Solar thermal engineer Job Interview Preparation Guide.

Question # 1

Tell me about the most fun you have had on the job?

Answer:-

When answering this question, discuss situations where you completed tasks benefitting your previous employers.

[Read More Answers.](#)

Question # 2

Tell me about a time you had to fire a friend?

Answer:-

Hopefully you've never had to do this, but if you did, talk about how hard it was personally to fire anyone but that you did it objectively.

[Read More Answers.](#)

Question # 3

How do you believe you would benefit our organization?

Answer:-

This is a great question that provides you the opportunity to put your best foot forward, to tell the interviewer why he or she should consider hiring you for the job. Make sure you're well prepared for this question as you won't likely get a second chance to really shine.

[Read More Answers.](#)

Question # 4

How do you think your colleagues at your last job would describe you?

Answer:-

While your CV will say a lot about your work history As Solar thermal engineer, the interviewer will most likely look for greater detail with questions such as this. Be positive about previous experience, highlighting your own strengths.

[Read More Answers.](#)

Question # 5

Where do you see your career in five years As Solar thermal engineer?

Answer:-

I would like to retire from this company. I would like to make a difference in the company whether in the company or any other position or area of the company As Solar thermal engineer.

[Read More Answers.](#)

Question # 6

Tell me about a time when you helped resolve a dispute between others?

Answer:-

Be sure to discuss a very specific example. Tell the interviewer what methods you used to solve the problem without focusing on the details of the problem.

[Read More Answers.](#)

Question # 7

You are not given the tools you need to be successful. How would you change that As Solar thermal engineer?

Answer:-

State a business case to your manager / leader as to why you need the tools and make the request for them.

[Read More Answers.](#)

Question # 8

What did you like least about your last (or current) job As Solar thermal engineer?

Answer:-

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

[Read More Answers.](#)

Question # 9

What did you dislike about your old job?

Answer:-

Try to avoid any pin point, like never say "I did not like my manager or I did not like environment or I did not like team" Never use negative terminology. Try to keep focus on every thing was good As Solar thermal engineer, I just wanted to make change for proper growth.

[Read More Answers.](#)

Question # 10

Tell me about a problem that you've solved in a unique or unusual way. What was the outcome? Were you happy or satisfied with it?

Answer:-

In this question the interviewer is basically looking for a real life example of how you used creativity to solve a problem.

[Read More Answers.](#)

Question # 11

What makes you right for this position?

Answer:-

This question can be tricky because you need to show your worth As Solar thermal engineer without sounding cocky or arrogant. Research the business ahead of time and become familiar with its mission and values. Take the time to figure out how your personal qualities fit the needs of the business and use that fit to provide your answer.

[Read More Answers.](#)

Question # 12

Did you consider yourself a team player?

Answer:-

Of course you're a team player - who isn't. But a simple yes probably isn't the response the interviewer is looking for. Be ready to provide specific example of how you've worked as part of a cohesive team to get things accomplished and how you've focus on team performance rather than individual performance. Make sure not to brag as this will make it appear as that you're more concerned about your own performance and accomplishments than those of the team.

[Read More Answers.](#)

Question # 13

Give me an example of a time when you set a goal and were able to meet or achieve it?

Answer:-

Show that you set great goals and the process and steps you took to achieve it. Details really matter here.

[Read More Answers.](#)

Question # 14

Why do you want to leave your current company As Solar thermal engineer?

Answer:-

Bad Answer: Complaining about or blaming their former job, boss or colleagues. Also, having no good reason.

Good answer: One that focuses on the positives about why the job they're applying for offers them better learning or career opportunities, chances for advancement, aligns more closely to their long term goals, or is a better fit for them.

[Read More Answers.](#)

Question # 15

What critical component of this position As Solar thermal engineer makes the work challenging?

Answer:-

Heading information: This should include job title, pay grade or range, reporting relationship (by position, not individual), hours or shifts, and the likelihood of overtime or weekend work.

