Software Design Tools Interview Questions And Answers Guide.

Software Design Tools Job Interview Preparation Guide.

Question # 1
Disadvantages of v model?

Answer:-
Disadvantages
â€¢ Very rigid, like the waterfall model.
â€¢ Little flexibility and adjusting scope is
difficult and expensive.
â€¢ Software is developed during the implementation
phase, so no early prototypes of the software are produced.
â€¢ Model doesn't provide a clear path for problems
found during testing phases.

Question # 4
Explain the structure of bug life cycle?

Answer:-
The following steps we follow in the bug life cycle.
1)execute the test, compare the actual result with the
documented expected result.if any discepancy exist, log the
discrepancy with the status as NEW.
2)tester/testleader(depends upon the company) OPEN that
one and review with the developer about discrepancy.
3)if it truly a discrepancy developer rectify that one and
update its status to FIXED.
4)it is routed back to the tester for regression testing
5)tester retest that one and compare the actual result with
the expected result.both are same he close the defect and
update its status to CLOSED.
6)if it is not corrected tester assign it to the developer
and update its status to RE-OPEN.
