Question # 6

What critical component of this position In Unix Qa makes the work challenging?

Answer:-

Heading information: This should include job title, pay grade or range, reporting relationship (by position, not individual), hours or shifts, and the likelihood of overtime or weekend work.
Summary objective of the job: List the general responsibilities and descriptions of key tasks and their purpose, relationships with customers, coworkers, and others, and the results expected of incumbent employees.
Qualifications: State the education, experience, training, and technical skills necessary for entry into this job.
Special demands: This should include any extraordinary conditions applicable to the job In Unix Qa (for example, heavy lifting, exposure to temperature extremes, prolonged standing, or travel).
Job duties and responsibilities: Only two features of job responsibility are important: identifying tasks that comprise about 90 to 95 percent of the work done and listing tasks in order of the time consumed (or, sometimes, in order of importance).

Question # 7

Have you ever you have been in a position In Unix Qa where you've had to fire someone? How did you feel about that experience?

Answer:-

Be very thoughtful about your answer. This is a very serious matter for most companies and requires a very serious answer. You need to express that you will do it when it is the right thing to do but you don't want to give the impression that you're callus to the process. Don't forget that firing is not the same as laying someone off - it typically is for the direct benefit of the company.

Question # 15

Your coworker highlights your mistakes in front of everyone, how do you handle the situation?

Answer:-

Admit to the mistake without being emotional, but then discuss how you are being proactive in getting it fixed. Lastly, pull the co-worker aside later on to tell them that you'd appreciate it if they gave you the feedback 1:1 first before throwing you under the bus.

Question # 16

Tell us something about yourself?

Answer:-

Bad Answer: Candidates who ramble on about themselves without regard for information that will actually help the interviewer make a decision, or candidates who actually provide information showing they are unfit for the job.
Good answer: An answer that gives the interviewer a glimpse of the candidate's personality, without veering away from providing information that relates to the job. Answers should be positive, and not generic.

Question # 17

How do you measure success?

Answer:-

There may be several good answers. Some include: you're able to set realistic, yet aggressive goals that push you and you're able to achieve them, you go the extra mile on all projects, client satisfaction is high, your boss is elated at your performance on all projects, etc.

Question # 18

Explain what are your weaknesses In Unix Qa?

Answer:-

Red flags: This is the peanut butter to the previous question's jelly. Again, everyone should expect it, so it's a bad sign if someone seems totally unprepared, or gives a stock answer like, "I'm a perfectionist." Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.
Good answer: Candidates should talk about a real weakness they've been working on improving. For instance, they're not good at public speaking, but they've been taking a course to help them improve. Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task. Answers like these show a desire for improvement, self awareness and discipline.

Question # 19

How much are you willing to sacrifice to be successful at work In Unix Qa?

Answer:-

With anything comes sacrifice. The questions is how much of it are you willing to sacrifice with regards to work life balance, stress, etc?

Question # 20

Answer:-

Do not claim to be comfortable with a specific role if you in are in fact not comfortable with it. However, if you have no problem working in certain roles or situations, be sure to discuss this with the interviewer.

Question # 21

Do you know anyone working with this organization?

Answer:-

It would be great if you did - then you could potentially use them as a referral if they thought highly of you.

Question # 22

What are you passionate about?

Answer:-

Ask yourself - what are your core passions that you wake up excited to act on each and every day? Ask yourself what makes you happy or drives you - is it helping others? Is it making money? Is it creating something? Is it about changing the world? Etc.

Question # 23

What motivates you to succeed?

Answer:-

Your interviewer will likely want to know the reasons why you will remain motivated to do your best during your employment with the company In Unix Qa. Perhaps you are interested in being challenged, but you may also have interest in being recognized for your hard work in the form of the number of sales you can attain. A great example answer for this question is "I always do my best in everything, including my job. I take pride in my success, and I also want the company for which I work to be successful. Being affiliated with a company that is known for its excellence is very important to me."

Question # 24

How do you imagine a typical day of an employee in our company In Unix Qa?

