Question # 3

What is eCTD? Difference between CTD & eCTD? How it will be prepared? Need of any Software?

Answer:-

The guidance on marketing applications for drugs and biologics, known as the Common Technical Document (CTD), was finalized by the International Conference on Harmonization (ICH) in 2003. Today the CTD format is mandatory for paper-based marketing applications in Europe, Japan, Canada, and other regions, and is highly recommended by FDA. The eCTD format has become mandatory in key regions for electronic submissions. Since January 2010, the European Medicines Agency has required all applications in the centralized procedure use the eCTD format. Since January 2008 FDA CDER has required all electronic submissions be in the eCTD format. FDA CDER requires the eCTD format for priority review and rolling submissions.

Question # 13

In Dry powder inhalation Andersen cascade impactor for FPF performing in that we adjusting 60LPM/MIN and time 4second, why? Explain?

Answer:-

As per USP guideline the normal healthy person is having Lungs Air volume Capacity is 4lit. and when we measure the air flow at that litre, so flow metre will show the air flow 60.

thus it mean 1 second per 1 Litre, so for the 4 litre is required 4 second, that's why we performed the Anderson Cascade at 60LPM/MIN and at 4 second
