Quality Assurance Specialist Job Interview Preparation Guide.

Question # 1

What experience do you have As Quality Assurance Specialist?

Answer:-

The employer would want to know that not only you can do the job but you can make the difference and bring significant contribution - Simple as that.

No doubt that this is your time to perform and present yourself - You have to introduce/sell yourself to the interviewer. Prepare your answer based on your qualification, professional experience and what you've already achieved in your previous jobs. This is your time to express why you think that your professional abilities fit into the job and its requirements.

Top 10 employment experience you'd want to review:

- * Companies you worked for with dates
- * The positions you've held
- * Key projects and responsibilities
- * Achievements
- * Coursework & continues education
- * Expertise
- * Tools you used (software, hardware)
- * Knowledge of languages
- * Engagement with customers and key industry leaders
- * Team work you were involved (and your contribution)

Question # 6

What is your dream job?

Answer:-

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may lose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

Question # 32

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

Question # 35

How would you estimate the weight of the Chrysler building?

Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.
