Minicomputer Systems Programmer Job Interview Preparation Guide.

Question # 1

What can you offer us that someone else can not?

Answer:-

Bad Answer: Going negative - if the candidate starts trash talking other candidates, it's a sure sign of a bad attitude. Also, if they can't provide a solid answer, it may show that they lack thorough knowledge of the skills the job requires, and an understanding of where they fit in.

Good answer: The candidate can name specific skills, abilities or understandings they have that apply directly to the job that other candidates are unlikely to have, or are in short supply.

[Read More Answers.](#)

Question # 2

Tell me about a decision you made recently and how you reached it As Minicomputer Systems Programmer?

Answer:-

The key is to show that you put a lot of thought (weighing out the pros and cons) but were able to be decisive. Be sure to explain your logic in arriving at the decision.

[Read More Answers.](#)

Question # 3

What three character traits would your friends use to describe you?

Answer:-

Friends would typically use attributes like (assuming you have these): Trustworthy, honest, hardworking, friendly, courageous, nice, diligent, organized and so forth. Not saying you have all of these, but the best way for you to find out is to survey your friends by asking them what they consider your brand to be.

[Read More Answers.](#)

Question # 4

Are you able to relocate if required?

Answer:-

Be completely honest and thoughtful with this one. You don't want to wake up one to find out that you're moving to a new city or state and it may be a major factor in your eligibility for employment. But again, if you don't want to move then the job probably isn't for you.

[Read More Answers.](#)

Question # 5

How would your references describe you?

Answer:-

Think of three major characteristics that demonstrate your best qualities related to work and then have quick stories to describe why.

[Read More Answers.](#)

Question # 6

Name five characteristics that describe you?

Answer:-

Here are a few you could choose from:

Hard working, strong willed, persistent, intelligent, adept, amicable, friendly, collaborative, eager, humble.

Question # 7

Minicomputer Systems Programmer Interview Questions And Answers

If you were interviewing someone for this position As Minicomputer Systems Programmer, what traits would you look for?

Answer:-

This is where the interviewer tries to turn the tables on you. Answer confidently by stating 3 specific traits that are applicable to that job role. For example, a consulting job would likely look for someone who can think outside of the box.

After answering, ask them, "Am I spot on here and if not, what traits would you look for?"

[Read More Answers.](#)

Question # 8

Tell me about a problem that you've solved in a unique or unusual way. What was the outcome? Were you happy or satisfied with it?

Answer:-

In this question the interviewer is basically looking for a real life example of how you used creativity to solve a problem.

[Read More Answers.](#)

Question # 9

Who has been an inspiration for you?

Answer:-

Cite your role models (possible examples could be your parents, people successful in the industry, world leaders, etc)

[Read More Answers.](#)

Question # 10

Are you willing to work in shifts?

Answer:-

If the job calls for shifts that vary, be ready to do that for your work. If you aren't open to that, then explain why and see if they can adjust it for you.

[Read More Answers.](#)

Question # 11

How did you hear about the position As Minicomputer Systems Programmer?

Answer:-

Another seemingly innocuous interview question, this is actually a perfect opportunity to stand out and show your passion for and connection to the company and for job As Minicomputer Systems Programmer. For example, if you found out about the gig through a friend or professional contact, name drop that person, then share why you were so excited about it. If you discovered the company through an event or article, share that. Even if you found the listing through a random job board, share what, specifically, caught your eye about the role.

[Read More Answers.](#)

Question # 12

What do you like to do?

Answer:-

Discuss your passions As Minicomputer Systems Programmer. Ideally if it's work related that's fantastic! If not, talk about your academic / extracurricular passions and WHY you enjoy them. For example: I love playing sports because of the team work aspect - it's fun winning together! (This example shows you're a team player)

Question # 13

Top 12 Best Brainteaser Interview Questions:

Answer:-

Brainteaser questions As Minicomputer Systems Programmer have become popular for interviews in recent years, as word has gotten out that top tech companies such as Apple, Google, Microsoft and IBM have used this type of question at one time or another.

