Question # 4

What is sdlc?

Answer:-

SDLC means,
 Software Development Life Cycle, also known as "System
Design Life Cycle".
 Software development life cycle for any project or
application is usually build or passed through some
sequential process which are termed as software development
life cycle.

Question # 5

What is the purpose of SDLC?

Answer:-

Its purpose is very clear from its name itself i.e. System
Dvelopment Life Cycle. It consists of all the phases of a
s/w development. I can say that SDLC is the backbone of any
s/w development. If we want to develop an ideal s/w we must
follow any SDLC model. Without uisng any SDLC I think we
can not imagine the development of any S/W.

Question # 6
