# Technologist Metallurgical Engineering Job Interview Preparation Guide.

#### Question # 1

Why do you want this job As Technologist Metallurgical Engineering?

#### Answer:-

This question typically follows on from the previous one. Here is where your research will come in handy. You may want to say that you want to work for a company that is Global Guideline, (market leader, innovator, provides a vital service, whatever it may be). Put some thought into this beforehand, be specific, and link the company's values and mission statement to your own goals and career plans.

#### Question # 2

What is your biggest weakness As Technologist Metallurgical Engineering?

#### Answer:-

No one likes to answer this question because it requires a very delicate balance. You simply can't lie and say you don't have one; you can't trick the interviewer by offering up a personal weakness As Technologist Metallurgical Engineering that is really a strength ("Sometimes, I work too much and don't maintain a work-life balance."); and you shouldn't be so honest that you throw yourself under the bus ("I'm not a morning person so I'm working on getting to the office on time.")

# Question # 3

Are you good at working in a team As Technologist Metallurgical Engineering?

# Answer:-

Before you answer, consider how you best contribute to a team:

- \* Do you get along easily with people?
- \* Are you an effective collaborator?
- \* Can you communicate with people from various backgrounds and with different personalities?
- \* Can you motivate people?
- \* Do you know how to push back tactfully?
- \* Can you mediate conflicts?
- \* Can you deal with difficult personalities?

# Question # 4

Tell me about a time you failed?

# Answer:-

Everyone has failed, so don't play dumb or claim you've never messed up As Technologist Metallurgical Engineering. Think of a time when a work-related situation didn't turn out quite as you had hoped. An interviewer is interested in seeing how you took responsibility for your failure, what you learned from it, and how you would prevent similar failures from happening again.

# Question # 5

Tell me about yourself?

# Answer:

There are some questions that your potential employer aren't allowed to ask (but trust me, they probably want to). For instance, they shouldn't really ask about your family or how far away you live from your potential place of employment. If you can find a way to answer these questions anyway (with the answers they want to hear), that will give them a little added info to help them make the (right) decision!

Read More Answers.

# Question # 6

What have you done to improve your knowledge As Technologist Metallurgical Engineering in the last year?

#### Answer-

Try to include improvement activities that relate to the job As Technologist Metallurgical Engineering. A wide variety of activities can be mentioned as positive self-improvement. Have some good ones handy to mention.

Read More Answers.

# Question #7

Are you currently looking at other job opportunities?

#### Answer:-

Just answer this question honestly. Sometime an employer wants to know if there are other companies you're considering so that they can determine how serious you are about the industry, they're company and find out if you're in demand. Don't spend a lot of time on this question; just try to stay focused on the job you're interviewing for.

Read More Answers.

# Question #8

What is your dream job?

#### Answer:-

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may loose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

Read More Answers.

#### Question #9

What are your strengths As Technologist Metallurgical Engineering?

#### Answer-

This is one of the most common questions you will be asked. Give an answer relevant to the skills and qualities relevant to the position you are applying to. The interviewer is trying to find if your strengths match the job. For example, if you are applying for a job As Technologist Metallurgical Engineering where accuracy is an important issue, one of your strengths could be that you have an eye for detail. It may useful to find different words to describe similar attributes and qualities in order to avoid repetition.

# Question # 11

Tell us about a typical day at work. How does it start? What do you do?

# Answer:

At the beginning of each day, I inspect the work site to make sure that it is hazard-free. Once the work site is secured, I verify that all tools and equipment are adequate in supply. As soon as the work orders are delivered, I provide workers with security guidelines and carry out drills. During the workday, it is my duty to monitor workers to ensure that they are working according to the enforced safety policies and that any problems or accidents are quickly addressed.

# Question # 12

What critical component of this position As Technologist Metallurgical Engineering makes the work challenging?

# Answer:

Heading information: This should include job title, pay grade or range, reporting relationship (by position, not individual), hours or shifts, and the likelihood of overtime or weekend work.

Summary objective of the job: List the general responsibilities and descriptions of key tasks and their purpose, relationships with customers, coworkers, and others, and the results expected of incumbent employees.

Qualifications: State the education, experience, training, and technical skills necessary for entry into this job.

Special demands: This should include any extraordinary conditions applicable to the job As Technologist Metallurgical Engineering (for example, heavy lifting, exposure to temperature extremes, prolonged standing, or travel).

Job duties and responsibilities: Only two features of job responsibility are important: identifying tasks that comprise about 90 to 95 percent of the work done and listing tasks in order of the time consumed (or, sometimes, in order of importance).

# Question #14

Did you consider yourself a team player?

#### Answer:

Of course you're a team player - who isn't. But a simple yes probably isn't the response the interviewer is looking for. Be ready to provide specific example of how you've worked as part of a cohesive team to get things accomplished and how you've focus on team performance rather than individual performance. Make sure not to brag as this will make it appear as that you're more concerned about your own performance and accomplishments than those of the team.

# Question #15

Why are you leaving last job?

