# Nuclear Equipment Design Engineer Job Interview Preparation Guide.

#### Question #1

What do you do in your spare time?

#### Answer:-

If you want to show your fun side, discuss your extracurricular activities. If you want to show your ambition, discuss the work / school projects you do in your spare time.

Read More Answers.

#### Question # 2

How do you adapt to new working environments As Nuclear Equipment Design Engineer?

#### Answer:-

It's important that you demonstrate that you can adapt to changing environments quickly. You want to stress that you can manage change. The one thing in life that is constant after all, is change.

# Question #3

What are the goals you've set for yourself?

## Answer:

You could discuss your goals with regards to these categories: Career goals, impact you want to leave on society, financial goals, academic goals, charitable goals.

Read More Answers.

# Question # 4

How do you rate yourself in computer skills? Please describe the programs and software that you can use well?

## Answer:

Ideally you want to able to type quickly, have the ability to effectively use Microsoft Office, and more importantly be able to quickly adapt to computer / technology skills. More and more it's become an integral part of work. If the job doesn't require technology skills - then this question shouldn't be asked!

Read More Answers.

# Question # 5

Tell me about yourself?

# Answer:-

There are some questions that your potential employer aren't allowed to ask (but trust me, they probably want to). For instance, they shouldn't really ask about your family or how far away you live from your potential place of employment. If you can find a way to answer these questions anyway (with the answers they want to hear), that will give them a little added info to help them make the (right) decision!

# Question # 6

If you had enough money to retire would you?

## Answer:

Just be honest. If you would retire then say so. But since you can't retire, and the interviewer already knows this, simply answer that since you can't this is type of work you prefer doing. However, if you wouldn't retire if you had the money then explain why. Work is an important element of happiness for most people and many won't retire even when they can.

#### Question #7

How do you evaluate success As Nuclear Equipment Design Engineer?

#### Answer-

I evaluate success As Nuclear Equipment Design Engineer in different ways. At work, it is meeting the goals set by my supervisors and my fellow workers. It is my understanding, from talking to other employees, that the Global Guideline company is recognized for not only rewarding success but giving employees opportunity to grow as well.

## Question #8

What relevant work experience do you have in this career field As Nuclear Equipment Design Engineer?

#### Answer:-

Talk about specific work related experience for the position you're interviewing for. Make sure the experience is relevant. Don't talk about previous experience that is not related to the position in question. If you don't have specific career related experience speak about prior experience that has helped you develop the specific knowledge and skills required for the position you are applying for.

## Question #9

How would your boss and co-workers describe you?

#### Answer:-

First of all, be honest (remember, if you get this job, the hiring manager will be calling your former bosses and co-workers!). Then, try to pull out strengths and traits you haven't discussed in other aspects of the interview As Nuclear Equipment Design Engineer, such as your strong work ethic or your willingness to pitch in on other projects when needed.

Read More Answers.

#### Question # 10

Tell us something about yourself?

#### Answer:-

Bad Answer: Candidates who ramble on about themselves without regard for information that will actually help the interviewer make a decision, or candidates who actually provide information showing they are unfit for the job.

Good answer: An answer that gives the interviewer a glimpse of the candidate's personality, without veering away from providing information that relates to the job. Answers should be positive, and not generic.

Read More Answers.

# Question # 11

What did you like least about your last (or current) job As Nuclear Equipment Design Engineer?

## Answer:

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

## Question # 27

What's been your biggest success to date?

#### Answer:-

Talk about a story / experience about how you achieved success and be sure to share details on the results and outcome. Have it highlight a strong characteristic such as leadership, work ethic and so forth.

Read More Answers.

#### Question # 28

Have you ever been fired and if yes, why?

#### Answer-

Answer this as positively as possible and try to avoid disparaging the company you had previously worked for. The key is to accept the fact that yes, you were fired, but you've learned from the mistakes that got you there and you're better now because of it. If you haven't been fired, well, then this question's a piece of cake isn't it?

# Question # 29

How will you approach learning this "new" job As Nuclear Equipment Design Engineer?

## Answer:

Interview peers and leaders/managers, read industry news, practice the skill sets needed, absorb information on the job as much as possible.

Read More Answers.

## Question # 30

What are your thoughts on failure?