Companies like Google aren't using these questions so much any more, but many companies, are, and it may be good to prepare for them As Minicomputer Systems Programmer. The key to these isn't so much getting the exact answer, as it is showing how you would come up with an answer.

Here's a sample of 12 of the best and most difficult.

1. How many street lights are there in New York City?
2. How many gas stations are there in the United States?
3. How many golf balls can fit in a school bus?
4. How much should you charge to wash all the windows in Seattle?
5. Why are manhole covers round?
6. How many times a day does a clock's hands overlap?
7. How would you test a calculator?
8. Describe the internet to someone who just woke up from a 30-year coma.
9. How much does the Starbucks in Times Square bring in, in annual revenue?
10. You are shrunk to the height of a nickel and thrown into a blender. Your mass is reduced so that your density is the same as usual. The blades start moving in 60 seconds. What do you do?
11. What is the air speed velocity of an unladen swallow? ;)
12. How many golf balls are there in Florida?

[Read More Answers.](#)

Question # 14

How did you become interested in this field/industry?

**Answer:-**

Describe how you've come to develop a passion or interest in this industry and use variables like "culture, people, vision, career development, and the work itself" to define your choice

[Read More Answers.](#)

Question # 15

Tell me about a time when you helped resolve a dispute between others?

Answer:-

Be sure to discuss a very specific example. Tell the interviewer what methods you used to solve the problem without focusing on the details of the problem.

[Read More Answers.](#)

Question # 16

The change in the business industry now requires you to have a new set of skills you have to learn, how do you react to that?

Answer:-

First, find out which skills are the ones that you're currently lacking. Then identify what the steps would be to acquire/build those skills. Then take action to do so.

[Read More Answers.](#)

Question # 17

What qualities do you look for in a boss?

Answer:-

Remain optimistic and do not be too specific. Good attributes include moral character, honesty, and intelligence since managers usually believe they possess these qualities.

[Read More Answers.](#)

Question # 18

What type of people do you not work well with?

Answer:-

Be very careful answering this question as most organization employ professionals with an array of personalities and characteristics. You don't want to give the impression that you're going to have problems working with anyone currently employed at the organization. If you through out anything trivial you're going to look like a whiner. Only disloyalty to the organization or lawbreaking should be on your list of personal characteristics of people you can't work with.

[Read More Answers.](#)

Question # 19

When were you most satisfied in your job As Minicomputer Systems Programmer?

Answer:-

I'm a people person. I was always happiest and most satisfied when I was interacting with community residents, making sure I was able to meet their needs and giving them the best possible comfort in a tough situation. It was my favorite part of the job, and it showed. Part of the reason I'm interested in this job is that I know I'd have even more interaction with the public, on an even more critical level.

[Read More Answers.](#)

Question # 20

Why do you want to leave your current company As Minicomputer Systems Programmer?

Answer:-

Bad Answer: Complaining about or blaming their former job, boss or colleagues. Also, having no good reason.

Good answer: One that focuses on the positives about why the job they're applying for offers them better learning or career opportunities, chances for advancement, aligns more closely to their long term goals, or is a better fit for them.

[Read More Answers.](#)

Question # 21

You are not given the tools you need to be successful. How would you change that As Minicomputer Systems Programmer?

Answer:-

State a business case to your manager / leader as to why you need the tools and make the request for them.

[Read More Answers.](#)

Question # 22

How do you propose to compensate for your lack of experience?

Answer:-

The first thing you should do is discuss experience you have the interviewer is unfamiliar with. Once that is detailed, tell the person conducting the interview that you are able to learn new tasks and information in a reasonable period of time and possess a strong work ethic. However, only state this if you can live up to these expectations.

[Read More Answers.](#)

Question # 26

What are your thoughts on failure?

Answer:-

Failure happens. It's a part of life. The key is understanding that you can't be perfect at everything and more importantly you're going to learn from failures to come out stronger.

