Question # 2

Tell me why did you not choose a career in research?

Answer:-

I do enjoy aspects of the research process, including discovering a new approach of solution to a problem, but I am drawn to a career that involves the direct patient contact. In my experience as a technician I have found that I thoroughly enjoy the interactions that I have with the patients and their families. I think there is a lot to be learned and gained from the time spent at the bedside and therefore feel that I would be suited by a primary care career.

Question # 6

Tell me how did you manage your time among school, work, and other activities?

Answer:-

The strive for balance, I have learned, must be met with support. Juggling school, work and having a young family requires the support of my community of friends and family. We have made the decision to move closer to family to attend physician assistant school for that reason. It's a matter of letting go of perfection and doing your best. I realize that I need to ask for help when I need it and not wait until I'm stressed, exhausted and overwhelmed to admit that I am not SuperWoman. I love being a multi-tasker, I like wearing lots of hats. But in order to do all that well, I have to set up and utilize a strong support system. I feel blessed to have the support in my life that I do.

Question # 8

A medical practice, acts like a business, Tell me do you have any business experience?

Answer:-

I have much experience with customer service. I worked as a cook at a Pizza Hut in college. I taught high school for 12 years and smiled at unhappy parents and tried to get them to partner with me to help their child succeed. After I left teaching I worked as Lead pharmacy tech at Rite Aid and as an in-patient pharmacy tech at CHM. Both jobs required following orders quickly and accurately even if doctors, nurses, or patients barked at you.

Question # 9

Are you using this as a stepping stone to your M.D.?

Answer:-

No. I am choosing a career as a physician assistant because I have a love for medicine that I would like to be able to convey to my patients. I do not want to become an MD because I would like to eventually start a family and would like to keep my home life and work life separate.

Question # 13

What is your work ethic?

Answer:-

Being a Division 1 college athlete has taught me a great deal about work ethic and I find mine to be exceptional. There have been multiple times during workouts and games that I have felt like there was no way I could give anymore but have always found a way to push through. Also, traveling to all of our games and missing two to three days of classes a week during season when we are on the road has really taught me good work ethic. With all the distractions that come with traveling on a bus with 15 other girls, I have always worked hard to get my school work done and still maintain above average grades all due to my work ethic.

Question # 46

Tell me why did you choose PA over a doctor?

Answer:-

* I want the flexibility that comes with being a PA while still giving excellent care for my patients.

* I feel that one of the best things about being a PA is that you don't have to specialize in a particular field. PA's can practice general medicine as well as change specialties throughout their careers. I also think that PAs have the opportunity to spend more time with patients and develop strong relationships.