Question # 25

What is your greatest failure In Unix Qa, and what did you learn from it?

Answer:-

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

Choose at least one suitable example and explain how you got the idea, how you implemented the plan, and the benefits to the practice.

Question # 35

How well do you multi-task?

Answer:-

Multi-tasking is an important part of most jobs. You want to show that you're good at it but not overwhelmed with it. So discuss just a few things you can multi-task well on - for example: "I'm good at multi tasking between work email and working on projects In Unix Qa and the reason it because I'm good at prioritizing my work emails.

Question # 36

Where do you see yourself in five years In Unix Qa?

Answer:-

If asked this question, be honest and specific about your future goals, but consider this:
A hiring manager wants to know
* a) if you've set realistic expectations for your career,
* b) if you have ambition (a.k.a., this interview isn't the first time you're considering the question), and
* c) if the position aligns with your goals and growth. Your best bet is to think realistically about where this position could take you and answer along those lines. And if the position isn't necessarily a one-way ticket to your aspirations?
It's OK to say that you're not quite sure what the future holds, but that you see this experience playing an important role in helping you make that decision.

Question # 37

What differentiates this company from other competitors?

Answer:-

Be positive and nice about their competitors but also discuss how they are better than them and why they are the best choice for the customer. For example: "Company XYZ has a good product, but I truly believe your company has a 3-5 year vision for your customer that aligns to their business needs."

Question # 38

What are three positive character traits you don't have?

Answer:-

List three attributes that you aspire to attain / build in the next few years - and then explain how you would develop those.

Question # 39

What's been your biggest failure to date?

Answer:-

Describe your biggest failure and discuss what you've learned from it and ideally how you've been successful since because of that lesson.

Question # 40

Do you have the ability to articulate a vision and to get others involved to carry it out?

Answer:-

If yes, then share an example of how you've done so at work or college. If not, then discuss how you would do so. Example: "I would first understand the goals of the staff members and then I would align those to the goals of the project / company. Then I would articulate the vision of that alignment and ask them to participate. From there, we would delegate tasks among the team and then follow up on a date and time to ensure follow through on the tasks. Lastly, we would review the results together."

Question # 41

What do you consider to be your weaknesses?

Answer:-

What your interviewer is really trying to do with this question-beyond identifying any major red flags-is to gauge your self-awareness and honesty. So, "I can't meet a deadline to save my life In Unix Qa" is not an option-but neither is "Nothing! I'm perfect!" Strike a balance by thinking of something that you struggle with but that you're working to improve. For example, maybe you've never been strong at public speaking, but you've recently volunteered to run meetings to help you be more comfortable when addressing a crowd.

Question # 55

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).
Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question # 57

Explain me about a time when you reached a goal within a tight deadline?

Answer:-

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

Question # 58

Are you planning to continue your studies and training In Unix Qa?

Answer:-

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

Question # 59

Are you aggressive?

Answer:-

If you are, describe it through a story / experience that you had. If you aren't, then explain why you're not. If the job role asks for you to be aggressive/not aggressive and you're the opposite of it, explain how you would develop that characteristic.

Question # 60

Tell me the difference between good and exceptional?

Answer:-

Good gets the job done on time and is high quality. Exceptional is a game changer - it stands out, it's creative, it's above and beyond expectations. Tell the interviewer a story about how you were exceptional.

Question # 61

If I were to give you this salary you requested but let you write your job description for the next year, what would it say?

Answer:-

It should say the same thing - after all - if you think this salary is fair then it should suit the responsibilities!

Question # 62

What kind of salary do you need In Unix Qa?

Answer:-

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

Question # 63

How much do you expect to get paid In Unix Qa?

Answer:-

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

Question # 64

What would you do if our competitor offered you a position In Unix Qa?

Answer:-

I would weigh the offer and consider it, however, this company and this role is my first choice.

Question # 65

What would your first 30, 60, or 90 days look like in this role In Unix Qa?

Answer:-

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.
