Networking Systems Distributed Systems Engineer Job Interview Preparation Guide.

Question # 1

Tell me about a time when you successfully handled a situation?

Answer:-

For this question, the interviewer wants to know what you do in a situation that doesn't have a clear answer. This will help the interviewer know how you respond to unforeseen challenges.

[Read More Answers.](#)

Question # 2

Why do you want this job As Networking Systems Distributed Systems Engineer?

Answer:-

This question typically follows on from the previous one. Here is where your research will come in handy. You may want to say that you want to work for a company that is Global Guideline, (market leader, innovator, provides a vital service, whatever it may be). Put some thought into this beforehand, be specific, and link the company's values and mission statement to your own goals and career plans.

[Read More Answers.](#)

Question # 3

Give me a specific example of a time when you had to conform to a policy with which you did not agree?

Answer:-

You want to first understand why the policy was put into effect. From there, if you truly disagree with it, explain your position to your management. If they don't change it, then you must accept their decision and continue to work or the alternative decision would be to find a new job.

[Read More Answers.](#)

Question # 4

Did you consider yourself a team player?

Answer:-

Of course you're a team player - who isn't. But a simple yes probably isn't the response the interviewer is looking for. Be ready to provide specific example of how you've worked as part of a cohesive team to get things accomplished and how you've focus on team performance rather than individual performance. Make sure not to brag as this will make it appear as that you're more concerned about your own performance and accomplishments than those of the team.

[Read More Answers.](#)

Question # 5

What type of salary are you looking for?

Answer:-

This can be a very tricky question as the individual asking it is probably digging for something other than a simple answer to the question. We recommend that you don't immediately respond to the question directly. Instead, say something like, "That a difficult question. What is range for this position?" More often than not the interviewer will tell you. If the interviewer insists on direct answer you may want say that it depends on the details of the job - then give a wide salary range.

Networking Systems Distributed Systems Engineer Interview Questions And Answers

Question # 7

You notice there are too many non productive internal meetings being held, what do you do?

Answer:-

Reach out to your boss and let him know that first you value his leadership and organization but that you are being overwhelmed with the amount of non productive internal meetings.

[Read More Answers.](#)

Question # 8

Can you tell me a little about yourself?

Answer:-

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Networking Systems Distributed Systems Engineer. Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

Question # 9

Top 12 Best Brainteaser Interview Questions:

Answer:-

Brainteaser questions As Networking Systems Distributed Systems Engineer have become popular for interviews in recent years, as word has gotten out that top tech companies such as Apple, Google, Microsoft and IBM have used this type of question at one time or another.

Companies like Google aren't using these questions so much any more, but many companies, are, and it may be good to prepare for them As Networking Systems Distributed Systems Engineer. The key to these isn't so much getting the exact answer, as it is showing how you would come up with an answer.

Here's a sample of 12 of the best and most difficult.

1. How many street lights are there in New York City?
2. How many gas stations are there in the United States?
3. How many golf balls can fit in a school bus?
4. How much should you charge to wash all the windows in Seattle?
5. Why are manhole covers round?
6. How many times a day does a clock's hands overlap?
7. How would you test a calculator?
8. Describe the internet to someone who just woke up from a 30-year coma.
9. How much does the Starbucks in Times Square bring in, in annual revenue?
10. You are shrunk to the height of a nickel and thrown into a blender. Your mass is reduced so that your density is the same as usual. The blades start moving in 60 seconds. What do you do?
11. What is the air speed velocity of an unladen swallow? ;)
12. How many golf balls are there in Florida?

[Read More Answers.](#)

Question # 10

What do you consider to be your greatest strength?

Answer:-

There isn't any right answer. Just make sure to make your response positive and true. A few good examples include: Your ability to solve complex problems, Your ability to work well on a team, Your ability to shine under pressure, Your ability to focus in chaotic situations, Your ability to prioritize and organize, Your ability to cut through the fluff to identify the real issues, Your ability to influence other positively. If your strength relates to the position in question that will be more beneficial - but again be honest, don't create a strength for yourself just because you think it will sound good.

Question # 17

What do you know about our company?

Answer:-

You always want to make sure that you're pretty familiar with the company that you're interviewing with. Nothing looks worse than a candidate who knows nothing about the company they say they're interested in working for. Find out everything you can about the company, its culture and its goals. You will also want to know how the company is positioned in its market as well as who its major competitors are.

[Read More Answers.](#)

Question # 18

Tell me about yourself?

Answer:-

There are some questions that your potential employer aren't allowed to ask (but trust me, they probably want to). For instance, they shouldn't really ask about your family or how far away you live from your potential place of employment. If you can find a way to answer these questions anyway (with the answers they want to hear), that will give them a little added info to help them make the (right) decision!

[Read More Answers.](#)

Question # 19

What are your weaknesses for Networking Systems Distributed Systems Engineer position?

Answer:-

Try not to be too critical when answering this question. Instead, pick one of your weaknesses and try to turn it into a positive.

