Sr. Software Engineer Job Interview Preparation Guide.

Question # 1

Describe a time when you put your needs aside to help a co-worker understand a task. How did you assist them? What was the result?

Answer:-

The key is to show that the mentoring of a co-worker was first a higher priority than the task you had at hand (remember, you want to show that you focus on highest priority tasks first). Then, describe in detail how you helped them not only complete the task but learn to do it on their own. You want to teach them HOW to fish and not to simply fish for them.

Question # 2

What have you done to improve your skills over the past year As Sr. Software Engineer?

Answer:-

You'll want to be prepared with some very specific examples of what you've done over the last year and what you're currently doing to improve your professional knowledge and skill set as well as anything else you're doing that shows self improvement.

[Read More Answers.](#)

Question # 3

What is your typical way of dealing with conflict? Give me an example?

Answer:-

First, find out what the root of the problem is. Second, determine the best steps to remediation with the best possible outcome. Third, take action to put remediation plans in place.

[Read More Answers.](#)

Question # 4

What did you like least about your last (or current) job As Sr. Software Engineer?

Answer:-

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

[Read More Answers.](#)

Question # 5

Where do you see yourself in five years? Ten years?

Answer:-

Bad Answer: A generic or uninspired answer. Also, answers that show that this career/company is just a temporary stop for them.

Good answer: One that shows the candidate has thought about this question, has plans, and that those plans align with the job and a career path that is possible in the company. You want to see that this candidate is a good long term investment.

Question # 6

Top 11 Interview Questions to Ask when Emotional Intelligence Matters As Sr. Software Engineer:

Answer:-

Emotional intelligence, or EQ, has come into vogue as a good trait to hire for.

EQ is the ability to use emotional information to guide thinking and behavior, to recognize other people's emotions and your own, and to discriminate between different feelings and label them appropriately.

EQ is considered essential to help teams function well. Here are some of the top questions for help you get an idea of how candidates perceive their emotions and those of others.

1. If you started a company today, what would its top values be?

2. Who inspires you? Why?
3. How could you create more balance in your life?
4. What makes you angry?
5. How do you have fun?
6. How good are you at asking for help?
7. How did you deal with a bad day?
8. What's something you're really proud of? Why?
9. Tell me about a time when your mood altered your performance (positively or negatively).
10. Has there ever been a time when you felt you needed to change your behavior at work? How did you do it?
11. Did you create friendships that lasted while working at a previous job?

[Read More Answers.](#)

Question # 7

Tell me about a problem that you've solved in a unique or unusual way. What was the outcome? Were you happy or satisfied with it?

Answer:-

In this question the interviewer is basically looking for a real life example of how you used creativity to solve a problem.

[Read More Answers.](#)

Question # 8

How have you made an impact on your team in the past?

Answer:-

I would explain and show to him or her best way possible and if they have a better way then I will encourage him or her to let me know then we can see if it works or not As Sr. Software Engineer.

Question # 9

Top 12 Stress Based Interview Questions As Sr. Software Engineer:

Answer:-

Some jobs require employees to work under stress, and some interviewers just like to see how applicants handle stressful questions.

There are many questions designed for putting the interviewee into an awkward situation, or throwing them off, to see how they do under stress. Here are some samples.

1. How do you feel this interview is going As Sr. Software Engineer?
2. How would you handle undeserved criticism from a superior?
3. How many other jobs are you applying for?
4. What would you do if you saw a colleague stealing supplies or equipment?
5. What did you do when you had a boss you didn't get along with?
6. What would you do if a colleague took credit for your idea, and got a promotion?
7. Was the stress of your previous job too much for you?
8. What would you do if a colleague admitted to lying on their resume to get the job?
9. What would you do if a customer verbally insulted you in front of co-workers?
10. What would you change about the design of a baseball hat?
11. Why were you fired from your previous job As Sr. Software Engineer?
12. How successful do you think you've been so far?

[Read More Answers.](#)

Question # 10

Have you ever you have been in a position As Sr. Software Engineer where you've had to fire someone? How did you feel about that experience?

Answer:-

Be very thoughtful about your answer. This is a very serious matter for most companies and requires a very serious answer. You need to express that you will do it when it is the right thing to do but you don't want to give the impression that you're callus to the process. Don't forget that firing is not the same as laying someone off - it typically is for the direct benefit of the company.