#### Answer:-

Although this would seem like a simple question, it can easily become tricky. You shouldn't mention salary being a factor at this point As Technologist Metallurgical Engineering. If you're currently employed, your response can focus on developing and expanding your career and even yourself. If you're current employer is downsizing, remain positive and brief. If your employer fired you, prepare a solid reason. Under no circumstance should you discuss any drama or negativity, always remain positive.

# Question # 18

Explain yourself in one line?

# Answer:-

When you respond, keep in mind the type of position you are interviewing for like Technologist Metallurgical Engineering based job, the company culture, and the work environment. Your answer should help show the interviewer why you're a match for the job and for the company.

Sample answers are:

- \* I'm a people person. I really enjoy meeting and working with a lot of different people.
- \* I'm a perfectionist. I pay attention to all the details, and like to be sure that everything is just right.
- \* I'm a creative thinker. I like to explore alternative solutions to problems and have an open mind about what will work best.
- \* I'm efficient and highly organized. This enables me to be as productive as possible on the job.
- \* I enjoy solving problems, troubleshooting issues, and coming up with solutions in a timely manner.

Read More Answers.

# Question #19

What have you learned from mistakes on this job?

# Answer:-

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

Read More Answers.

# Question # 20

How do you propose to compensate for your lack of experience?

# Answer:

The first thing you should do is discuss experience you have the interviewer is unfamiliar with. Once that is detailed, tell the person conducting the interview that you are able to learn new tasks and information in a reasonable period of time and possess a strong work ethic. However, only state this if you can live up to these expectations.

# Question # 21

Do you ever take work home with you?

# Answer:-

Here are two great sample answers that might help get you started:

- \* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.
- \* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.
- \* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

# Question # 24

Tell me a difficult situation you have overcome in the workplace?

#### Answer:-

Conflict resolution, problem solving, communication and coping under pressure are transferable skills desired by many employers As Technologist Metallurgical Engineering.

Answering this question right can help you demonstrate all of these traits.

- \* Use real-life examples from your previous roles that you are comfortable explaining
- \* Choose an example that demonstrates the role you played in resolving the situation clearly
- \* Remain professional at all times you need to demonstrate that you can keep a cool head and know how to communicate with people

# Question # 25

What's a time you disagreed with a decision that was made at work?

# Answer:

Everyone disagrees with the boss from time to time, but in asking this interview question As Technologist Metallurgical Engineering, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong,". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

# Question # 26

Why do you feel you will excel at rhis job?

# Answer:-

This question presents an excellent opportunity for you to discuss your education, qualifications and personal traits. You might say something like "I studied property management as well as behavior during my college years and I have two years' experience in real estate.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." This shows your interviewer that you have all of the skills necessary to become successful not only for yourself, but also for your employer.

# Question # 28

What motivates you to succeed?

# Answer:-

Your interviewer will likely want to know the reasons why you will remain motivated to do your best during your employment with the company As Technologist Metallurgical Engineering. Perhaps you are interested in being challenged, but you may also have interest in being recognized for your hard work in the form of the number of sales you can attain. A great example answer for this question is "I always do my best in everything, including my job. I take pride in my success, and I

also want the company for which I work to be successful. Being affiliated with a company that is known for its excellence is very important to me."

# Question #29

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

#### Answer:-

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

#### Question #30

How would you estimate the weight of the Chrysler building?

#### Answer:-

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

# Question #32

What is your greatest failure As Technologist Metallurgical Engineering, and what did you learn from it?

#### Answer-

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

# Question # 41

What other companies are you interviewing with?

# Answer:-

Companies ask this for a number of reasons, from wanting to see what the competition is for you to sniffing out whether you're serious about the industry. "Often the best approach is to mention that you are exploring a number of other similar options in the company's industry,". It can be helpful to mention that a common characteristic of all the jobs you are applying to is the opportunity to apply some critical abilities and skills that you possess. For example, you might say 'I am applying for several positions with IT consulting firms where I can analyze client needs and translate them to development teams in order to find solutions to technology problems.'

# Question # 58

What are your salary expectations As Technologist Metallurgical Engineering?

# Answer:

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

# Question # 65

How would your friends describe you?

My friends would probably say that I'm extremely persistent - I've never been afraid to keep going back until I get what I want. When I worked as a program developer, recruiting keynote speakers for a major tech conference, I got one rejection after another - this was just the nature of the job. But I really wanted the big players - so I wouldn't take no for an answer. I kept going back to them every time there was a new company on board, or some new value proposition. Eventually, many of them actually said "yes" - the program turned out to be so great that we doubled our attendees from the year before. A lot of people might have given up after the first rejection, but it's just not in my nature. If I know something is possible, I have to keep trying until I get it.

# Question #68

Do you have any question regarding this job As Technologist Metallurgical Engineering?

Never ask Salary, perks, leave, place of posting, etc. regarded questions. Try to ask more about the company to show how early you can make a contribution to your organization like. "Sir, with your kind permission I would like to know more about induction and developmental programs?" OR Sir, I would like to have my feedback, so that I can analyze and improve my strengths and rectify my shortcomings.

# Question #69

Have you got any questions?

#### Answer:

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

#### Question #72

How many square feet of pizza are eaten in the United States each month?

#### Answer-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

# Question #73

How do you think I rate as an interviewer?

# Answer:-

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day.

I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.