For example, you could be a perfectionist, which means that you sometimes take longer on tasks, but you make sure that they are completed to a high quality. It is important to make a negative into a positive as it doesn't make you appear overly critical and shows you can reflect on your own performance.

Question # 21

Describe a time when you put your needs aside to help a co-worker understand a task. How did you assist them? What was the result?

Answer:-

Networking Systems Distributed Systems Engineer Interview Questions And Answers

The key is to show that the mentoring of a co-worker was first a higher priority than the task you had at hand (remember, you want to show that you focus on highest priority tasks first). Then, describe in detail how you helped them not only complete the task but learn to do it on their own. You want to teach them HOW to fish and not to simply fish for them.

[Read More Answers.](#)

Question # 22

What do you consider ethical spending on an expense account?

Answer:-

It depends on the role - but the better way to answer this is to ask the interviewer what their expectations are with regards to what the role can expense and then simply state that you'll stay within those parameters

[Read More Answers.](#)

Question # 23

Tell us about a typical day at work. How does it start? What do you do?

Answer:-

At the beginning of each day, I inspect the work site to make sure that it is hazard-free. Once the work site is secured, I verify that all tools and equipment are adequate in supply. As soon as the work orders are delivered, I provide workers with security guidelines and carry out drills. During the workday, it is my duty to monitor workers to ensure that they are working according to the enforced safety policies and that any problems or accidents are quickly addressed.

How do you feel about giving back to the community?

Answer:-

Describe your charitable activities to showcase that community work is important to you. If you haven't done one yet, go to www.globalguideline.com - charitable work is a great way to learn about other people and it's an important part of society - GET INVOLVED!

[Read More Answers.](#)

Question # 27

Why do you want to work in this industry As Networking Systems Distributed Systems Engineer?

Answer:-

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

[Read More Answers.](#)

Question # 28

Why are you leaving the present company?

Answer:-

According to me we can not grow in the field without taking more responsibilities and risks and also we can't enhance our team leading capabilities, managerial skills without expose to wide range of people.

[Read More Answers.](#)

Question # 29

Why were you fired?

Answer:-

OK, if you get the admittedly much tougher follow-up question as to why you were let go (and the truth isn't exactly pretty), your best bet is to be honest (the job-seeking world is small, after all). But it doesn't have to be a deal-breaker. Share how you've grown and how you approach your job and life now as a result. If you can position the learning experience as an advantage for this next job, even better.

[Read More Answers.](#)

Question # 30

What role do you see technology playing in this role?

Answer:-

Technology is important to almost every job today but it's not meant to be abused. I believe it's important to increase productivity and not for personal use.

[Read More Answers.](#)

Question # 31

What differentiates you from the competition?

Answer:-

Think about what you bring to the table that you truly believe is unique - the easiest way to do is to think of your own personal stories that demonstrate your work ethic, skills, and dedication. Most people have some or all of those skills, but the unique stories are what make people stand out in interviews.

[Read More Answers.](#)

Question # 32

Did the salary we offer attract you to this job?

Answer:-

The interviewer could be asking you this question for a number of reasons. Obviously, the salary is an important factor to your interest in this job, but it should not be the overriding reason for your interest. A good answer to this question is, "The salary was very attractive, but the job itself is what was most attractive to me."

[Read More Answers.](#)

Question # 33

What do you know about our competition?

Answer:-

Make sure you do your research on their competitors. You can find this by going to yahoo finance and click on their competitors (if they are public). From there research the news on them and go to their websites to understand their positioning on solutions and vision. You can also research local regional companies that are their competition (if it's a smaller private company on a regional scale) by simply typing in similar product offerings in the Google search followed by the city. Make sure you know their competitor's vision, products, culture, and how they are differentiated against their competition (and if they're not, how they could be)

[Read More Answers.](#)

Question # 34

How would you estimate the weight of the Chrysler building?

Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

Question # 42

What classes did you enjoy most in college and why?

Answer:-

Think back to the classes that either resonated with your passion or truly helped you to develop skills that you believe will help you in your career. Talk about those.

[Read More Answers.](#)

Question # 43

What does success mean to you?

Answer:-

I am punctual, I always have excellent attendance on any job As Networking Systems Distributed Systems Engineer, I have a keen eye for both large and small details, and I am always finding ways to improve a process and shorten the length of time it takes to complete a project.

[Read More Answers.](#)

Question # 44

What are you passionate about?

Answer:-

Ask yourself - what are your core passions that you wake up excited to act on each and every day? Ask yourself what makes you happy or drives you - is it helping others? Is it making money? Is it creating something? Is it about changing the world? Etc.

[Read More Answers.](#)

Question # 45

Describe your work style?

Answer:-

Describe the positive aspects of your work style if possible, including: work ethic, attention to detail, interpersonal skills, skill sets (analytical or otherwise), leadership abilities, communication skills.

[Read More Answers.](#)

Question # 46

Do you value recognition or pay more? Why?