Summary objective of the job: List the general responsibilities and descriptions of key tasks and their purpose, relationships with customers, coworkers, and others, and the results expected of incumbent employees.

Qualifications: State the education, experience, training, and technical skills necessary for entry into this job.

Special demands: This should include any extraordinary conditions applicable to the job As Solar thermal engineer (for example, heavy lifting, exposure to temperature extremes, prolonged standing, or travel).

Job duties and responsibilities: Only two features of job responsibility are important: identifying tasks that comprise about 90 to 95 percent of the work done and listing tasks in order of the time consumed (or, sometimes, in order of importance).

[Read More Answers.](#)

Question # 16

What are your greatest professional strengths As Solar thermal engineer?

Answer:-

When answering this question, we recommends being accurate (share your true strengths, not those you think the interviewer wants to hear); relevant (choose your strengths that are most targeted to this particular position As Solar thermal engineer); and specific (for example, instead of "people skills," choose "persuasive communication" or "relationship building"). Then, follow up with an example of how you've demonstrated these traits in a professional setting.

[Read More Answers.](#)

Question # 17

What is your greatest professional achievement?

Answer:-

Nothing says "hire me" better than a track record of achieving amazing results in past jobs As Solar thermal engineer, so don't be shy when answering this interview question! A great way to do so is by using the S-T-A-R method: Set up the situation and the task that you were required to complete to provide the interviewer with background context (e.g., "In my last job as a Solar thermal engineer, it was my role to manage the invoicing process"), but spend the bulk of your time describing what you actually did (the action) and what you achieved (the result). For example, "In one month, I streamlined the process, which saved my group 10 man-hours each month and reduced errors on invoices by 25%."

[Read More Answers.](#)

Question # 18

What do you think about Teamwork?

Answer:-

I enjoy teamwork and am used to shift work. I think I would adapt well to the role. I am looking for new challenges As Solar thermal engineer and I know I would learn a lot as cabin crew, not just about people and places, but skills like first aid too, how can I help others with in my limits.

[Read More Answers.](#)

Question # 19

What have you learned from mistakes on the job?

Answer:-

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

[Read More Answers.](#)

Question # 20

Can you tell me a little about yourself?

Answer:-

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Solar thermal engineer. Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

[Read More Answers.](#)

Question # 21

If you were given more initiatives than you could handle, what would you do?

Answer:-

First prioritize the important activities that impact the business most. Then discuss the issue of having too many initiatives with the boss so that it can be offloaded. Work harder to get the initiatives done.

[Read More Answers.](#)

Question # 22

Do you think you are overqualified for this position As Solar thermal engineer?

Answer:-

No matter your previous job experience or educational background, be sure to tell the interviewer you have the knowledge and skills to successfully execute the job responsibilities.

[Read More Answers.](#)

Question # 23

What have you learned from mistakes on this job?

Answer:-

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

[Read More Answers.](#)

Question # 24

What can you offer me that another person can't?

**Answer:-**

This is when you talk about your record of getting things done. Go into specifics from your resume and portfolio; show an employer your value and how you'd be an asset.

You have to say, "I'm the best person for the job As Solar thermal engineer. I know there are other candidates who could fill this position, but my passion for excellence sets me apart from the pack. I am committed to always producing the best results. For example..."

[Read More Answers.](#)

Question # 25

Do you work well within a team?

Answer:-

Some people are thrown when they are asked this Solar thermal engineer question when they are applying for a position to work alone. Every company works as a team, so you are a good team player, give an example of when you have worked well within a team.

[Read More Answers.](#)

Question # 26

Describe your work style?

Answer:-

Describe the positive aspects of your work style if possible, including: work ethic, attention to detail, interpersonal skills, skill sets (analytical or otherwise), leadership abilities, communication skills.

[Read More Answers.](#)

Question # 27

What skills do you bring to the table?

Answer:-

Think of your skill sets with regards to: analytical skills, interpersonal skills, communication skills, computer skills, presentation skills, management skills, sales skills and so forth.

[Read More Answers.](#)

Question # 28

What will your ramp time be before you become a meaningful contributor?

