires a bit of a different strategy, I tend to approach my employee relationships as a coach...") Then, share a couple of your best managerial moments, like when you grew your team from five to 15 or coached an underperforming employee to become the company's top employee.

[Read More Answers.](#)

### Question # 17

How do you prioritize your work?

#### Answer:-

Depends on the situation... I like to label certain tasks as either A B or C...A being the one that requires immediate attention, and C which are tasks that aren't urgent but eventually need to get done... I like to focus my work As Microsystems Engineer on the things that need to get done, and done quickly... While balancing the other work alongside our first priorities.

[Read More Answers.](#)

### Question # 18

What experience do you have As Microsystems Engineer?

#### Answer:-

The employer would want to know that not only you can do the job but you can make the difference and bring significant contribution - Simple as that.

No doubt that this is your time to perform and present yourself - You have to introduce/sell yourself to the interviewer. Prepare your answer based on your qualification, professional experience and what you've already achieved in your previous jobs. This is your time to express why you think that your professional abilities fit into the job and its requirements.

Top 10 employment experience you'd want to review:

- \* Companies you worked for with dates
- \* The positions you've held
- \* Key projects and responsibilities
- \* Achievements
- \* Coursework & continues education
- \* Expertise
- \* Tools you used (software, hardware)
- \* Knowledge of languages
- \* Engagement with customers and key industry leaders
- \* Team work you were involved (and your contribution)

job As Microsystems Engineer. For example, if you found out about the gig through a friend or professional contact, name drop that person, then share why you were so excited about it. If you discovered the company through an event or article, share that. Even if you found the listing through a random job board, share what, specifically, caught your eye about the role.

[Read More Answers.](#)

### **Question # 22**

How did you handle meeting a tight deadline As Microsystems Engineer?

#### **Answer:-**

Review every deadline you need to meet. Prioritize your projects by deadline and factor in how important each project is. Record your deadlines on a digital calendar or spreadsheet.

[Read More Answers.](#)

### **Question # 23**

What did you like least about your last (or current) job As Microsystems Engineer?

#### **Answer:-**

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

[Read More Answers.](#)

### **Question # 24**

Tell me about a time you failed?

#### **Answer:-**

Everyone has failed, so don't play dumb or claim you've never messed up As Microsystems Engineer. Think of a time when a work-related situation didn't turn out quite as you had hoped. An interviewer is interested in seeing how you took responsibility for your failure, what you learned from it, and how you would prevent similar failures from happening again.

[Read More Answers.](#)

### **Question # 25**

How do you evaluate success As Microsystems Engineer?

#### **Answer:-**

I evaluate success As Microsystems Engineer in different ways. At work, it is meeting the goals set by my supervisors and my fellow workers. It is my understanding, from talking to other employees, that the Global Guideline company is recognized for not only rewarding success but giving employees opportunity to grow as well.

[Read More Answers.](#)

### **Question # 26**

Explain me about a challenge or conflict you've faced at work As Microsystems Engineer, and how you dealt with it?

#### **Answer:-**

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[Read More Answers.](#)

### **Question # 27**

What are your salary requirements As Microsystems Engineer?

#### **Answer:-**

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

### **Question # 32**

Why are you interested in this type of job As Microsystems Engineer?

#### **Answer:-**

You're looking for someone who enjoys working with the elderly, or a caring, sociable, and nurturing person.

[Read More Answers.](#)

### **Question # 33**

How do you handle conflicts with people you supervise?

#### **Answer:-**

At first place, you try to avoid conflicts if you can. But once it happens and there's no way to avoid it, you try to understand the point of view of the other person and find the solution good for everyone. But you always keep the authority of your position.

[Read More Answers.](#)

### **Question # 34**

What does success mean to you?

#### **Answer:-**

I am punctual, I always have excellent attendance on any job As Microsystems Engineer, I have a keen eye for both large and small details, and I am always finding ways to improve a process and shorten the length of time it takes to complete a project.

[Read More Answers.](#)

### **Question # 35**

If you have seven white socks and nine black socks in a drawer, how many socks do you have to pull out blindly in order to ensure that you have a matching pair?