Answer:-

Either preference is fine, but just remember you have to be able to explain why. If you say recognition, then back that up by describing how achievement really carries weight with you and how you like to feel valued in the work that you do because it validates that you're helping your teammates / customers and so forth. If

Networking Systems Distributed Systems Engineer Interview Questions And Answers

you choose money, you can also explain that is important to you as validation and you can highlight how money is important to you because of your goals (financial security, providing for your family, and so forth). The key is to be authentic with your answer. However, if you say you value pay more because you're greedy - know that doesn't align usually to most company's values/vision.

[Read More Answers.](#)

Question # 47

How do you imagine a typical day of an employee in our company As Networking Systems Distributed Systems Engineer?

Answer:-

Just do not say that you imagine to only walk and watch what people do. Rather try to show them your attention to details and proactive attitude to job. Mention that you would try to observe the problems, weaknesses as well as opportunities to improve the results and take measures according to it.

[Read More Answers.](#)

Question # 48

Explain me about a challenge or conflict you've faced at work As Networking Systems Distributed Systems Engineer, and how you dealt with it?

Answer:-

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[Read More Answers.](#)

Question # 49

What skills do you bring to the table?

Answer:-

Think of your skill sets with regards to: analytical skills, interpersonal skills, communication skills, computer skills, presentation skills, management skills, sales skills and so forth.

[Read More Answers.](#)

Question # 50

If you could offer suggestions on how to improve our company, what would you say?

Answer:-

Examine the trends of the company and also where there may be some weaknesses (news articles often document this on public companies or look at their competitors to see how they're positioning it against them.) Then, once you have that knowledge, think creatively on how you could improve upon that weakness for them.

[Read More Answers.](#)

Question # 51

Do you have any questions for me?

Answer:-

Good interview questions to ask interviewers at the end of the job interview include questions on the company growth or expansion, questions on personal development and training and questions on company values, staff retention and company achievements.

[Read More Answers.](#)

Question # 52

Explain me about your experience working in this field As Networking Systems Distributed Systems Engineer?

Answer:-

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

Question # 53

What features of your previous jobs have you disliked?

Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

[Read More Answers.](#)

Question # 54

What is your greatest weakness As Networking Systems Distributed Systems Engineer? What are you doing to improve it?

Answer:-

I believe my biggest weakness As Networking Systems Distributed Systems Engineer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

[Read More Answers.](#)

Question # 55

What type of work environment do you prefer?

Answer:-

Ideally one that's similar to the environment of the company you're applying to. Be specific.

[Read More Answers.](#)

Question # 56

What problems have you encountered at work?

Answer:-

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

[Read More Answers.](#)

Question # 57

What do you think we could do better or differently?

Answer:-

This is a common one at startups. Hiring managers want to know that you not only have some background on the company, but that you're able to think critically about it and come to the table with new ideas. So, come with new ideas! What new features would you love to see? How could the company increase conversions? How could customer service be improved? You don't need to have the company's four-year strategy figured out, but do share your thoughts, and more importantly, show how your interests and expertise would lend themselves to the job.

[Read More Answers.](#)

Question # 58

Do you have good computer skills?

Answer:-

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[Read More Answers.](#)

Question # 59

What's a time you exercised leadership?

Answer:-

Depending on what's more important for the role, you'll want to choose an example that showcases your project management skills (spearheading a project from end to end, juggling multiple moving parts) or one that shows your ability to confidently and effectively rally a team. And remember: "The best stories include enough detail to be believable and memorable." Show how you were a leader in this situation and how it represents your overall leadership experience and potential.

[Read More Answers.](#)

Question # 60

How good are you at problem solving?

Answer:-

Describe the problem first and then discuss how you were able to fix it.

[Read More Answers.](#)

Question # 61

Explain me about a time when you reached a goal within a tight deadline?

Answer:-

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

[Read More Answers.](#)

Question # 62

What's the least rewarding work you've ever done and why?

Answer:-

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

[Read More Answers.](#)

Question # 63

Describe a typical work week for this position As Networking Systems Distributed Systems Engineer?

Answer:-

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position As Networking Systems Distributed Systems Engineer you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[Read More Answers.](#)

Question # 64

What was the most important task you ever had?

Answer:-

There are two common answers to this question that do little to impress recruiters:

* 'I got a 2.1'

* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

[Read More Answers.](#)

Question # 65

Do you like to start personal relationships with other employees?

Answer:-

Well, the right answer is yes and no. Good personal relations can improve the overall performance of a team. But on the other hand, you should not let your emotions to affect your decisions in work.

[Read More Answers.](#)

Question # 66

What kind of salary do you need As Networking Systems Distributed Systems Engineer?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

Question # 67

Why are you leaving your current job?

Answer:-

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

[Read More Answers.](#)

Question # 68

Give me an example of when you competed hard and won?

Answer:-

You can reference many different areas here when discussing a story of where you won in competition: Work experience (ideal), sports, clubs, classes, projects.

[Read More Answers.](#)

Question # 69

How do you handle stressful situations?

Answer:-

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[Read More Answers.](#)

Question # 70

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.