[Read More Answers.](#)

Question # 11

How do you handle confidentiality in your work?

Answer:-

Often, interviewers will ask questions to find out the level of technical knowledge As Sr. Software Engineer that a candidate has concerning the duties of a care assistant. In a question such as this, there is an opportunity to demonstrate professional knowledge and awareness. The confidentiality of a person's medical records is an important factor for a care assistant to bear in mind.

[Read More Answers.](#)

Question # 12

What have you done to improve your knowledge As Sr. Software Engineer in the last year?

Answer:-

Try to include improvement activities that relate to the job As Sr. Software Engineer. A wide variety of activities can be mentioned as positive self-improvement. Have some good ones handy to mention.

Question # 13

Top 17 Behavioral Interview Questions As Sr. Software Engineer:

Answer:-

Behavioral interviews As Sr. Software Engineer were popularized by industrial psychologists in the 1970s, and have been used at big companies like AT&T. The idea behind them is that past responses to situations are the best predictor of how candidates will respond in the future.

1. Tell me about a time you faced a conflict while working as part of a team.
2. Talk about a goal you set for yourself. What did you do to make sure you met the goal?
3. Give an example of a time when you had to work with someone with a very different personality from yours.
4. Talk about an instance where you wish you'd handled a situation differently with a team member.
5. What's the most difficult problem you have had to solve As Sr. Software Engineer?
6. Give an example of how you handled a situation where you needed information from a colleague who wasn't responsive.
7. Talk about a time when you had problems building a relationship with a key team member. What did you do?
8. Tell me about an instance when it was important to make a great impression on a client. What did you do?
9. Tell me about a situation where you had to work with a difficult client.
10. Tell me about a situation where you disappointed a client, and how you tried to fix it.
11. Talk about a time when you had to strategize to meet all your obligations.
12. Talk about a time when you failed at something. How did you react?
13. Talk about a time you took on a leadership role.
14. Tell me about a long-term project you oversaw. How did you keep it focused and on schedule?
15. Talk about a time when you were under a lot of stress. What caused it, and how did you manage?
16. Do you prefer to work alone or with others As Sr. Software Engineer?
17. Tell me about a time when you were overwhelmed by the amount of work on your agenda. How did you handle it?

[Read More Answers.](#)

Question # 14

Give me a specific example of a time when you had to conform to a policy with which you did not agree?

Answer:-

You want to first understand why the policy was put into effect. From there, if you truly disagree with it, explain your position to your management. If they don't change it, then you must accept their decision and continue to work or the alternative decision would be to find a new job.

[Read More Answers.](#)

Question # 15

Do you think you are overqualified for this position As Sr. Software Engineer?

Answer:-

No matter your previous job experience or educational background, be sure to tell the interviewer you have the knowledge and skills to successfully execute the job responsibilities.

[Read More Answers.](#)

Question # 16

What can you offer us that someone else can not?

Answer:-

Bad Answer: Going negative - if the candidate starts trash talking other candidates, it's a sure sign of a bad attitude. Also, if they can't provide a solid answer, it may show that they lack thorough knowledge of the skills the job requires, and an understanding of where they fit in.

Good answer: The candidate can name specific skills, abilities or understandings they have that apply directly to the job that other candidates are unlikely to have, or are in short supply.

[Read More Answers.](#)

Question # 17

What do you consider to be your greatest strength?

Answer:-

There isn't any right answer. Just make sure to make your response positive and true. A few good examples include: Your ability to solve complex problems, Your ability to work well on a team, Your ability to shine under pressure, Your ability to focus in chaotic situations, Your ability to prioritize and organize, Your ability to cut through the fluff to identify the real issues, Your ability to influence other positively. If your strength relates to the position in question that will be more beneficial - but again be honest, don't create a strength for yourself just because you think it will sound good.

[Read More Answers.](#)

Question # 18

Do you consider yourself successful?

Answer:-

You should always answer yes to this question. Briefly explain why without going on and on. If you communicate that you're more successful than you really are you may come off as arrogant or unrealistic. A goof explanation is that you have set professional goals and that you have met some of these goals and are on track to meet more in the near future.

[Read More Answers.](#)

Question # 19

What would your previous employer say is your greatest strength?