Answer:-

Companies want staff that can ramp quickly, but also want people who are realistic. So take into consideration how intense the job is and then give a good answer. For example, if you have simple responsibilities that don't require a huge development curve, then your ramp time will probably be shorter. If it's a complex set of skills that you need to develop, then your ramp time could be longer - the key is you have to explain why you believe that ramp time should be.

[Read More Answers.](#)

Question # 29

Have you ever mentored anyone before? If yes, describe the situation?

Answer:-

Describe a time where you've helped someone else. Mentor ships can be informal so as you've helped someone over a period of time that can certainly count. The key is to highlight how you utilized certain skills/attributes like coaching, teaching, patience, communication skills, and so forth to mentor that person.

[Read More Answers.](#)

Question # 30

Why do you want to work in this industry As Solar thermal engineer?

Answer:-

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

[Read More Answers.](#)

Question # 31

Do you have the ability to articulate a vision and to get others involved to carry it out?

Answer:-

If yes, then share an example of how you've done so at work or college. If not, then discuss how you would do so. Example: "I would first understand the goals of the staff members and then I would align those to the goals of the project / company. Then I would articulate the vision of that alignment and ask them to participate. From there, we would delegate tasks among the team and then follow up on a date and time to ensure follow through on the tasks. Lastly, we would review the results together."

[Read More Answers.](#)

Question # 32

What motivates you to succeed?

Answer:-

Your interviewer will likely want to know the reasons why you will remain motivated to do your best during your employment with the company As Solar thermal engineer. Perhaps you are interested in being challenged, but you may also have interest in being recognized for your hard work in the form of the number of sales

Solar thermal engineer Interview Questions And Answers

you can attain. A great example answer for this question is "I always do my best in everything, including my job. I take pride in my success, and I also want the company for which I work to be successful. Being affiliated with a company that is known for its excellence is very important to me."

[Read More Answers.](#)

Question # 33

Did you get on well with your last manager?

Answer:-

A dreaded question for many! When answering this question never give a negative answer. "I did not get on with my manager" or "The management did not run the business well" will show you in a negative light and reduce your chance of a job offer. Answer the question positively, emphasizing that you have been looking for a career progression. Start by telling the interviewer what you gained from your last job As Solar thermal engineer

[Read More Answers.](#)

Question # 34

Do you like being around people?

Answer:-

People skills are a necessity for medical assistants. When answering this question, be sure to show that you enjoy interacting and working with others and that you also derive great enjoyment from helping others. This will show that you are a team player and that you would be a valuable team member As Solar thermal engineer.

[Read More Answers.](#)

Question # 35

Why should I hire you As Solar thermal engineer?

Answer:-

To close the deal on a job offer, you MUST be prepared with a concise summary of the top reasons to choose you. Even if your interviewer doesn't ask one of these question in so many words, you should have an answer prepared and be looking for ways to communicate your top reasons throughout the interview process.

[Read More Answers.](#)

Question # 36

How important is the vision of the company to you?

Answer:-

It should be very important if you want a long standing career. Remember, you're investing your time, energy and earnings potential into a company so you want to make sure it's a sustainably successful company that will grow with you over the long haul.

[Read More Answers.](#)

Question # 37

Explain me about a challenge or conflict you've faced at work As Solar thermal engineer, and how you dealt with it?

Answer:-

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[Read More Answers.](#)

Question # 38

What are three positive characteristics you wish you had?

Answer:-

The key here is to be honest about your wish list but then to describe how you plan on developing or growing those characteristics so that it becomes a reality. For example, I wish I had a stronger work ethic and I am reading a book right now about how to instill a better discipline around getting work done efficiently.

[Read More Answers.](#)

Question # 39

How would you impact the company?

Answer:-

Consider first the role that you're applying for and then think of 3 ways where you could potentially impact the company's bottom line and top line. Then consider how you impact the company in a creative manner (how do you help productivity, the development of new products, marketing etc - of course this part is specific to the role you're applying for)

[Read More Answers.](#)

Question # 40

How do you imagine a typical day of an employee in our company As Solar thermal engineer?