[Read More Answers.](#)

Question # 27

What are some of the things that you and your supervisor disagree upon and how do you resolve them? What do you do when you are pressed for a decision?

Answer:-

The key is that you openly communicate your thoughts to your supervisor to explain your position and try to come to a mutual decision together. Also be sure to listen to his/her thoughts so that you can potentially compromise. When you're pressed for a decision, make sure you've put thought into the reasons as to how you arrived at it and then decisively make it.

[Read More Answers.](#)

Question # 28

How do you deal with pressure or stressful situations?

Answer:-

Choose an answer that shows that you can meet a stressful situation head-on in a productive, positive manner and let nothing stop you from accomplishing your goals. A great approach is to talk through your go-to stress-reduction tactics (making the world's greatest to-do list, stopping to take 10 deep breaths), and then share an example of a stressful situation you navigated with ease.

[Read More Answers.](#)

Question # 29

Describe to me a time where you had to make a hard decision As Minicomputer Systems Programmer?

Answer:-

Hard decisions are hard for a reason. It could dramatically effect the company. It could affect other workers. So if you have a story about how you made a hard decision and had a good outcome, share that. If you have one where the outcome wasn't great, explain how you would have changed the way you approached the decision to show you learned how to improve.

[Read More Answers.](#)

Question # 30

How would you describe your approach to Minicomputer Systems Programmer?

Answer:-

In more general terms, a question such as this gives a candidate the opportunity to talk about their professional philosophy and skills. While the question is general in nature, the best answers are usually quite specific, picking one or two points and exemplifying them with instances from personal history.

[Read More Answers.](#)

Question # 31

Tell me about a time when you were held accountable for a problem that you hadn't caused?

Answer:-

If someone puts the blame on you (incorrectly), the best thing you can do is NOT to retaliate. You want to make it known that you were not to blame (explain all the facts) and then focus on fixing the problem in the best way possible.

[Read More Answers.](#)

Question # 32

How meticulous are you with details?

Answer:-

Being detailed is important for many types of job roles. Typically you want to highlight how you've done that in previous roles. Example: "Being meticulous is important to me. In my last job, I had to count the money in the register as a cashier to make sure it matched to the receipts down to the last penny." This was to ensure there wasn't any "wrongdoing" at the company by any of the cashiers and I was always accurate in my reports.

[Read More Answers.](#)

Question # 33

Describe what a bad work environment would look like to you As Minicomputer Systems Programmer?

Answer:-

There could be a multitude of things to discuss here: Business ethics (wrongdoing), inconsiderate teammates, non-supportive management, a product that does not do what you're promising customers and so forth.

[Read More Answers.](#)

Question # 34

What skills do you bring to the table?

Answer:-

Think of your skill sets with regards to: analytical skills, interpersonal skills, communication skills, computer skills, presentation skills, management skills, sales skills and so forth.

[Read More Answers.](#)

Question # 35

Why are you interested in this type of job As Minicomputer Systems Programmer?

Answer:-

You're looking for someone who enjoys working with the elderly, or a caring, sociable, and nurturing person.

[Read More Answers.](#)

Question # 36

What type of personalities do you work best with and why?

Answer:-

Think of which personalities you work best with (do you like outgoing, collaborative, personable working relationships and so forth?)

[Read More Answers.](#)

Question # 37

Do you value recognition or pay more? Why?

Answer:-

Either preference is fine, but just remember you have to be able to explain why. If you say recognition, then back that up by describing how achievement really carries weight with you and how you like to feel valued in the work that you do because it validates that you're helping your teammates / customers and so forth. If you choose money, you can also explain that is important to you as validation and you can highlight how money is important to you because of your goals (financial security, providing for your family, and so forth). The key is to be authentic with your answer. However, if you say you value pay more because you're greedy - know that doesn't align usually to most company's values/vision.

[Read More Answers.](#)

Question # 38

What have you done to reduce costs, increase revenue, or save time?