Answer:-

Sr. Software Engineer Interview Questions And Answers

Be prepared for this question. If you have to sit and think about it it's going to appear as if you're not sure or that you've never identified your own value in the work place - not good. You don't have to have a complex response. Keep it simple and honest. For example, several possibilities could be Leadership, Problem solving ability, Initiative, Energy, Work ethic, Innovative, etc., etc.

[Read More Answers.](#)

Question # 20

What are your greatest professional strengths As Sr. Software Engineer?

Answer:-

When answering this question, we recommends being accurate (share your true strengths, not those you think the interviewer wants to hear); relevant (choose your strengths that are most targeted to this particular position As Sr. Software Engineer); and specific (for example, instead of "people skills," choose "persuasive communication" or "relationship building"). Then, follow up with an example of how you've demonstrated these traits in a professional setting.

[Read More Answers.](#)

Question # 21

Tell me about a difficult decision you've made in the last year As Sr. Software Engineer?

Answer:-

We all have difficult decisions in our lives. Show how you were able to arrive at it and then how you decisively acted.

[Read More Answers.](#)

Question # 22

What position do you prefer on a team working on a project?

Answer:-

Do not claim to be comfortable with a specific role if you in are in fact not comfortable with it. However, if you have no problem working in certain roles or situations, be sure to discuss this with the interviewer.

[Read More Answers.](#)

Question # 23

Do you have any blind spots?

Answer:-

This question is often meant to trick candidates since acknowledgment of blind spots would indicate they were aware of them. Also, do not disclose bad habits or other personal concerns. Let the interviewer find out about your personal flaws through the course of the interview without directly stating these flaws.

[Read More Answers.](#)

Question # 24

How do you think you might fit this position As Sr. Software Engineer?

Answer:-

An important part of research before the interview is what the company does and how the job role relates to that. This includes the company philosophy and working methods. Questions such as this seek to find out how a candidate will fit into the organisation As Sr. Software Engineer. Answer positively; including practical examples of how you anticipate you would perform in the new role.

[Read More Answers.](#)

Question # 25

What have you learned from mistakes on this job?

Answer:-

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

[Read More Answers.](#)

Question # 26

What are ideas or initiatives you've led and what was the outcome?

Answer:-

Describe your most unique ideas and initiatives that had the best results for the company. Make sure you highlight your creativity, your results, your diligence and your ability to execute.

[Read More Answers.](#)

Question # 27

How do you deal with pressure or stressful situations?

Answer:-

Choose an answer that shows that you can meet a stressful situation head-on in a productive, positive manner and let nothing stop you from accomplishing your goals. A great approach is to talk through your go-to stress-reduction tactics (making the world's greatest to-do list, stopping to take 10 deep breaths), and then share an example of a stressful situation you navigated with ease.

Question # 28

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Answer:-

Do the following steps:

* 1. Turn ON two switches, and leave one OFF.

* 2. Wait a few minutes.

* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

[Read More Answers.](#)

Question # 29

How would you estimate the weight of the Chrysler building?

Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

[Read More Answers.](#)

Question # 30

What's a time you disagreed with a decision that was made at work?

Answer:-

Everyone disagrees with the boss from time to time, but in asking this interview question As Sr. Software Engineer, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong." Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

[Read More Answers.](#)

Question # 31

What differentiates you from the competition?

Answer:-

Think about what you bring to the table that you truly believe is unique - the easiest way to do is to think of your own personal stories that demonstrate your work ethic, skills, and dedication. Most people have some or all of those skills, but the unique stories are what make people stand out in interviews.

[Read More Answers.](#)

Question # 32

What is your greatest strength? How does it help you As Sr. Software Engineer?

Answer:-

One of my greatest strengths, and that I am a diligent worker... I care about the work getting done.. I am always willing to help others in the team.. Being patient helps me not jump to conclusions... Patience helps me stay calm when I have to work under pressure.. Being a diligent worker.. It ensures that the team has the same goals in accomplishing certain things.

[Read More Answers.](#)

Question # 33

Explain a time when you did not get along with your coworker?

