Question # 5

What is a bodyguard?

Answer:-

A bodyguard is a human shield for the person they work for - it might be a rock star, the president, a banker. It can be dangerous and you may have to put your life on the line but the pay is very rewarding.

[Read More Answers.](#)

Question # 6

What is an armored car guard?

Answer:-

These are the people you see coming out of banks, loading the ATM machines, and moving cash from place to place. It is a dangerous job and they are easily identifiable and highly targetable. So needless to say, they just might be a little quick on the draw finger.

Question # 7

How is construction laborer's job dangerous?

Answer:-

Many accidents happen at construction sites. Workers often do their jobs under giant steel beams or on the uneven surfaces high above the ground. The most common cause of death among construction workers is falling. Explosions, electric shocks, loud noises, high and low temperature, solvents, smoke, asbestos and incorrect lighting can also be dangerous to construction workers.

Question # 8

What is a land mine remover?

Answer:-

De-mining, or mine clearance, is the process of removing land or sea mines from an area. Since manual mine clearance is much more effective than any automated method, human workers are still used to do the dangerous work of deactivating the world's land mines.

Question # 9

What are fishermen?

Answer:-

Working in the fishing industry is one of the most dangerous jobs in the world. Fishermen have to work long hours every day, sometimes in darkness, without time for breaks. The heavy equipment used to catch fish is rife with potential for accidents. And though GPS technology helps to direct fishing boats, but in bad weather conditions and fatal accidents still happen.

[Read More Answers.](#)

Question # 10

What is a lumberjack?

Answer:-

The slopes of the mountains on which most logging is done make lumberjack work quite dangerous. Carrying heavy equipment up steep terrain with a slope of 70-80 degrees often leads to accidents, especially in extreme weather. There is also a very real danger of being injured by a falling tree.

Question # 11

What is a target girl?

Answer:-

A target girl is a female assistant in circus performances such as knife throwing, archery or sharpshooting. The assistant stands in front of a target board or is strapped to a moving board while an impaleant artist throws knives or shoots projectiles so as to hit the board but miss the assistant. The potential for injury or death is part of the visual thrill for the audience.

Question # 12

What is a mine worker?

Answer:-

Working in a mine is undoubtedly a tough job. This job requires working outdoors, usually underground, for long periods of time. Workers are often exposed to large amounts of silica dust causing silicosis, which leads to inflammation and nodular lesions in the lungs. There are also the much-covered instances in which miners are killed in mine collapses, blasts, fires or landslides.

Most Dangerous Jobs Interview Questions And Answers

Question # 13

What is a helicopter cable worker?

Answer:-

Helicopter cable workers are those surreal-looking workers who fix various cables and power lines from a helicopter. The special conductive clothing these linemen wear allows them to work on high-voltage transmission lines with their bare hands.

[Read More Answers.](#)

Question # 14

What is a lion tamer?

Answer:-

Taming lions sounds an interesting job, but it is actually very dangerous due to the obvious risks of toying with the powerful instinctive carnivores.

[Read More Answers.](#)

Question # 15

What is a skyscraper window glass cleaner?

Answer:-

You need tremendous courage to be a skyscraper window glass cleaner. If you suffer from acrophobia, forget this job. Glass cleaners are suspended on a narrow sill a few hundred feet above street-level - not a task for the faint of heart.

[Read More Answers.](#)

Question # 16

What are logging workers?

Answer:-

Danger abounds when you spend most of your days outside with heavy machinery, frequently bad weather and occasional high attitudes.

[Read More Answers.](#)

Question # 17

What are aircraft pilots and flight engineers?

Answer:-

Though pilots are often financially compensated for inherent dangers and responsibility of their jobs, no amount of money can change the fact that it is a long way down.

[Read More Answers.](#)

Question # 18

What is an alligator wrestler?

Answer:-

Wrestling an alligator is a dangerous but exciting activity. To win an alligator-wrestling competition, wrestlers must place their heads between the jaws of real alligators there for a set period of time, an activity with obvious dangers.

[Read More Answers.](#)

Question # 19

Tell me what are the roofers?

Answer:-

It does not take a history in roofing to know the biggest danger is not the sunburn or a hammered finger. Falls are the leading culprit in fatal injuries, while other non fatal injuries such as fractures make general construction work among the most injury pron jobs.

[Read More Answers.](#)

Question # 20

What are helpers and construction trades?

Answer:-