Answer:-

Even if your only experience is an internship, you have likely created or streamlined a process that has contributed to the earning potential or efficiency of the practice. Choose at least one suitable example and explain how you got the idea, how you implemented the plan, and the benefits to the practice.

[Read More Answers.](#)

Question # 39

What makes a product successful?

Answer:-

Basing on the monetization, these questions give you the chance to prove your personal try. Do not show extremely your optimism and pursue the unreality. Give your answers the reality.

It is useful to predict a five to ten- year- scenario of expectations in order to gain your targets that you set up and it is the period of time to see how your plans and targets are performed.

Therefore, the quality of the product and marketability of the mentioned industry need to be highlighted. This will help you to achieve the interviewer's attention and insurance to you personality and you can get the honest and long- term goals.

[Read More Answers.](#)

Question # 40

If you could offer suggestions on how to improve our company, what would you say?

Answer:-

Examine the trends of the company and also where there may be some weaknesses (news articles often document this on public companies or look at their competitors to see how they're positioning it against them.) Then, once you have that knowledge, think creatively on how you could improve upon that weakness for them.

[Read More Answers.](#)

Question # 41

Can you perform Internet research? Please describe to me your steps in doing so?

Answer:-

Internet research can entail Google searches, industry sites, news articles, social networks and company websites.

[Read More Answers.](#)

Question # 42

What do you like to do outside of work?

Answer:-

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too." In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

[Read More Answers.](#)

Question # 43

How did you find out about this job As Minicomputer Systems Programmer? What do you know about the job?

Answer:-

Possible ways to find out about the job:

Online website listing, friend, professional referral, mentor, career fairs, networking events. You should know about the roles and responsibilities of the job and what they're looking for. Make sure you read up on that online beforehand or ask the person that referred you.

[Read More Answers.](#)

Question # 44

What is your ideal working environment?

Answer:-

Describe your ideal working environment. Do you like flexibility with work hours? Do you like working in a cubicle or independently? Do you like to be micro managed or empowered? Do you like to work on your own or in a team? Do you like being driven by metrics in your role? How much responsibility do you want?

[Read More Answers.](#)

Question # 45

Tell me about the last time you missed a goal or deadline?

Answer:-

Unless you're a completely perfect person, chances are you've messed up before on a goal/deadline. If so, discuss how you fell short and what you would have done in retrospect to achieve it.

[Read More Answers.](#)

Question # 46

How important is the vision of the company to you?

Answer:-

It should be very important if you want a long standing career. Remember, you're investing your time, energy and earnings potential into a company so you want to make sure it's a sustainably successful company that will grow with you over the long haul.

[Read More Answers.](#)

Question # 47

How do you stay up to date with industry?

Answer:-

Discuss how you stay up to date by reading industry specific sites, magazines, and Google / yahoo news. Also make sure you stay up to date by reading the current news on the company's website.

[Read More Answers.](#)

Question # 48

What are your presentation skills like As Minicomputer Systems Programmer?

Answer:-

Make sure you share a story that demonstrates your presentation skills in front of many people. If you are really brave, offer to give a snippet of that presentation to the interviewer. This will definitely be different from what most people do.

[Read More Answers.](#)

Question # 49

How have you changed in the last five years?

Answer:-

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[Read More Answers.](#)

Question # 50

Explain me about your experience working in this field As Minicomputer Systems Programmer?

Answer:-

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

Question # 51

What kind of salary do you need As Minicomputer Systems Programmer?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

Question # 52

If I were to give you this salary you requested but let you write your job description for the next year, what would it say?

Answer:-

It should say the same thing - after all - if you think this salary is fair then it should suit the responsibilities!

[Read More Answers.](#)

Question # 53

What aspect of supervision do you find the most difficult?

Answer:-

Managing different personalities and keeping them focused on the goal at hand.

[Read More Answers.](#)

Question # 54

How do you keep each member of the team involved and motivated?

Answer:-

Many managers mistakenly think that money is the prime motivator for their employees. However, according to surveys by several different companies, money is consistently ranked five or lower by most employees. So if money is not the best way to motivate your team, what is?