Answer:-

I used to lock heads with a fellows. We disagreed over a lot of things - from the care of civilians to who got what shifts to how to speak with a victim's family. Our personalities just didn't mesh. After three months of arguing, I pulled her aside and asked her to lunch. At lunch, we talked about our differences and why we weren't getting along. It turns out, it was all about communication. We communicated differently and once we knew that, we began to work well together. I really believe that talking a problem through with someone can help solve any issue.

[Read More Answers.](#)

Question # 34

Why do you want to work in this industry As Sr. Software Engineer?

Answer:-

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

[Read More Answers.](#)

Question # 35

What other companies are you interviewing at?

Answer:-

Be open and share if you are indeed interviewing elsewhere, but do it in a humble way. This way you don't seem arrogant and the interviewer knows your skills are valued by other companies. This also tends to make them want you more as they know they are competing for your services.

[Read More Answers.](#)

Question # 36

How do you inspire others to be better?

Answer:-

First, the key to inspiring others is to first understand what their goals and objectives are. Once you understand what people want, you can inspire them with a vision that aligns to what they care about. People generally care about having purpose, being successful (and being recognized for it), contributing in a meaningful way, and financial rewards (to a degree) and much more. Then once you understand what people set as goals, you can inspire them through 1:1 pep talks, a presentation to multiple people and so forth.

[Read More Answers.](#)

Question # 37

How do you feel about technology at the workplace in general?

Answer:-

It's a great enabler for us to collaborate better as a team, for us to reach customers more efficiently and frequently and I believe it can help any company become more efficient, leaner, and more productive.

[Read More Answers.](#)

Question # 38

What types of books or magazines do you typically read?

Answer:-

Describe both your personal and professional favorites. If you happen to like professional books / magazines that relate to the industry of the company you're applying for - that's definitely worth highlighting.

[Read More Answers.](#)

Question # 39

What type of personalities do you work best with and why?

Answer:-

Think of which personalities you work best with (do you like outgoing, collaborative, personable working relationships and so forth?)

[Read More Answers.](#)

Question # 40

Did the salary we offer attract you to this job?

Answer:-

The interviewer could be asking you this question for a number of reasons. Obviously, the salary is an important factor to your interest in this job, but it should not be the overriding reason for your interest. A good answer to this question is, "The salary was very attractive, but the job itself is what was most attractive to me."

[Read More Answers.](#)

Question # 41

Explain me about a challenge or conflict you've faced at work As Sr. Software Engineer, and how you dealt with it?

Answer:-

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[Read More Answers.](#)

Question # 42

What qualities do you believe are important to have as a manager?

Answer:-

Great managers tend to empower their employees to be successful through strong coaching. They understand how to manage relationships - this is commonly referred to as emotional intelligence. They have to be able to handle both client and staff situations that require them to be calm under pressure to clearly think of solutions to complex problems. Most importantly they must be able to articulate the vision to the team and inspire them to work together to collectively achieve that goal

[Read More Answers.](#)

Question # 43

How would you describe your approach to Sr. Software Engineer?

Answer:-

In more general terms, a question such as this gives a candidate the opportunity to talk about their professional philosophy and skills. While the question is general in nature, the best answers are usually quite specific, picking one or two points and exemplifying them with instances from personal history.

[Read More Answers.](#)

Question # 44

Describe a time where you've failed and bounced back?

Answer:-

Share a story to describe this. For example: "I accidentally made the mistake of telling a customer I could deliver on a solution set on a certain date and then later found out our business partner couldn't do it on that time. I learned that I shouldn't rush into important decisions and promises like this and that I should always check with my counterparts first before committing to a statement of work."

[Read More Answers.](#)

Question # 45

What have you done to reduce costs, increase revenue, or save time?

Answer:-

Even if your only experience is an internship, you have likely created or streamlined a process that has contributed to the earning potential or efficiency of the practice. Choose at least one suitable example and explain how you got the idea, how you implemented the plan, and the benefits to the practice.

[Read More Answers.](#)

Question # 46

Why are you leaving the present company?

Answer:-

According to me we can not grow in the field without taking more responsibilities and risks and also we can't enhance our team leading capabilities, managerial skills without expose to wide range of people.

[Read More Answers.](#)

Question # 47

How important is the vision of the company to you?

Answer:-

It should be very important if you want a long standing career. Remember, you're investing your time, energy and earnings potential into a company so you want to make sure it's a sustainably successful company that will grow with you over the long haul.