## Anewor:

Failure happens. It's a part of life. The key is understanding that you can't be perfect at everything and more importantly you're going to learn from failures to come out stronger.

Read More Answers.

# Question # 31

What do you know about our competition?

## Answer:-

Make sure you do your research on their competitors. You can find this by going to yahoo finance and click on their competitors (if they are public). From there research the news on them and go to their websites to understand their positioning on solutions and vision. You can also research local regional companies that are their competition (if it's a smaller private company on a regional scale) by simply typing in similar product offerings in the Google search followed by the city. Make sure you know their competitor's vision, products, culture, and how they are differentiated against their competition (and if they're not, how they could be)

## Question # 41

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

## Answer:-

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

Read More Answers.

# Question # 42

What are you most proud of?

## Answer:-

You should be proud of all your achievements As Nuclear Equipment Design Engineer! We just don't have time to hear them all as interviewers most likely. Focus on 1 really good achievement that showcases characteristics like the following: Integrity, competitiveness, resourcefulness, intelligence, persistence, and so forth.

#### Read More Answers.

#### Question # 43

How would you feel about working for someone who knows less than you As Nuclear Equipment Design Engineer?

#### Answer-

The reality is, the majority of the time someone is in a management/leadership position is because of their experience and past success. So they probably possess at least a unique set of knowledge from you. So you'll want to learn from them as much as possible. If it's not the case, then discuss how you would look for mentors in different departments to help your personal career development.

Read More Answers.

#### Question # 44

How open are you to relocation?

#### Answer.

If you're not, then say you're not. Don't lie about it just to get the job. There's no point if you won't move for the job anyway and lying is unethical. If you are open to relocation As Nuclear Equipment Design Engineer, let them know which areas you'd be willing to relocate to.

Read More Answers

#### Question # 45

How did you find out about this job As Nuclear Equipment Design Engineer? What do you know about the job?

#### Answer:-

Possible ways to find out about the job:

Online website listing, friend, professional referral, mentor, career fairs, networking events. You should know about the roles and responsibilities of the job and what they're looking for. Make sure you read up on that online beforehand or ask the person that referred you.

Read More Answers.

#### Question # 46

Have you ever mentored anyone before? If yes, describe the situation?

#### Answer:-

Describe a time where you've helped someone else. Mentor ships can be informal so as you've helped someone over a period of time that can certainly count. The key is to highlight how you utilized certain skills/attributes like coaching, teaching, patience, communication skills, and so forth to mentor that person.

# Question # 47

Why do you want to work in this industry As Nuclear Equipment Design Engineer?

## Answer:

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

Read More Answers.

# Question # 48

Why were you fired?

# Answer:-

OK, if you get the admittedly much tougher follow-up question as to why you were let go (and the truth isn't exactly pretty), your best bet is to be honest (the job-seeking world is small, after all). But it doesn't have to be a deal-breaker. Share how you've grown and how you approach your job and life now as a result. If you can position the learning experience as an advantage for this next job, even better.

Read More Answers.

# Question # 49

What type of mentors do you seek out and why?

## Answer:-

Think of your top 3 mentors and what attributes they exhibit that you want to emulate. Common attributes include passion, desire, will, leadership, ability to influence others, intelligence.

Read More Answers.

# Question # 50

What are your thoughts on social media for this role?

## Answer:

Without a doubt, social media is becoming more and more pervasive in our jobs. You should stress that social media is not appropriate for personal use at work. However, if the company embraces social media in certain departments (for example marketing), then you may want to discuss how you could use it for work (as long as it applies to your role).

# Question # 51

Describe your work style?

#### Answer:

Describe the positive aspects of your work style if possible, including: work ethic, attention to detail, interpersonal skills, skill sets (analytical or otherwise), leadership abilities, communication skills.

Read More Answers.

## Question # 52

Do you work better on a team, with just one partner, or alone?

#### Answer:-

Ideally you can handle all three well, but you may have a personal preference for one or a few. The key is to make sure you understand what the job is looking for and to pair your answer with that (assuming it's true)

Read More Answers.

#### Question #53

What were the responsibilities of your last position As Nuclear Equipment Design Engineer?

#### Answer:-

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

Read More Answers.

#### Question #54

Tell me about the last time you had to work with someone inside or outside of your department to accomplish a goal?