#### **Answer:-**

if the first one is one color (say, white), and the second one is the other color (black), then the third one, no matter what the color, will make a matching pair. (Sometimes you're not supposed to think that hard.)

[Read More Answers.](#)

### **Question # 36**

How would your former employer describe you?

#### **Answer:-**

In all likelihood, the interviewer will actually speak with your former employer so honesty is key. Answer as confidently and positively as possible and list all of the positive things your past employer would recognize about you. Do not make the mistake of simply saying you are responsible, organized, and dependable. Instead, include traits that are directly related to your work as a medical assistant, such as the ability to handle stressful situations and difficult patients, the way you kept meticulous records, and more.

[Read More Answers.](#)

### **Question # 37**

What do you already know about our company?

#### **Answer:-**

Good reputation of a large home grown company that has various departments and product.

[Read More Answers.](#)

### **Question # 38**

What's a time you disagreed with a decision that was made at work?

#### **Answer:-**

Everyone disagrees with the boss from time to time, but in asking this interview question As Microsystems Engineer, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong,". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

### Question # 39

How many basketballs would fit in this room?

#### Answer:-

One. You did not ask what is the maximum number of basketballs you can fit in the room.

[Read More Answers.](#)

### Question # 40

Why should we select you not others?

#### Answer:-

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. You may say like I think I am really qualified for the position. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

[Read More Answers.](#)

### Question # 41

Why are manhole covers round?

#### Answer:-

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[Read More Answers.](#)

### Question # 42

Why do you feel you will excel at this job?

#### Answer:-

This question presents an excellent opportunity for you to discuss your education, qualifications and personal traits. You might say something like "I studied property management as well as behavior during my college years and I have two years' experience in real estate.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." This shows your interviewer that you have all of the skills necessary to become successful not only for yourself, but also for your employer.

[Read More Answers.](#)

### Question # 43

Why do you want to join our company?

#### Answer:-

This is a question that is aimed at finding out whether you know enough about the company and the basic market. The best way to answer this question is to do some research on the company and highlight its positive points.

[Read More Answers.](#)

### Question # 44

How would you estimate the weight of the Chrysler building?

#### Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

[Read More Answers.](#)

### Question # 45

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

#### Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[Read More Answers.](#)

### Question # 46

How would you be an asset to us As Microsystems Engineer?

#### Answer:-

Think again about the job specification and the skills needed for this role As Microsystems Engineer. Have a paragraph prepared highlighting how you will be able to do the job and what you can bring to the team. It goes without saying that this paragraph should be positive.

[Read More Answers.](#)

### Question # 47

What do you like to do outside of work?

#### Answer:-

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too.". In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

[Read More Answers.](#)

### Question # 48

What makes a product successful?

#### Answer:-

Basing on the monetization, these questions give you the chance to prove your personal try. Do not show extremely your optimism and pursue the unreality. Give your answers the reality.

It is useful to predict a five to ten- year- scenario of expectations in order to gain your targets that you set up and it is the period of time to see how your plans and targets are performed.

Therefore, the quality of the product and marketability of the mentioned industry need to be highlighted. This will help you to achieve the interviewer's attention and insurance to you personality and you can get the honest and long- term goals.

[Read More Answers.](#)

### Question # 49

Tell me an occasion when you needed to persuade someone to do something?

#### Answer:-

Interpersonal relationships are a very important part of being a successful care assistant. This question is seeking a solid example of how you have used powers of persuasion to achieve a positive outcome in a professional task or situation. The answer should include specific details.

[Read More Answers.](#)

### Question # 50

Do you like being around people?

#### Answer:-

People skills are a necessity for medical assistants. When answering this question, be sure to show that you enjoy interacting and working with others and that you also derive great enjoyment from helping others. This will show that you are a team player and that you would be a valuable team member As Microsystems Engineer.

[Read More Answers.](#)

### Question # 51

What are three positive things your last boss would say about you?

#### Answer:-

It's time to pull out your old performance appraisals and boss's quotes. This is a great way to brag about yourself through someone else's words:

"My boss has told me that I am the best designer he has ever had. He knows he can rely on me, and he likes my sense of humor."