[Read More Answers.](#)

Question # 48

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[Read More Answers.](#)

Question # 49

How have you achieved your success?

Answer:-

Discuss stories of how you've progressed over the years to achieve success. People relate best to stories.

[Read More Answers.](#)

Question # 50

Why should we select you not others?

Answer:-

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. You may say like I think I am really qualified for the position. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

[Read More Answers.](#)

Question # 51

How much do you expect to get paid As Sr. Software Engineer?

Answer:-

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[Read More Answers.](#)

Question # 52

Give me an example of when you competed hard and won?

Answer:-

You can reference many different areas here when discussing a story of where you won in competition: Work experience (ideal), sports, clubs, classes, projects.

[Read More Answers.](#)

Question # 53

How do you evaluate your ability to handle conflict?

Answer:-

I pride myself on being a good problem solver. Through my previous job and management positions I have faced numerous conflicts in different situations, and my experiences have helped me to hone my issue resolution skills. I believe that it is important to get to and address the root of the issue, in a respectable manner.

[Read More Answers.](#)

Question # 54

Describe a typical work week for this position As Sr. Software Engineer?

Answer:-

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position As Sr. Software Engineer you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[Read More Answers.](#)

Question # 55

What is your biggest achievement?

Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

Question # 56

Do you work well under pressure?

Answer:-

Yes.. When it comes down to the wire, the best thing I can to remain focused, have some flexibility, and understand priorities.. Giving them attention in the order they are needed.

[Read More Answers.](#)

Question # 57

Why are you leaving your current job?

Answer:-

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

[Read More Answers.](#)

Question # 58

How would you rate your communication and interpersonal skills for this job As Sr. Software Engineer?

Answer:-

These are important for support workers. But they differ from the communication skills of a CEO or a desktop support technician. Communication must be adapted to the special ways and needs of the clients. Workers must be able to not only understand and help their clients, but must project empathy and be a warm, humane presence in their lives.

[Read More Answers.](#)

Question # 59

What do you think we could do better or differently?

Answer:-

This is a common one at startups. Hiring managers want to know that you not only have some background on the company, but that you're able to think critically about it and come to the table with new ideas. So, come with new ideas! What new features would you love to see? How could the company increase conversions? How could customer service be improved? You don't need to have the company's four-year strategy figured out, but do share your thoughts, and more importantly, show how your interests and expertise would lend themselves to the job.

[Read More Answers.](#)

Question # 60

What would you like to have accomplished by the end of your career?

Answer:-

Think of 3 major achievements that you'd like to accomplish in your job when all is said and done - and think BIG. You want to show you expect to be a major contributor at the company. It could be creating a revolutionary new product, it could be implementing a new effective way of marketing, etc.

[Read More Answers.](#)

Question # 61

How have you changed in the last five years?

Answer:-

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[Read More Answers.](#)

Question # 62

What's your salary history?

Answer:-

When you are interviewing for a new job, it is common practice for the company to ask you about your salary history. I typically want to know what the candidate's base salary is, if they receive any bonus, the average bonus amount, and any additional compensation or perks, such as 500k matching, stock grants or stock options, paid time off and how much they are required to pay towards their medical premiums.

[Read More Answers.](#)

Question # 63

How do you handle stressful situations?

Answer:-

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[Read More Answers.](#)

Question # 64

What kind of salary do you need As Sr. Software Engineer?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[Read More Answers.](#)

Question # 65

Explain an occasion when you had to adapt in the face of a difficult situation?

Answer:-

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[Read More Answers.](#)

Question # 66

What is your greatest weakness As Sr. Software Engineer? What are you doing to improve it?

Answer:-

I believe my biggest weakness As Sr. Software Engineer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

[Read More Answers.](#)

Question # 67

What does quality work mean to you?

Answer:-

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[Read More Answers.](#)

Question # 68

What features of your previous jobs have you disliked?

Answer:-

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

Question # 69

Do you have good computer skills?

Answer:-

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

Question # 73

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question # 75

Give me an example of an emergency situation that you faced. How did you handle it?

Answer:-

There was a time when one of my employers faced the quitting of a manager in another country. I was asked to go fill in for him while they found a replacement and stay to train that person. I would be at least 30 days. I quickly accepted because I knew that my department couldn't function without me.