#### Answer.

Show that you were communicative with that person and that you were able to collaborate effectively in sharing ideas and work tasks. They want to see that you can be a team player.

Read More Answers.

## Question #55

Give me an example of an emergency situation that you faced. How did you handle it?

#### Answer:-

There was a time when one of my employers faced the quitting of a manager in another country. I was asked to go fill in for him while they found a replacement and stay to train that person. I would be at least 30 days. I quickly accepted because I knew that my department couldn't function without me.

Read More Answers.

# Question # 56

What is your greatest weakness As Nuclear Equipment Design Engineer? What are you doing to improve it?

## Answer:-

I believe my biggest weakness As Nuclear Equipment Design Engineer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

Read More Answers.

## Question # 57

Do you have any question regarding this job As Nuclear Equipment Design Engineer?

## Answer:

Never ask Salary, perks, leave, place of posting, etc. regarded questions. Try to ask more about the company to show how early you can make a contribution to your organization like. "Sir, with your kind permission I would like to know more about induction and developmental programs?" OR Sir, I would like to have my feedback, so that I can analyze and improve my strengths and rectify my shortcomings.

Read More Answers.

## Question # 58

Tell me the difference between good and exceptional?

## Answer:-

Good gets the job done on time and is high quality. Exceptional is a game changer - it stands out, it's creative, it's above and beyond expectations. Tell the interviewer a story about how you were exceptional.

Read More Answers.

## Question #59

Do you like to start personal relationships with other employees?

## Answer.

Well, the right answer is yes and no. Good personal relations can improve the overall performance of a team. But on the other hand, you should not let your emotions to affect your decisions in work.

#### Read More Answers

#### Question # 60

What was the most important task you ever had?

#### Answer:-

There are two common answers to this question that do little to impress recruiters:

- \* 'I got a 2.1'
- \* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

Read More Answers

#### Question #61

What do you look for in terms of culture -- structured or entrepreneurial?

#### Answer:-

A good answer is to discuss the importance of having both elements in a company As Nuclear Equipment Design Engineer. Structure is good to maintain a focus on priorities and making sure people are productive but having an entrepreneurial spirit can help cultivate new ideas that can truly help the company.

Read More Answers.

## Question # 62

There's no right or wrong answer, but if you could be anywhere in the world right now, where would you be?

#### Answer:-

Just be honest about where you'd like to be - you never know - you may end up bonding with the interviewer with the location. However, you want to stress that you want to work out of the location that you're interviewing for.

Read More Answers.

#### Question #63

What's the least rewarding work you've ever done and why?

#### Answer-

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

Read More Answers.

# Question # 64

When was the last time something upset you at work? What did you do?

## Answer:-

Almost everyone has an emotional moment related to work at some point - you're not alone. The key is to learn why you reacted that way and to focus not on the problem but HOW to resolve it. Another key component is to be aware of your emotional response so that you can learn to control it in the future in a calm way.

Read More Answers.

# Question # 65

Are you aggressive?

## Answer:-

If you are, describe it through a story / experience that you had. If you aren't, then explain why you're not. If the job role asks for you to be aggressive/not aggressive and you're the opposite of it, explain how you would develop that characteristic.

Read More Answers.

# Question # 66

What's a time you exercised leadership?

## Answer:-

Depending on what's more important for the role, you'll want to choose an example that showcases your project management skills (spearheading a project from end to end, juggling multiple moving parts) or one that shows your ability to confidently and effectively rally a team. And remember: "The best stories include enough detail to be believable and memorable,". Show how you were a leader in this situation and how it represents your overall leadership experience and potential.

Read More Answers.

# Question # 67

How would you define success?

## Answer:

Success is defined differently for everybody. Just make sure the parameters are defined by you with regards to work life balance, financial gain, career growth, achievements, creating meaningful work / products and so forth. If you can clearly articulate what it means to you that is a strong answer.

## Question #73

What does quality work mean to you?

## Answer:

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

Read More Answers.

# Question # 74

What's the most rewarding work you've ever done and why?

## Answer:

Companies love it when you discuss how you've made an impact on your teammates, clients, or partners in the business or in school. It should be rewarding because of the hard work and creative process that you've put into it.

Read More Answers.

# Question # 75

What schedule do you hope to work? Are you willing to work extra hours?

## Answer:

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.