[Read More Answers.](#)

### Question # 52

How do you evaluate your ability to handle conflict?

#### Answer:-

I pride myself on being a good problem solver. Through my previous job and management positions I have faced numerous conflicts in different situations, and my experiences have helped me to hone my issue resolution skills. I believe that it is important to get to and address the root of the issue, in a respectable manner.

[Read More Answers.](#)

### Question # 53

What would your first 30, 60, or 90 days look like in this role As Microsystems Engineer?

#### Answer:-

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[Read More Answers.](#)

### Question # 54

How do you handle stressful situations?

#### Answer:-

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[Read More Answers.](#)

### Question # 55

How have you changed in the last five years?

#### Answer:-

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[Read More Answers.](#)

### Question # 56

Why are you leaving your current job?

#### Answer:-

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

[Read More Answers.](#)

### Question # 57

Do you think you have enough experience As Microsystems Engineer?

#### Answer:-

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[Read More Answers.](#)

### Question # 58

Explain me about a time when you reached a goal within a tight deadline?

#### Answer:-

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

[Read More Answers.](#)

### Question # 59

Explain an occasion when you had to adapt in the face of a difficult situation?

#### Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[Read More Answers.](#)

### Question # 60

Explain an idea that you have had and have then implemented in practice?

#### Answer:-

Often an interview guide will outline the so-called 'STAR' approach for answering such questions; Structure the answer as a situation, task, action, and result: what the context was, what you needed to achieve, what you did, and what the outcome was as a result of your actions.

[Read More Answers.](#)

### Question # 61

What was the most important task you ever had?

#### Answer:-

There are two common answers to this question that do little to impress recruiters:

\* 'I got a 2.1'

\* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

[Read More Answers.](#)

### Question # 62

What kind of salary do you need As Microsystems Engineer?

**Answer:-**

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

**Question # 63**

What do you know about the company?

**Answer:-**

Any candidate can read and regurgitate the company's "About" page. So, when interviewers ask this, they aren't necessarily trying to gauge whether you understand the mission—they want to know whether you care about it. Start with one line that shows you understand the company's goals, using a couple key words and phrases from the website, but then go on to make it personal. Say, "I'm personally drawn to this mission because..." or "I really believe in this approach because..." and share a personal example or two.

**Question # 64**

Tell me something about your family background?

**Answer:-**

First, always feel proud while discussing about your family background. Just simple share the details with the things that how they influenced you to work in an airline field.

[Read More Answers.](#)

**Question # 65**

Do you like to start personal relationships with other employees?

**Answer:-**

Well, the right answer is yes and no. Good personal relations can improve the overall performance of a team. But on the other hand, you should not let your emotions to affect your decisions in work.

[Read More Answers.](#)

**Question # 66**

Explain me about your experience working in this field As Microsystems Engineer?

**Answer:-**

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

**Question # 67**

Are you planning to continue your studies and training As Microsystems Engineer?

**Answer:-**

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

[Read More Answers.](#)

**Question # 68**

Have you got any questions?

**Answer:-**

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

**Question # 69**

Do you have good computer skills?

**Answer:-**

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

### Question # 71

How do you think I rate as an interviewer?

#### Answer:-

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day.

I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.

### Question # 72

What features of your previous jobs have you disliked?

#### Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

### Question # 73

How many square feet of pizza are eaten in the United States each month?

#### Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

### Question # 75

Why should we hire you as this position As Microsystems Engineer?

#### Answer:-

This is the part where you link your skills, experience, education and your personality to the job itself. This is why you need to be utterly familiar with the job description as well as the company culture. Remember though, it's best to back them up with actual examples of say, how you are a good team player.

### Question # 76

Describe to me the position As Microsystems Engineer you're applying for?

#### Answer:-

This is a "homework" question, too, but it also gives some clues as to the perspective the person brings to the table. The best preparation you can do is to read the job description and repeat it to yourself in your own words so that you can do this smoothly at the interview.

### Question # 77

How do you plan to go by an example for your subordinates?

#### Answer:-

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.