Answer:-

Just do not say that you imagine to only walk and watch what people do. Rather try to show them your attention to details and proactive attitude to job. Mention that you would try to observe the problems, weaknesses as well as opportunities to improve the results and take measures according to it.

[Read More Answers.](#)

Question # 41

What type of extracurricular activities are you a part of?

Answer:-

Discuss the clubs / activities you were in, share a personal story about why you enjoyed it and then describe how it's helped shape you to be who you are today. For example, I enjoyed rock climbing because it taught me the value of practicing hard at a sport to become skilled in it. I bring this same diligence to my work approach today as well.

[Read More Answers.](#)

Question # 42

Why are you the best fit for this job As Solar thermal engineer?

Answer:-

Analyze the job responsibilities and match those to your skills sets. Then discuss how your experience and skills sets can truly create the best impact to the company in that specific job role. Impact could mean marketing impressions, sales, cutting costs, making products more efficiently, creating better customer service, engineering new designs that create customer excitement, etc.

[Read More Answers.](#)

Question # 45

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Answer:-

Do the following steps:

* 1. Turn ON two switches, and leave one OFF.

* 2. Wait a few minutes.

* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

[Read More Answers.](#)

Question # 46

What classes did you enjoy most in college and why?

Answer:-

Think back to the classes that either resonated with your passion or truly helped you to develop skills that you believe will help you in your career. Talk about those.

[Read More Answers.](#)

Question # 47

What are your salary requirements As Solar thermal engineer?

Answer:-

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

[Read More Answers.](#)

What do you already know about our company?

Answer:-

Good reputation of a large home grown company that has various departments and product.

[Read More Answers.](#)

Question # 49

How do you feel about giving back to the community?

**Answer:-**

Describe your charitable activities to showcase that community work is important to you. If you haven't done one yet, go to www.globalguideline.com - charitable work is a great way to learn about other people and it's an important part of society - GET INVOLVED!

[Read More Answers.](#)

Question # 50

How do you inspire others to be better?

Answer:-

First, the key to inspiring others is to first understand what their goals and objectives are. Once you understand what people want, you can inspire them with a vision that aligns to what they care about. People generally care about having purpose, being successful (and being recognized for it), contributing in a meaningful way, and financial rewards (to a degree) and much more. Then once you understand what people set as goals, you can inspire them through 1:1 pep talks, a presentation to multiple people and so forth.

[Read More Answers.](#)

Question # 51

How would you observe the level of motivation of your subordinates?

Answer:-

Choosing the right metrics and comparing productivity of everyone on daily basis is a good answer, doesn't matter in which company you apply for a supervisory role.

[Read More Answers.](#)

Question # 52

How would you define success?

Answer:-

Success is defined differently for everybody. Just make sure the parameters are defined by you with regards to work life balance, financial gain, career growth, achievements, creating meaningful work / products and so forth. If you can clearly articulate what it means to you that is a strong answer.

[Read More Answers.](#)

Question # 53

What type of work environment do you prefer?

Answer:-

Ideally one that's similar to the environment of the company you're applying to. Be specific.

[Read More Answers.](#)

Question # 54

Explain me about your experience working in this field As Solar thermal engineer?

Answer:-

I am dedicated, hardworking and great team player for the common goal of the company I work with. I am fast learner and quickly adopt to fast pace and dynamic area. I am well organized, detail oriented and punctual person.

[Read More Answers.](#)

Question # 55

Give me an example of when you competed hard and won?

Answer:-

You can reference many different areas here when discussing a story of where you won in competition: Work experience (ideal), sports, clubs, classes, projects.

[Read More Answers.](#)

Question # 56

What's the least rewarding work you've ever done and why?

Answer:-

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

[Read More Answers.](#)

Question # 57

How do you think I rate as an interviewer?

Answer:-

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day.

I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.

[Read More Answers.](#)

Question # 58

Explain an occasion when you had to adapt in the face of a difficult situation?

Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[Read More Answers.](#)

Question # 59

What does quality work mean to you?

Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

Question # 60

Give an example of a time you successfully worked As Solar thermal engineer on a team?

Answer:-

On the whole I prefer to stick to doing what I'm told rather than setting myself up to fail by doing things off my own bat. But there was this one time when I suggested to my boss at the pizza parlor that she try offering an 'all you can eat' deal to students to boost trade on Mondays. She thought it was an interesting idea but nothing ever came of it.

[Read More Answers.](#)

Question # 61

How do you evaluate your ability to handle conflict?

Answer:-

I pride myself on being a good problem solver. Through my previous job and management positions I have faced numerous conflicts in different situations, and my experiences have helped me to hone my issue resolution skills. I believe that it is important to get to and address the root of the issue, in a respectable manner.

[Read More Answers.](#)

Question # 62

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

[Read More Answers.](#)

Question # 63

How would you rate your communication and interpersonal skills for this job As Solar thermal engineer?

Answer:-

These are important for support workers. But they differ from the communication skills of a CEO or a desktop support technician. Communication must be adapted to the special ways and needs of the clients. Workers must be able to not only understand and help their clients, but must project empathy and be a warm, humane presence in their lives.

[Read More Answers.](#)

Question # 64

What would you like to have accomplished by the end of your career?

Answer:-

Think of 3 major achievements that you'd like to accomplish in your job when all is said and done - and think BIG. You want to show you expect to be a major contributor at the company. It could be creating a revolutionary new product, it could be implementing a new effective way of marketing, etc.

[Read More Answers.](#)

Question # 65

What types of personalities do you work with best?

Answer:-

In the past, I have found it difficult to work with others who see themselves as better than others, who can take criticism, and who refuse to work with others. I have found it challenging to work with them b/c I am a team oriented person who feels the importance of working together over the needs of the individual especially in a learning environment.

[Read More Answers.](#)

Question # 66

How do you plan to go by an example for your subordinates?

Answer:-

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.

[Read More Answers.](#)

Question # 67

Do you have good computer skills?

Answer:-

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[Read More Answers.](#)

Question # 68

Tell me something about your family background?

Answer:-

First, always feel proud while discussing about your family background. Just simple share the details with the things that how they influenced you to work in an airline field.

[Read More Answers.](#)

Question # 69

What do you think is your greatest weakness?

Answer:-

Don't say anything that could eliminate you from consideration for the job. For instance, "I'm slow in adapting to change" is not a wise answer, since change is par for the course in most work environments. Avoid calling attention to any weakness that's one of the critical qualities the hiring manager is looking for. And don't try the old "I'm a workaholic," or "I'm a perfectionist."

[Read More Answers.](#)

Question # 70

What kind of salary do you need As Solar thermal engineer?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

Question # 71

Why are you leaving your current job?

Answer:-

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

[Read More Answers.](#)

Question # 72

What problems have you encountered at work?

Answer:-

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

[Read More Answers.](#)

Question # 73

What is your greatest weakness As Solar thermal engineer? What are you doing to improve it?

Answer:-

I believe my biggest weakness As Solar thermal engineer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

[Read More Answers.](#)

Question # 74

How much do you expect to get paid As Solar thermal engineer?

Answer:-

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[Read More Answers.](#)

Question # 75

How do you keep each member of the team involved and motivated?

Answer:-

Many managers mistakenly think that money is the prime motivator for their employees. However, according to surveys by several different companies, money is consistently ranked five or lower by most employees. So if money is not the best way to motivate your team, what is?

Employees' three most important issues according to employees are:

- * Respect
- * A sense of accomplishment
- * Recognition

Question # 76

Do you have any question regarding this job As Solar thermal engineer?

Answer:-

Never ask Salary, perks, leave, place of posting, etc. regarded questions. Try to ask more about the company to show how early you can make a contribution to your organization like. "Sir, with your kind permission I would like to know more about induction and developmental programs?" OR Sir, I would like to have my feedback, so that I can analyze and improve my strengths and rectify my shortcomings.
