This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.