Employees' three most important issues according to employees are:

- * Respect
- * A sense of accomplishment
- * Recognition

[Read More Answers.](#)

Question # 55

How do you plan to go by an example for your subordinates?

Answer:-

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.

[Read More Answers.](#)

Question # 56

What does "thinking outside the box" mean to you?

Answer:-

It means not doing things exactly the same way as everyone else. You've got to challenge the status quo and bring something new to the business.

[Read More Answers.](#)

Question # 57

Do you think you have enough experience As Minicomputer Systems Programmer?

Answer:-

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[Read More Answers.](#)

Question # 58

How would your friends describe you?

Answer:-

My friends would probably say that I'm extremely persistent - I've never been afraid to keep going back until I get what I want. When I worked as a program developer, recruiting keynote speakers for a major tech conference, I got one rejection after another - this was just the nature of the job. But I really wanted the big players - so I wouldn't take no for an answer. I kept going back to them every time there was a new company on board, or some new value proposition. Eventually, many of them actually said "yes" - the program turned out to be so great that we doubled our attendees from the year before. A lot of people might have given up after the first rejection, but it's just not in my nature. If I know something is possible, I have to keep trying until I get it.

[Read More Answers.](#)

Question # 59

Rate yourself on a scale of 10?

Answer:-

If you truly believe you're a 10, you better be able to explain why with examples / stories. If you believe you're a great contributor and have room to grow, say 8 or 9. If you're below that, explain what you would do to improve yourself to get the ranking you believe you can be.

[Read More Answers.](#)

Question # 60

Describe a typical work week for this position As Minicomputer Systems Programmer?

Answer:-

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position As Minicomputer Systems Programmer you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[Read More Answers.](#)

Question # 61

Why do you want to work As Minicomputer Systems Programmer for this organisation?

Answer:-

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

[Read More Answers.](#)

Question # 62

If you had to choose one, would you consider yourself a big-picture person or a detail-oriented person?

Answer:-

Both are important. You need to stress that. However, if you could only choose one, ask yourself As Minicomputer Systems Programmer - do you like to be "in the weeds" with your work, or do you want to be the one painting the vision?

[Read More Answers.](#)

Question # 63

How do you think I rate as an interviewer?

Answer:-

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day. I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.

[Read More Answers.](#)

Question # 64

Give me an example of when you competed hard and won?

Answer:-

You can reference many different areas here when discussing a story of where you won in competition: Work experience (ideal), sports, clubs, classes, projects.

[Read More Answers.](#)

Question # 65

How good are you at problem solving?

Answer:-

Describe the problem first and then discuss how you were able to fix it.

[Read More Answers.](#)

**Question # 66**

What would you do if our competitor offered you a position As Minicomputer Systems Programmer?

Answer:-

I would weigh the offer and consider it, however, this company and this role is my first choice.

[Read More Answers.](#)

Question # 67

How long will it take for you to make a significant contribution?

Answer:-

First define significant contribution - once you do that - lay out a timeline plan in which you think you can achieve that.

[Read More Answers.](#)

Question # 68

How do you ensure all of your work gets accomplished in a productive manner?

Answer:-

The key is to prioritize what's important in your work and to stay organized to accomplish the tasks. A strong work ethic also helps.

[Read More Answers.](#)

Question # 69

What features of your previous jobs have you disliked?

Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

[Read More Answers.](#)

Question # 70

What would your first 30, 60, or 90 days look like in this role As Minicomputer Systems Programmer?

Answer:-

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[Read More Answers.](#)

Question # 71

Do you have good computer skills?

Answer:-

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[Read More Answers.](#)

Question # 72

What would you like to have accomplished by the end of your career?

Answer:-

Think of 3 major achievements that you'd like to accomplish in your job when all is said and done - and think BIG. You want to show you expect to be a major contributor at the company. It could be creating a revolutionary new product, it could be implementing a new effective way of marketing, etc.
